

Wait at Terminal 21

by Hong Sek Chern

Chinese ink on rice paper

Ms. Hong Sek Chern's Wait at Terminal 21 is the design inspiration for the cover of this year's UOB Annual Report. The painting received the Gold Award for the Established Artist category in the 2014 UOB Painting of the Year (Singapore) Competition. It is symbolic of the beliefs and actions that can bind people and shape their future.

Ms Hong was inspired by the determination, persistence and resilience of the Thai people and sought to capture these qualities in her painting. She portrayed a democracy movement at Bangkok's Terminal 21 shopping mall, employing her signature style which is a complex interplay of architectural blocks and lines.

The UOB Painting of the Year Competition, which is now in its 33rd year, promotes awareness and appreciation of art and challenges artists to produce work that inspires audiences across Southeast Asia.

PT Bank UOB Indonesia at A Glance

PT Bank UOB Indonesia (UOB Indonesia) was founded on the 31st of August 1956 under the name PT Bank Buana Indonesia. In May 2011, the Bank changed its name to PT Bank UOB Indonesia. UOB Indonesia's service network comprises 41 branch offices, 168 sub-branch offices and 189 ATMs across 30 cities in 18 provinces in Indonesia. UOB Indonesia's banking services are also accessible through its regional ATM network, the ATM Prima and ATM Bersama networks, and the Visa network. UOB Indonesia is rated AAA (idn) by the independent rating agency Fitch Ratings. The Bank has also won the Platinum Award for Exceptional Financial Performance from Infobank Magazine for 10 consecutive years.

UOB Indonesia is well known for its focus on small and medium enterprises, and a strong retail customer base. The Bank has successfully built both a consumer as well as a corporate banking business, which offers treasury and cash management

products and services. With its extensive network of services, information technology systems, sound capital structure and highly qualified staff, UOB Indonesia aims to create sustainable long-term value for its stakeholders. UOB Indonesia's focus remains on transforming UOB Indonesia into a market leader through disciplined growth and stability. UOB Indonesia understands the importance of corporate social responsibility through its focus on promoting arts and education, as well as helping children. For the past three years, UOB Indonesia has organised the prestigious Painting of the Year Competition and Exhibition. UOB Indonesia also encourages active participation from all of its employees in its corporate social responsibility programmes through regular volunteer activities. This includes the annual UOB Heartbeat Run which is held simultaneously in Indonesia, Singapore, Malaysia, Thailand and mainland China.

Vision

To be a trusted bank in Indonesia, committed to providing quality products and excellent customer services to our valued customers.

Mission

To provide a superior banking service, to meet the needs of the wholesale and retail market, deliver professionalism in human resources, and increase added value for all stakeholders in a sustainable manner.

Core Values

Integrity

Maintain and implement a high standard of ethics, morality and law, in all communications and customers' activities, as well as communities by setting aside personal interests.

Teamwork

Cooperate as a team, helping each other to achieve common goals, while understanding their own individual functions and tasks.

Trust and Respect

Trust and respect customers as well as business partners and treat everyone with an open mind; honestly and respectfully.

Performance Excellence

Strive for better performance and to become a market leader in the banking industry.

About United Overseas Bank Limited

United Overseas Bank Limited (UOB) is one of the leading banks in Asia with a global network of more than 500 offices in 19 countries and territories in Asia Pacific, Western Europe and North America. Since its inception in 1935, UOB has grown organically and through a series of strategic acquisitions. In Asia it operates through its branches and representative offices as well as banking subsidiaries in China, Indonesia, Malaysia, the Philippines, Singapore and Thailand.

UOB is rated among the world's top banks: Aa1 by Moody's and AA- by Standard and Poor's and Fitch Ratings respectively. UOB provides a wide range of financial services including personal financial services, private banking, business banking, commercial and corporate banking, transaction banking, investment banking, corporate finance, capital market activities, treasury services, futures broking, asset management, venture capital management and insurance.

In Singapore, UOB is a leader in the credit and debit cards business and the private home loans business. It is also a key player in loans to small and medium enterprises. Its fund management arm, UOB Asset Management, is one of Singapore's most awarded fund managers. UOB also plays an active role in the community, focusing on the arts, education and children. It has, for more than three decades, held the longest-running art competition in Singapore; the UOB Painting of the Year.

In recognition of its contributions to the arts, UOB was conferred by the National Arts Council's Distinguished Patron of the Arts Award for the ninth consecutive year in 2013. UOB also encourages its employees across the region to be involved in its regular volunteer activities. This includes the annual UOB Heartbeat Run, which is held in Singapore, Malaysia, Indonesia, Thailand and mainland China.

2014s

2014 Issuing Bank UOB Indonesia Self-Registration Bond I of 2014.

Message from the President Commissioner

UOB Indonesia is committed to supporting businesses and customers through a robust mix of conservativeness and entrepreneurship.

Global growth in 2014 was lacklustre as divergent strategies from central banks on interest rates, foreign exchange volatility and commodity price swings have contributed to increased uncertainty in the global market.

Despite the challenging environment, the Indonesian economy grew by 5.1 per cent in 2014 and PT Bank UOB Indonesia (UOB Indonesia) remained equally responsive to market opportunities, growing both its loan portfolio by 7.64 per cent and deposit portfolio by 10.40 per cent.

Looking ahead, we will continue to practise prudence and be disciplined in managing our business. We will stay focused on delivering quality growth, while remaining watchful over emerging risks. With our greatest asset, that is our people, we will continue to invest in and equip them with the knowledge and skills to provide consistently high quality products and services.

UOB Indonesia is committed to supporting Indonesian businesses and customers through a robust mix of conservativeness and entrepreneurship. I have every confidence that by maintaining this balance, the Bank will remain resilient to economic headwinds and continue creating sustainable value for our shareholders and customers.

On behalf of the Board of Commissioners, I thank our customers for their loyalty towards UOB Indonesia and I extend my utmost appreciation to the Board of Directors, management and employees.

Wee Cho Yaw
President Commissioner

March 2015

Report from the President Director

We are committed to be a reliable bank at a national and regional level by improving the Bank's service quality and putting customers first.

2014 was a challenging year for the national banking industry. It was a year marked by the slowing down of the economy, rising interest rates and tight liquidity.

In the face of such challenges, PT Bank UOB Indonesia (UOB Indonesia) was selective in growing its business and remained prudent as we balanced opportunities and risks.

Maintaining Sound Financial Performance

UOB Indonesia achieved a net profit of Rp0,81 trillion in 2014. Our total assets reached Rp80,05 trillion, up by 12.14 per cent compared with Rp71,38 trillion in the previous year. We increased our net loans by 7.64 per cent to Rp55,83 trillion. The biggest contribution to our net loan achievement came from the Commercial Banking segment, which accounts for 45.76 per cent of the Bank's total net loan portfolio.

During the year, total third party funds grew by 10.40 per cent to Rp63,24 trillion. Our current accounts and savings portfolio reached Rp17,08 trillion, up 16.79 per cent compared with 2013. By implementing a strategy of focusing on liquidity growth to support credit growth, the Bank's loan-to-deposit ratio (LDR) continued to be at a sound level of 89.31 per cent.

Challenges and Target Achievement in 2014

In the midst of tight liquidity and interest rate increases in 2014, the Bank was able to achieve a net interest income at 104.76 per cent of the target determined for 2014. Bank increased cost efficiency on operational funds lower than the given target at 91.45 per cent.

The Bank achieved 102.21 per cent from third party funds and 94.46 per cent for credit of the target determined for 2014, meanwhile, realisation of the credit target reached 94.46 per cent.

Deepening Customers Relationship and Improving Service Quality

UOB Indonesia is committed to put customers at the centre of what we do. We strive to maintain existing and obtain new quality customers. We believe in the importance of building business sustainability by maintaining good relations with customers.

We place an emphasis on responding to our customers' needs and doing what is right for them. We have always endeavoured to improve our service quality, marked by the improved customer service settlement to 81.64 per cent during the year.

Report from the President Director

Awards

During 2014, UOB Indonesia received various awards from reputable institutions and agencies, both at national and international levels. This included *the Alpha Southeast Asia Deal & Solution Awards 2014* in the Best Structured and Commodity Trade Finance Solution category, The Asset Triple A Transaction Banking Awards in the Best Structured and Commodity Trade Finance Solution category from *the Asset Magazine*, Indonesia Bank Loyalty Award (IBLA 2014) from *The Marketeers* and *Markplus Insight*, and Contact Centre Service Excellence Awards (CCSEA) 2014.

Commitment to Deliver the Best Service

We believe that our people must be equipped not only with the right skills, but also an innovative and transformative mind-set to be among the best in the industry. In order to strengthen Human Resources, we continuously recruit new talents according to the Bank's requirements.

We have implemented a Single Captain Concept, in which all Regional Heads and Branch Managers have the authority and responsibility to increase the Bank's performance through their own respective areas. The responsibility shall cover the business, risks, operations and compliance aspects as guidance in delivering the best services to customers.

Optimizing Information Technology (IT) Infrastructure

We continue to invest in our IT infrastructure to support the Bank's local and regional ambitions. This includes projects such as iBranch, Global Electronic Banking (GEB), Rating Master, Basel II & KYC system, and ATM chip card enhancement. Going forward, the Bank will be able to provide better services to customers.

Security is of the utmost priority for each IT program, as we do not tolerate security breaches in any of our customer's transaction.

Prudent Banking Practices

We believe that every action must be in accordance with good corporate governance (GCG) and standards. We are committed to the development, adoption, monitoring and maintenance of these GCG practices to align with the Bank's strategy.

The Bank's compliance directorate has implemented various GCG programs and policies as part of the efforts to strengthen the Bank's compliance culture and to ensure that all employees are responsible.

We actively speak with employees through direct meetings, training or disseminating information using the video channel, which is regularly broadcasted during the Company's official events.

Making a Difference in the Community

At UOB Indonesia, our business philosophy is to share our success with the local communities. The focus of our CSR program is to support art, children and education for the nation's future growth.

2014 was the fourth year of success for UOB Indonesia in organizing the most prestigious and longest-running art contests for the UOB Painting of the Year. It is a competition which was pioneered by UOB Group in 1982, and has garnered many winners across Southeast Asia. UOB Indonesia has attracted 579 local, established and emerging artists combined, and contributed more than 1,000 paintings during the year. This year is the second time Indonesia has been awarded the first winner of UOB Regional South-East Asia Painting of the Year.

In addition to the UOB Painting of the Year, UOB Indonesia conducted another CSR activity, UOB Heartbeat Run/Walk Family Days in Surabaya, East Java. This activity is part of our efforts to strengthen the bonds with employees, employees' families and communities where we operate. Our fundraising efforts raised more than Rp260 million, and was used to support educational facilities, provide medical treatment for blind children and provide financial education and assistance for underprivileged women.

We took the initiative to promote a Financial Literacy campaign to educate the youth, women, and small and medium entrepreneurs. Furthermore, we provided scholarships to performing students and employees.

Our staff took part in a series of voluntary initiatives such as blood donations and engaged in a green office campaign to create a more environmental friendly office.

Business Outlook

We are confident with the conditions for 2015. Amid the global uncertainty which remains, we believe Indonesia will continue to experience growth.

Our disciplined and prudent approach will enable us to grow as we continue to focus on the core fundamentals of banking – ensuring balance sheet strength and building capabilities for the future. We will continue to strengthen our main business by increasing the growth in Personal Financial Services, Business Banking, Commercial Banking, Corporate Banking and Financial Institution segments.

As part of a strong regional bank in Asia, we are ready to welcome the Asian Economic Community in 2015.

UOB Indonesia is committed to provide value to all stakeholders and shareholders. On behalf of the Board of Directors, I wish to express my sincere appreciation to all our loyal customers who have made us their banking partner.

Finally, I would like to thank the management and staff for their hard work and dedication, as well as our shareholders for their continued trust and support.

Armand Bachtiar Arief
President Director

MANAGEMENT DISCUSSION AND ANALYSIS

Macroeconomic Overview 2014

The Indonesian economy in 2014 is still decelerating. However, the economic growth rate in 2014 of 5.1 per cent is still one of the highest compared to the growth of the G-20 countries. Economic growth in 2014 was mainly driven by increasing domestic demand, especially household consumption, construction investment and government consumption. On the external side, exports contracted sharply, primarily due to a weak demand in emerging markets and falling commodity prices in line with weak global economic growth and macro-economic stabilisation policies.

The rupiah against the US dollar (USD) by the end of 2014 amounted to Rp12,385 per 1 USD, a depreciation of 1.8 per cent compared to the end of 2013, which amounted to Rp12,170 per 1 USD. The weakening of the rupiah against the US dollar is influenced by internal factors such as the high balance of payments deficit and external factors such as The FED plans to raise US interest rates.

In November 2014, the Indonesian government decided to transfer the fuel subsidy to the productive sector. This condition resulted in a response from Bank Indonesia which increased the benchmark rate by 25 bps to 7.75 per cent. This policy was in anticipation of a surge in inflation due to the impact of rising fuel prices. At the end of 2014, the inflation rate was quite restrained at a level of 8.4 per cent.

During 2014, Bank Indonesia issued various macroprudential policies including the improvement of the rules of hedging swap transactions between banks and the central bank. These policies were aimed at encouraging the deepening of financial markets and required corporations to hedge against foreign currency liabilities held as an attempt to limit the risk of the corporation default. Meanwhile the Financial Services Authority managed to reduce competition in the banking liquidity that occurred in 2014 by imposing an upper limit of deposit rates for banks included in the classification BUKU 3 and BUKU 4.

The new government is collaborating closely with the regulator which raises hopes for the improvement in Indonesia's economic growth in 2015, which is expected to rise towards 5.3 per cent. The inflation rate is expected to decline to around 3.9 per cent and may encourage Bank Indonesia to lower its benchmark interest rate. Nevertheless, Bank Indonesia will always be aware of the changes that will be caused by external factors such as US monetary policy.

Overview of Banking Performance 2014

In 2014, Bank Indonesia along with the Financial Services Authority proactively drove banking industrial growth through a set of policies issued towards a more realistic and sustainable level. This led to the resilience of national banking in sustaining its existence and to overcome economic challenges that occurred in 2014.

Total assets of national banking reached Rp5,615 trillion as of the end of 2014 or 13.3 per cent higher than the position booked in 2013. Return on Assets (ROA) for Banking scored 2.9 per cent in 2014.

The loan portfolio grew 11.6 per cent to Rp3,674 trillion. The growth of banking loans was followed by a higher Non-Performing Loan (NPL) Ratio to 40 bps from 1.8 per cent at the end 2013 to 2.2 per cent at the end of 2014. The decrease in the credit quality was mainly driven by a deceleration of the national economy.

Meanwhile, from the fund collection side, third party fund growth collected by national banking reached 12.3 per cent and valued Rp4,114 trillion at the end of 2014. The increase in third party funds was mainly underpinned by the higher acquisition of time deposits.

The capital position of national banking remained sound by recording a 19.6 per cent Capital Adequacy Ratio (CAR), 150 bps higher than the 18.1 per cent at the end of 2013.

The Bank believes that the Government, backed by the regulator, will continue to maintain the banking sector in a sound and firm condition to support national economic growth. The Bank has the full support of the shareholders and is committed to contribute and realize growth in both the national banking and the Indonesian economy.

Business Prospects and Development Strategy

Business Prospects

Bank Indonesia is confident that inflation will be controlled and achieve goals of approximately 4 ± 1 per cent 2015, while the current account deficit will be in the range of 2.5 per cent – 3 per cent of GDP. The diffusion of Bank Indonesia's monetary and macroprudential policies will be focused on the initiatives to bring macroeconomy stability amid rising uncertainty in the global financial market. Meanwhile, the Financial Services Authority will continue with a prudent banking policy direction and strengthening of the banking sector capital to create solid banking conditions in the face of economic challenges.

Management Discussion and Analysis

On the international side, global economic recovery is taking place and is mainly underpinned by stronger economic growth in United States (US). The US economic recovery is supported by higher consumption as the oil price is declining and also a favourable employment sphere. The US economic condition recovery will support Indonesian export growth.

With respect to these conditions, economic growth in 2015 is estimated to be higher with a 5.4 per cent – 5.8 per cent growth projection. The economic growth is forecasted to be predominantly backed by an expansion of Government investment in line with a rising fiscal capacity to support productive economic activity, including infrastructure development as mandated in the State Budget and Expenditure 2015 that has been approved by Parliament.

This condition will create both challenges and opportunities for the Indonesian banking sector. Hence, the Bank is optimistic about the economic and Indonesian banking prospects as well as the support initiatives taken by the regulators to build solid banking conditions.

Business Development Strategy

The Bank has also prepared a business development strategy targeted at capturing new business opportunities and increase positive business growth and performance, including:

- a. Business Development: focused on the retail segment as the Bank's core competency by striving to strengthen the entire business lines in the Company.
- b. Third Party Fund Growth: intensifying low-cost fund collection from saving accounts and current accounts to optimize net interest income acquisition.
- c. Continuously strengthening equity to support business growth.
- d. Optimizing distribution channels, office network development and building a stronger Bank image.
- e. Consistently improving the quality of customer service, both by diversifying products and services offered as well as by developing services under a total relationship concept.
- f. Constantly strengthen the best-performing culture and business orientation in all working functions.
- g. Expanding and increasing business/transactions which generate fee-based income.

Marketing Aspect

The Bank has commenced a series of marketing activities to simultaneously support business development and raise UOB Indonesia's brand awareness among society.

The Bank has marketed primary products and services throughout 2014 through various advertising campaigns and other programs, including:

- UOB Nabung Langsung Untung
Marketing program for U-Save and U-Plan products.
- Home Smart Home – Smart Way to Own a House Marketing program for UOB Mortgage products.
- Giro 88
Marketing program for the Bank's current account product.
- UOB Premier Talk
A breakthrough concept in customer networking to get closer to customers and also provide an opportunity for the Bank's customers to expand the network to other customers.
- Workshop and Customer Training
A small workshop focusing on preferred customers to present market updates and latest trends on international trade practices to obtain suggestions on products and services offered by the Bank.

In addition, the products and services of the Bank are also accessible in 209 of the Bank's office network, which is spread across Indonesia and 191 ATMs connected with more than 109,000 ATM Prima and the ATM bersama network, ATM VISA network worldwide as well as the United Overseas Bank Limited Group at a regional level.

To expand the marketing area, the Bank has optimized existing branch offices and ATMs as well as planning to launch Business Internet Banking and Personal Internet Banking to improve services to customers.

The Bank consistently focuses on the retail segment (consumer and Business Banking) as our primary target market, while also continuing to empower our Commercial Banking and Corporate Banking segments at the same time. For the retail segment, the Bank will maintain both product and program innovation and synergize with our shareholders where possible to enable and also increase cross selling. Meanwhile, in the Commercial Banking and Corporate Banking segments, the Bank will focus on a particular industry, by leveraging value chain implementation and total relationship to comprehensively service the customer's needs.

Operational Review

Business Segment

PT Bank UOB Indonesia (UOB Indonesia) has classified its business segment into 5 (five) segments according to the classification of services provided. In 2014, the Bank's business segments covered a set of banking services and products for the following segments: Personal Financial Services, Business Banking, Commercial Banking, Corporate Banking, and Financial Institution, as our latest brand new business segment.

Personal Financial Services

For the individual customer segment, UOB Indonesia offers Personal Financial Services (PFS). Banking products and services offered under the PFS segment includes Deposit Investment Insurance (DII), Privilege Banking, Mortgage and Credit Card.

To achieve its targets in 2014, the Bank recruited new sales officers to acquire new customers from the middle segment (personal banking), and launched an attractive funding product as well as providing added-value for the customers. In addition, the Bank also supported periodic products training, for sales officers and performed mystery shopping to ensure that the products and services offered complied with the Bank's existing policies.

PFS contributed to 13.26 per cent of the total loans disbursed and 37.74 per cent of the total UOB Indonesia fund as of the end of 2014 with the acquisition of the PFS segment revenue to Rp1.13 trillion in 2014 or an increase of 9.25 per cent (yoy) from the PFS segment income booked at the end of 2013.

In 2015, the Bank has planned to develop PFS business products by recruiting more sales officers to cater new customers in the core segment; reactivating dormant customers to encourage cross-selling activities; to modifying deposit products and attractive promotion products from each segment in competing with other peer banks, and completing cross-selling on deposits, treasury, investment and insurance products to boost fee-based income.

The detailed performance of PFS sub-segments is explained below:

Deposit Investment Insurance

Deposit Investment Insurance (DII) offers banking products comprising of deposit products and wealth management. The products include mutual funds, retail bonds, foreign exchange and structured product transactions with dedicated personal bankers and relationship managers to provide a financial consulting service.

As of the end of 2014, total funds collected by DII amounted to Rp23.86 trillion. To boost the deposit portfolio, DII launched U-Plan and U-Save products and offered direct prizes for opening saving accounts under the UOB Nabung Langsung Untung program. These programs are intended to encourage our customers to save and earn interest.

Privilege Banking

Privilege Banking is a banking service dedicated for customers with total assets under management of above Rp1 billion. Its target market is the middle-upper class whose number continues to rise particularly in the major cities all over Indonesia.

Through the Privilege Banking segment, UOB Indonesia offers its customers various high quality banking products and services to help achieve customers' financial goals, ranging from Deposit products including, the UOB High Yield Account which offers premium features, Investment product, Bancassurance, Mortgage, Wealth Management Advisory services offering the latest market information and deeper knowledge on wealth management products to suit the customers' needs, to simple tools such as, a Wealth Planning Calculator to help customers in calculating saving needs for future retirement and education. In addition, UOB Privilege Banking also offers a UOB Privilege Banking Debit Card and a UOB Platinum Credit Card with attractive offers from preferred merchants.

Complementing the lifestyle of our customers and their families, UOB Privilege Banking also presents top-notch privileges including, Medical privileges in Indonesia and Singapore, Travel privileges which provide customers with the utmost convenience when travelling through the airport, and Lifestyle privileges such as, gifts on customers' special occasions and special invitations to events and seminars on topics such as lifestyle, wealth, and health.

As of December 2014, Privilege Banking booked a total income of Rp15.14 trillion from 11,199 customers, or an increase of 11.55 per cent (yoy). The realisation contributed 10.41 per cent to the total Bank revenue acquired in 2014.

Mortgage

UOB Indonesia also provides a Mortgage facility under the PFS segment by offering a loan facility to customers to purchase residential houses, shop houses, office houses, apartments, and house renovation/construction loans, take-over loans, a top-up facility and assets backed financing/multipurpose. Mortgage products offered by UOB are complemented with attractive features ranging from competitive interest rates, attractive marketing programs, flexible installment payments and a loan tenure of up to 20 years.

Amid a weakening Mortgage market over 2014, the Mortgage segment has successfully increased the portfolio by 13.5 per cent to Rp6.2 trillion. This was contributed from the implementation of a strategy applied by the Bank in marketing products through the Home Smart Home Mortgage rebranding, cooperation network expansion with developers and property brokers, the optimisation of the branches' role as a sales channel and more effective sales management.

Management Discussion and Analysis

Looking ahead, the Bank will continue launching more attractive Mortgage programs and increase brand awareness as well as expanding partnerships with developers and property brokers across Indonesia.

Credit Card

The UOB Indonesia Credit Card product is the Bank's commitment to deliver benefits and provide access to banking services for the customers. The total number of credit cards grew by 10.81 per cent from 279,278 as of the end of 2013 to 309,473 by the end of 2014 with a market share of 1.93 per cent. The growth in the total number of credit cards was driven by our three credit card portfolios, as follows:

- **Platinum Card**
The UOB Platinum Card offers various benefits to meet the current modern demands. The Platinum Card holder will be able to enjoy shopping discounts, food and beverage discounts in reputable restaurants and cafés in both Indonesia and Singapore. As holders of a UOB Preferred Platinum Card, the customers can enjoy Global Customer Service Assistance (GCSA)'s services from Visa or MasterCard Global Services from MasterCard worldwide.
- **UOB Lady's Card**
UOB Lady's card is especially presented to our female customers by offering benefits in completing transactions to meet their every need and lifestyle.

UOB Lady's Card holders will receive various benefits and advantages such as product discounts for fashion, beauty and kids, as well as dining discounts in various restaurants and cafés. Scheduled billing payment is also supported with the UOB Bill Pay facility.
- **UOB One Card**
The UOB One Card has a tagline "Enjoy Cashback Everyday" offering a new and more attractive cashback feature for any transaction; anywhere and at anytime.

In 2015, the Bank will strengthen existing partnerships with major merchants and will launch other attractive programs to expand credit card utilisation and increase their credit card market share.

Business Banking

The Bank offers a loan facility with a ceiling of up to Rp18 billion through the Business Banking segment. Other than loans, Business Banking also provides deposit products for loan customers of Business Banking, including both individual and corporate customers, except customer candidates who are classified under the financial institution and Corporate Banking segments.

The Business Banking segment offers banking products and services with the following details:

1. Loan facilities offered for individual and corporate customers, comprise of Working Capital, Production Machine Purchase Loan, Land Acquisition and/or Construction Loan and Trade Finance Loan, such as a Letter of Credit (LC) and Bank Guarantee (BG).
2. Business Property Financing (BPF)
Credit facility as an investment loan for Business Property purchases, Business Purpose Loans, Take Over and Top Up on existing facilities, including New/Used Financing (Assets Acquisition), Business Property Loan Take Over from a Bank or Finance Company, Refinancing and Top Ups for individual and corporate customers. The facility might take the form of an investment loan with installments or a combination between installment investment loan and overdraft.
3. Business Express (Biz Express)
Biz Express is a tailored product program designed to offer facilities that are fully backed by a cash/cash equivalent (back to back) that is assessed as having a lower risk than a non back to back loan facility. The facility can be an installment loan, overdraft, revolving credit, trade finance, bank guarantee, and FX forward.
4. Commercial Vehicle Financing (CVF)
Credit facility offered as an investment loan to purchase commercial vehicle units as capital/investment goods with an installment payment scheme under a certain amount and maturity period. The Commercial Vehicle Financing provides a lending facility for purchasing new or used Commercial Vehicles from authorized dealers with a price that has been agreed between both the seller and buyer.
5. Heavy Equipment Financing (HEF)
Loan facility in the form of an investment loan to purchase heavy equipment units as capital/investment goods with an installment payment scheme under a certain amount and maturity period. Heavy Equipment Financing offers a lending facility for Heavy Equipment Assets Acquisition, both new and used, from suppliers at a price agreed between both the seller and the buyer.

As of the 13th of December 2014, the portfolio of the Business Banking loan rose by 11.32 per cent (yoy) from Rp12.19 trillion as of the end of 2013 to Rp13.57 trillion by the end of 2014. The Business Banking segment succeeded in booking a total revenue of Rp611.65 billion or an increase of 7.77 per cent (yoy) from its achievement as of the end of 2013.

The realisation of the Business Banking segment performance was driven by an effective working strategy implementation proven accurate to leverage segment productivity in disbursing loans. The Business Banking segment also managed to maintain sustainable cooperation with the Channels Division in providing lending and deposit services, which enabled the Business Banking segment to book deposit account growth of Rp2.73 trillion in 2014.

Commercial Banking

The Commercial Banking segment offers banking products and services in 3 (three) sub-segments; Enterprise Banking, Industry Group and Commercial Wealth Management. Enterprise Banking serves medium-scale commercial customers with a loan value of Rp18 billion to Rp60 billion. In the Industry Group, the Bank serves major commercial customers with a loan value beyond Rp50 billion and not categorized as Corporate Banking customers. Other than loans for the industrial sector, the Bank also offers a non-bank deposit facility under the Commercial Wealth Management sub-segment focusing on supporting credit growth.

Under the Industry Group sub-segment, the Bank provides a loan facility for various industry sectors including oil and gas, transportation, infrastructure and commodity. Services offered are complemented by a competitive interest rate and support from the Bank's personnel with special skills in every industrial sector to accommodate the specific requirements in each industry.

Responding to less favourable economic conditions in 2014, both at a national and global level, Commercial Banking applied a tight prudent banking policy to disburse loans mainly for the industrial sector with relatively high risk exposure. Among these conditions, total loans disbursed by the Commercial Banking segment recorded a 9.72 per cent growth from Rp23.56 trillion as of the end of 2013 to Rp25.85 trillion as of the end of 2014 (yoy), providing a 45.76 per cent contribution to the total loans booked in 2014.

Growth was attributable from loan realisation at each sub-segment where the Industry Group and Enterprise Banking sub-segments managed to book total loans of Rp17.71 trillion and Rp8.14 trillion, respectively, by the end of 2014 or an increase of 12.09 per cent and 5.00 per cent (yoy), respectively, from 2013. On a funding side, deposits from Commercial Wealth Management rose by 17.15 per cent (yoy) from Rp11.31 trillion as of the end of 2013 to Rp13.25 trillion at the end of 2014 with a 21.00 per cent contribution to the Bank's total deposits.

Loan growth booked in 2015 is forecasted to be supported by primary sectors such as consumer goods and other sectors proven to have high resilience against national and global economic turbulence. Responding to this condition, Commercial Banking will be more active in observing non-interest income through Trade Finance, Treasury, Bancassurance, Cash Management and Investment Banking products.

Corporate Banking

The Bank offers a wide range of banking services to Corporate customers under the Corporate Banking segment. In this segment, the Bank is committed to provide value-added banking products and services from conventional products to tailor-made

structured facilities, and syndicated loans catering to a variety of high growth industries such as infrastructure, energy and resources, and agribusiness.

Corporate Banking also offers various cash management products including escrow accounts, payment schemes and tenant payment management services. We also offer bundled services which covers Transaction Banking and Treasury products which provide innovative and effective financial solutions that suit our customer's needs.

Business initiatives implemented in 2014 focused on 5 (five) Industry Groups which have been consistently applied since 2010, including:

1. Mining, Mining Contractors and Commodities;
2. Oil and Gas, Chemicals;
3. Telecommunication, Media, Technology and Infrastructure;
4. Transportation, Logistic and Property; and
5. Food & Beverages and Agribusiness.

In 2014, Corporate Banking expanded its coverage to infrastructure industry with facilities to port operators and trade financing facilities to State-Owned Enterprises (SOEs). In order to improve the performance of our services, we launched a Buyer Financing Program and a Supplier Financing Program in 2014 for various industries including energy and resources, manufacturing, and infrastructure.

As of 31st of December 2014, Corporate Banking recorded a compounded total revenue growth (CAGR) of 26 per cent over the last four years. Net Profit Before Tax (NPBT), meanwhile, has a compounded growth of 14 per cent in the same period. The Corporate Banking business is supported by a strong Trade and FX and Global Market growth as income grew by 47 per cent and 64 per cent (yoy) respectively. Corporate Banking has also succeeded in strengthening funding structure which is reflected in a higher CASA mix where it improved from 16 per cent in 2013 to 27 per cent in 2014.

For its performance achieved in 2014, Corporate Banking segment received the AAA Best Trade Finance Service Provider award for Structured Trade solution provided to Gunung Raja Paksi. It is the third award received in the past three years. Another significant accomplishment won by Corporate Banking in 2014 was the Petrochemical Deal of the Year, Project Finance Award from Project Finance International for a deal completed with a leading ammonia production company.

In 2015, Corporate Banking will focus on intensifying the synergy with the Product Team in order to intensify cross-selling penetration. Corporate Banking is committed to pursue further optimized values and return from our Balance Sheet by offering various initiatives and customized products to our customers.

Management Discussion and Analysis

Financial Institution

As a response to its business development, the Bank spun off the Financial Institution segment as an autonomous business segment in 2014. As the Bank's business segment, Financial Institution contributes in encouraging partnerships with other financial institutions, both domestic and abroad, to help support the Bank's business.

Strategies implemented to optimize the performance of the Financial Institution includes entering partnerships with other financial institutions and taking a series of transformations in Financial Institutions emphasizing business development focusing on Total Group Relationship Management to the counterparts. This strategy implementation is achieved through the synergy of each product partner and the UOB Group to develop and increase Cash Management, Trade Finance, Remittance, Financing, Treasury activity and Stock Market transactions.

Through the Financial Institution segment, the Bank has arranged several cooperations with product partners throughout 2014, to encourage cash management transactions supported by a product campaign program, increasing the number of customers supported by the Bank's branch network, financing activity and financial advisory services.

Going forward, the Financial Institution has prepared a 2015 Working Plan focusing on Total Group Relationship Management development, improving customer's prudential and risk management to be the most trusted Bank for the customers.

Global Markets

Global Markets (GMIM) offers a range of banking products and services including foreign currency, derivatives, structured products, securities and money market.

In 2014, GMIM also developed foreign exchange hedging products namely FX options and bonds Repo/Reverse Repo. Through collaboration between Personal Financial Services (PFS) and GMIM, UOB Indonesia was re-appointed by the Ministry of Finance as a Retail Savings Bonds Selling Agent of Saving Bond Ritel (SBR) series SBR001 and Retail Bonds (ORI) series ORI011. GMIM has also made significant efforts to boost revenues in 2014 through collaboration with business units to increase customer transactions in investment and hedging products.

The portfolio of the GMIM segment as of the 31st of December 2014 stood at Rp6.43 trillion for Bank Indonesia Certificates (SBI), Rp1.03 trillion for rupiah-denominated bonds, and USD92 million for US Dollars. Compared to the previous year, SBI grew by 43 per cent from Rp4.49 trillion. The rupiah bonds portfolio also experienced a significant growth of 134 per cent from Rp440 billion, while USD denominated bonds declined by 39 per cent from USD149.7 million (yoy).

GMIM booked a Net Profit Before Tax (NPBT) of Rp230.42 billion, contributing 25 per cent to the total NPBT of the Bank.

In 2015, GMIM will focus on developing itself to become the "Rp center of excellence" where high quality products and services related to Rp currency will be provided. GMIM will also enhance collaboration and synergy with corporate and commercial segments to support foreign and domestic Capital Investment. Furthermore, the Bank will also focus on boosting transaction volumes by increasing the productivity of the sales team and offering competitive prices.

Transaction Banking

As part of the UOB Group, the Bank has an adequate capacity as a banking service provider with expertise in giving total and integrated solutions on accounts receivable, accounts payable, cross-border trade transactions and the liquidity management to fulfill the customers' diverse needs.

The Bank is committed to building a long-term relationship with customers and creating the customers' preference for UOB as their preferred bank when completing banking operational transactions.

The Transaction Banking Group is developed according to UOB Indonesia's focus on the large-scale corporate segment to expand the entire transactional services. Transaction Services are offered in 2 (two) primary products, Trade Finance and Services and Cash Management, as detailed below:

Trade Finance and Services

Through Transaction Banking, the Bank offers expertise in handling trading transactions/Trade Finance and Services supported by a capable and experienced product specialist team to provide recommendations to corporate customers in managing risk and enhancing the understanding of international and domestic trading practices as well as supporting customers to complete trade transactions. The Bank continues to support trading transaction growth, both for international (exports and imports) and Indonesian domestic trades by offering end-to-end and integrated products and services.

Trade Finance and Services offers services and products that will assist our customers in mitigating operational risk, enhancing knowledge and security in performing trading transactions including: Letter of Credit, SKBDN (local LC), Inward Bills Collection, Outward Bills Collection, Transferable LC, Shipping Guarantee, BG/SBLC, UPAS, TR, Clean TR, PEF (under LC & PO), Credit Bills Purchased, Bills Export Purchased, Invoice Financing, Secured Back to Back, Import LC Discounting, Supply Chain Financing.

Cash Management

Transaction Banking services tailored for the customer's specific needs in managing daily cash operations/Cash Management by providing products and services to assist customers in cash administration, payment, fund collection and fund management to support their growing business activities.

Cash Management offers services and products to assist customers in streamlining processes, increasing efficiency and working capital in general through products such as account services (current accounts, savings accounts, time deposits in rupiah and foreign currency, account inquiries, transaction notification via SMS, facsimile, and email, MT940/MT950/MT202), payment and collection services (email transactions, MT101/MT103, invoice collection solution, tenant collection management, transfers, payroll, bulk payments, tax payments, cash pick up/cash delivery/cash pack) and liquidity management services (account sweeping and notional pooling).

Having the accurate strategy and supported by reliable personnel, Transaction Banking has succeeded in achieving revenue of Rp924 billion or an increase of 21 per cent (yoy) from the Trade Finance and Cash Management business. On the other hand, the level of contribution from collaboration income to the Bank's total income also increased from 17 per cent in 2013 to 21 per cent in 2014. Growth was mainly driven from yoy growth on Trade Asset of 45 per cent and yoy Deposit of 10 per cent.

For these achievements, the Bank won a number of prestigious awards at regional levels namely "The Best Trade Finance Solution Indonesia" from The Asset Triple A -Transaction Banking; Treasury, Trade and Risk Management Awards (the third time in a row since 2012) and Indonesia Domestic Trade Finance Bank of the Year from the ABF Wholesale Banking Awards 2014.

Management Discussion and Analysis

These achievements of the Transaction Banking group are also the proof of an efficient marketing strategy implementation in hosting UOB Premier Talk as well as Customers Workshop and Training activities.

UOB Premier Talk

This regular activity is held annually in cooperation with one of business radios in Jakarta. UOB Premier Talk is a breakthrough concept which serves as a means of networking to bring the Bank closer to customers and also give the customers an opportunity to expand their network with other customers.

Workshop and Customer Training

The Bank also hosted small workshops focusing on preferred customers to present market updates and recent trends on international trade activities and also to share information and receive input on products and services offered by the Bank.

In 2015, the Bank will continue to equip and support initiatives taken by Transaction Banking to boost fee-based income and achieve excellence on fund collection activities and increase banking transactions and services. One of the key development focuses for next year is to build electronic transaction access to customers using Internet Banking facilities.

Distribution Channel

Office Network

In 2014, the Bank consistently secured our market share and reformed the office network to improve service quality for our customers. As of the 31st of December 2014, the Bank's network was supported by 209 operational offices in 30 cities in Indonesia.

Services provided by Authorized Teller Machine (ATM) are always maintained both in terms of the number and the quality of ATM facilities. The Bank's ATMs are located in strategic points with assured cleanliness and feasible functions as well as well-maintained ATM facility. In 2014, UOB Indonesia had a total of 191 ATM machines across 70 cities.

To ensure reliable support in providing services to the customers, the Bank has also entered into several partnerships with other banking networks. These partnerships include ATM membership, as a member of ATM Bersama, ATM Prima and Visa networks.

In 2015, the Bank will maintain its focus on Bank distribution network optimisation, franchise development, promoting branding and providing excellent banking services to the customers as well as developing personnel capacity either in terms of business, operational and risk management aspects.

To further develop its distribution channel, the Bank will also intensify its business development focus in major cities of Indonesia, and also catering to other potential areas throughout our operational office spread nationwide. The Bank will also improve services to its customers by providing reliable services backed with sophisticated information technology.

FINANCIAL REVIEW

Comprehensive Analysis of Financial Performance

The following analysis and discussion should be read in conjunction with the annual financial statements for the years ending 31st of December 2014 and 2013 that have been included in this Annual Report, and which have been audited by Purwantono, Suherman and Surja, registered public accountants

(members of Ernst and Young Global) with an unqualified opinion in all material respects. The financial statements of PT Bank UOB Indonesia as of the 31st of December 2014 and 2013 were prepared in accordance with the accepted Financial Accounting Standards in Indonesia.

Statement of Comprehensive Income (in Rp million)	2014	2013	Growth (%)
Interest income	6,834,553	5,429,894	26%
Less: interest expense	3,818,842	2,584,031	48%
Interest income - Net	3,015,711	2,845,363	6%
Other operating income	542,101	558,606	-3%
Less: Operating expense	2,656,271	1,914,172	39%
Income from operating	901,541	1,490,297	-40%
Non-operating income – Net	26,047	49,376	-47%
Income before tax expense	927,588	1,539,673	-40%
Tax Expense	(247,754)	(393,017)	-37%
Income for the year	679,834	1,146,656	-41%
Other Comprehensive Income for the year – Net of Tax	126,596	(213,283)	159%
Total Comprehensive income for the year – Net of Tax	806,430	933,373	-14%

Interest Income

Interest income was attributable from loans, financial investments and placements with Bank Indonesia, placements with other

banks and current accounts with Bank Indonesia and other banks explained below:

Interest Income (in Rp million)	2014	2013	Growth (%)
Loans	6,327,504	4,882,363	30%
Financial investments and placements with Bank Indonesia	382,873	484,206	-21%
Placements with other banks and financial institutions	68,532	27,901	146%
Current accounts with Bank Indonesia and other banks	55,644	35,424	57%
Total	6,834,553	5,429,894	26%

In 2014, interest income amounted to Rp6,834.55 billion, an increase of Rp1,404.66 billion or 26 per cent from Rp5,429.89 billion in 2013. Growth was driven by an increase in loans, which contributed 92.58 per cent from the total interest income booked by the Bank.

Interest income attributable from loans increased by 30 per cent to Rp6,327.50 billion in 2014 from Rp4,882.36 billion in 2013. Growth was driven by an increase in loan portfolio and credit interest rates in line with interest rate movements in the market.

The Bank's loan portfolio experienced an 8.18 per cent growth from Rp52,216.09 billion in 2013 to Rp56,486.70 billion in 2014.

Average contractual interest rate for loans in Rupiah currency was booked at 12.27 per cent in 2014, an increase of 11.36 per cent from 2013. However, the annual average contractual interest rate for loans in foreign currency was corrected from 5.63 per cent in 2013 to 5.09 per cent in 2014.

Management Discussion and Analysis

Interest Expense

Interest Expense consists of interest expense on time deposits, saving accounts, demand deposits, premium on government

guarantees and debt securities issued, which is explained below:

Interest Expense (in Rp million)	2014	2013	Growth (%)
Time Deposits	3,276,487	2,217,923	48%
Savings Deposits	143,721	139,080	3%
Demand Deposits	143,598	74,424	93%
Premium on Government Guarantees	116,762	103,510	13%
Deposits from other banks	69,543	49,094	42%
Debt Securities Issued	68,731	-	100%
Total	3,818,842	2,584,031	48%

In 2014, interest expense was Rp3,819 billion, an increased of Rp1,235 billion or 48 per cent from Rp2,584 billion in 2013. The increase was driven by an increase in interest expenses attributable from time deposits which contributed 85.80 per cent from the Bank's total interest expense.

Interest expense from time deposits grew by 48 per cent from Rp2,217.92 billion in 2013 to Rp3,276.49 billion in 2014. The increase was in line with a higher time deposit portfolio realisation booked by the Bank at Rp3,500.73 billion or 8.21 per cent from Rp42,653.58 billion in 2013 to Rp46,154.31 billion in 2014.

On the other hand, tight banking liquidity in 2014 resulted in higher interest expenses attributable from the Bank's time deposits. In 2014, annual average interest rates for time deposits were at 9.41 per cent for Rupiah and 2.67 per cent for foreign currency, an increase of 7.04 per cent and 2.44 per cent, respectively, from 2013.

Interest expenses from savings accounts and demand deposits also increased by 3 per cent and 93 per cent, respectively, in accordance with the increase in the savings account and the demand deposit portfolio of the Bank.

The Bank also assumed interest expenses from debt securities issued, namely Bank UOB Indonesia Self-Registration Bonds I 2014 totaling Rp1 trillion with an 11.35 per cent interest rate.

Other Operating Income

In 2014, other operating income decreased by Rp16.51 billion or 3 per cent from Rp558.60 billion in 2013 to Rp542.10 billion in 2014. This decrease was primarily driven by the decrease in realized and unrealized gains on securities sold and from changes in the fair value of trading securities by 65 per cent from Rp142.90 billion in 2013 to Rp50.24 billion in 2014. The correction was due to the evenly-spread decrease in prices of USD bonds in the money market.

However, the Bank also experienced an increase in administration fees and commissions - net and other operating income - net. Administration fees and commissions - net increased by Rp45.48 billion or 25 per cent from Rp183.44 billion in 2013 to Rp228.93 billion in 2014.

Other operating income - net increased by Rp49.13 billion or 57 per cent from Rp85.55 billion in 2013 to Rp134.68 billion in 2014.

Other Operating Income (in Rp Million)	2014	2013	Growth (%)
Administration fees and commissions – Net	228,926	183,444	25%
Realized and unrealized gain on securities sold and from changes in fair value of trading securities - Net	50,238	142,901	-65%
Gain from foreign currency transactions	128,253	146,707	-13%
Others – Net	134,684	85,554	57%
Total	542,101	558,606	-3%

Other Operating Expenses

Other operating expenses consisted of allowance (reverse) of impairment losses, salaries and employee benefit

expenses and general and administrative expenses as explained below:

Operating Expense (in Rp million)	2014	2013	Growth (%)
Reversal of/(Provision for) impairment losses:			
Financial assets	(474,359)	73,038	-749%
Foreclosed Assets	5,388	8,951	-40%
Salaries and employee benefits expenses	(1,273,332)	(1,252,413)	2%
General and administrative expenses	(913,968)	(743,748)	23%
Total	(2,656,271)	(1,914,172)	39%

In 2014, Other operating income was posted at Rp2,656.27 billion or an increase of Rp742.10 billion or 39 per cent from Rp1,914.17 billion in 2013, mainly due to the increase in reversal of/(provision for) impairment losses on financial assets by 749 per cent to Rp474.36 billion in 2014. This increase was in line with the implementation of prudential banking principles adopted by the Bank, since there are macro indicators on the increased default risk of the loan portfolio in the banking industry.

In addition, the increase in salaries and employees' benefits and general and administrative expenses are also attributable to the increase in the Bank's operational expenses. Salaries and employees' benefit grew by Rp21 billion, in line with the increase in the employees' basic salaries, while the increase in general and administration expenses of Rp170 billion came from the increase in telecommunication, electricity, water and service fees.

Income Before Tax Expenses

The Bank acquired income before tax expenses in the amount of Rp927.59 billion throughout 2014, which decreased by

Rp612.08 billion or 40 per cent from the Rp1,539.67 billion booked in 2013. The decrease in income before tax expenses was mainly due to an increase (Provision for) allowance for impairment losses and estimated losses on commitment and contingencies. This increase was also in line with the implementation of prudential banking principles adopted by the Bank, since there are macro indicators on the increased default risk of loan portfolio in the banking industry.

Tax Expenses

In 2014, the tax expenses were Rp247.75 billion, a decrease of Rp145.26 billion or 37 per cent from Rp393.02 billion in 2013. This was due to a decrease in income before tax expenses booked by the Bank amounting to Rp612.08 billion or 40 per cent from Rp1,539.67 billion in 2013.

Comprehensive Income For The Year

Comprehensive income for the year was booked at Rp806.43 billion, corrected by Rp126.94 billion or 14 per cent from Rp933.37 billion in 2013, generating unrealized gain on securities available for sales amounting to Rp168.32 billion in 2014.

Assets (in Rp million)	2014	2013	Growth (%)
Cash	591,145	662,074	-11%
Current accounts with Bank Indonesia	5,327,965	4,760,162	12%
Current accounts with other banks	1,242,511	1,160,900	7%
Placements with Bank Indonesia, Other Banks and Financial Institutions	5,237,600	3,119,976	68%
Trading securities & Financial Investment - Net	7,027,746	6,224,250	13%
Derivatives receivables	238,965	350,281	-32%
Loans - Net	55,832,869	51,870,440	8%
Acceptances receivable - Net	3,133,200	1,843,155	70%
Fixed Assets – Net book value	988,875	984,471	0%
Other Assets – Net	428,729	406,498	5%
Total	80,049,605	71,382,207	12%

Management Discussion and Analysis

Current Assets

Current Assets comprises cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia, other banks and financial institutions, trading securities and financial investment – net, derivative receivables, loan – net, acceptances receivable – net. At the end of 2014, current assets of the Bank increased by 12 per cent from Rp69,991 billion in 2013 to Rp78,632 billion. Growth was mainly due to higher placements with Bank Indonesia, other banks and financial institutions by 68 per cent or Rp5,238 billion in 2014 and an increase in acceptances receivable – net by 70 per cent from Rp3,133 billion as of the end of 2014.

Non-Current Assets

Non-Current Assets of the Bank comprises of fixed assets and other assets. Non-current assets did not record a significant growth with only 1.91 per cent from Rp1,391 billion in 2013 to Rp1,418 billion at the end of 2014.

The Bank's assets grew by 12 per cent from the total assets booked in the previous period at Rp8,667 billion from Rp71,832 billion to Rp80,050 billion in 2014. Throughout 2014, the growth of the Bank's assets was mainly driven by the increase in loans portfolio.

Trading Securities & Financial Investment – Net

The balance in trading securities and financial investment grew by Rp803 billion or 13 per cent from Rp6,224 billion as of the end of 2013 to Rp7,028 billion in 2014. Fund placement in trading securities and financial investment refers to temporary investment in excess of the Bank's liquidity.

Loans

Credit is our primary earning asset as a means of the Bank's profitability achievement where interest income from loans provides the largest contribution to the Bank's interest income. As of the 31st of December 2014, the total loan portfolio – net was 69.75 per cent from the Bank's total assets.

Total loans disbursed as of the 31st of December 2014 amounted to Rp56,486.70 billion, an increase of 8.18 per cent from Rp52,216.09 billion in 2013. The increase in total loans disbursed mainly came from the increase in working capital loans that were channelled to the commercial segment.

Below's diagram illustrates the composition of loans disbursed by the Bank:

Loans (in Rp million)	2014	2013	Growth (%)
Working Capital	20,882,866	19,884,207	5%
Investment	19,690,869	19,368,216	2%
Housing Loans	4,823,532	4,657,120	4%
Credit Card	1,227,011	1,019,570	20%
Multi Purpose Loans	1,457,133	872,192	67%
Vehicle Loans	28,726	34,175	-16%
Others	8,376,567	6,380,612	31%
Total	56,486,704	52,216,092	8%

The Bank disburses loans through various segments, by type, by customer type and by the amount of loan. Details

on loan portfolios classified by business segment are shown below:

Segments	2014	2013	Growth (%)
Commercial Banking	25,849	23,557	10%
Corporate Banking	9,239	9,916	-7%
Financial Institution	338	-	100%
PFS	7,491	6,545	14%
Business Banking	13,570	12,198	11%
Total	56,487	52,216	8%

Liabilities

Liabilities (in Rp million)	2014	2013	Growth (%)
Current Liabilities	67,710	67,723	0%
Deposits	63,235,389	57,278,434	10%
Deposits from other Banks	999,560	1,597,619	-37%
Interests Payable	218,173	196,174	11%
Taxes Payable	120,418	131,331	-8%
Derivatives Payable	255,593	354,031	-28%
Acceptances Payable	3,136,138	1,845,261	70%
Borrowings	328,413	-	100%
Deferred tax Liabilities - Net	132,169	39,589	234%
Liabilities for Employee's Benefits	86,582	78,720	10%
Other Liabilities	400,941	524,715	-24%
Debts Securities Issued - Net	993,479	-	100%
Total	69,974,565	62,113,597	13%

As of the 31st of December 2014, total liabilities increased by Rp7,860.97 billion or 13 per cent growth from Rp62,113.60 billion in 2013 to Rp69,974.57 billion in 2014. This increase was driven by the increase in deposits from customers, acceptances payable and debt securities issued.

Deposits from Customers

As of the 31st of December 2014, deposits from customers reached Rp63,325.39 billion, an increase of 10 per cent from the Rp57,278.43 billion booked at the end of 2013. The composition of deposits from customers comprised of demand deposits, savings accounts and time deposits at 11.46 per cent, 15.55 per cent and 72.99 per cent, respectively, from the total deposits booked at the end of 2014.

The increase in demand for deposit products by 36 per cent to Rp7,246.68 billion at the end of 2014 was balanced by a savings account growth of Rp545.62 billion at the end of 2014 or an increase of 6 per cent from the amount posted at end of 2013, while time deposits increased Rp3,500.73 billion or 8.21 per cent at the end of 2014.

The growth of customer deposits was mainly due to the time deposits in Rupiah, which were in line with the increase in interest rates applied for time deposits in Rupiah.

Acceptances Payable

Acceptances payable refers to import acceptances based on Timed Letter of Credits (L/C) from consumers. In 2014, acceptances payable grew by Rp1,291 billion or 70 per cent from Rp1,845.26 billion in 2013 to Rp3,136.14 billion in 2014. This growth was mainly driven by the increase in export and import transactions using the trade financing facility from the Bank.

Management Discussion and Analysis

Debt Securities Issued

On the 28th of May 2014, the Bank issued Bank UOB Indonesia Self-Registration Bonds 2014. The bonds were offered at their nominal value, listed on the Indonesia Stock Exchange and effective under the Financial Authority Service (OJK) Decision Letter dated 20th of May 2014.

The Self-Registration Bonds issued a fixed interest rate of 11.35 per cent per annum paid quarterly for a seven-year term and are due on the 28th of May 2021.

As of the 31st of December 2014, the balance of debt securities issued amounted to Rp993 billion.

Equity

As of the 31st of December 2014, total equity reached Rp10,075.04 billion, an increase of Rp806 billion or 9 per cent from Rp9,268.61 billion at the end of 2013. In 2014, there was no addition to the Bank's capital. Equity growth was mainly contributed by an increase in retained earnings from the net income for the current year amounting to Rp679.83 billion. Details on the Bank's total equity respectively on the 31st of December 2014 and 2013, are shown below:

Equity (in Rp million)	2014	2013	Growth (%)
Share Capital	2,388,471	2,388,471	0%
Additional paid-in capital – Net	2,102,242	2,102,242	0%
Unrealised loss on available-for-sale-securities – Net	(50,819)	(177,415)	-71%
Retained Earnings	5,635,146	4,955,312	14%
Total	10,075,040	9,268,610	9%

Statements of cash flows are prepared based on a modified direct method and classified based on operation, investment and

financing activities. Below's table presents the historical data of the Bank's cash flows for 2013 and 2014:

Cash Flows (in Rp million)	2014	2013	Growth (%)
Net cash provided by operating activities	2,361,623	4,186,482	-44%
Net cash used in investing activities	(987,407)	(3,074,286)	-68%
Net cash provided by / (used in) financing activities	1,321,893	(246,490)	636%
Net increased in cash and cash equivalent	2,696,109	865,706	211%

Net Cash Flows From Operating Activities

In 2014, Net cash inflows from operating activities was Rp2,362 billion or a decrease (44 per cent) from Rp4,186 billion in 2013. The decrease was mainly triggered by inflow cash from time deposit collection activity which was lower than the acquisition booked in 2013. This was in line with the Bank's policy to maintain the cost of funds and increase low-cost fund composition.

Net Cash Flows From Investing Activities

Net cash outflows from investing activities in 2014 amounted to Rp987 billion or a decrease of 68 per cent from the Rp3,074 billion booked in 2013, due to the decrease in securities purchased – net by (69.50 per cent).

Net Cash Flows from Financing Activities

In 2014, net cash inflows from financing activities amounted to Rp1,322 billion or an increase of 636 per cent from (Rp246 billion) 2013. The growth came from borrowings received by the Bank which amounted to Rp328 billion and earnings from debt securities issued amounting to Rp993 billion.

Financial Ratios

Financial Ratios (in %)	2014	2013	Growth (%)
Capital Adequacy Ratio (CAR)	15.72	14.94	0.78%
Non-Performing Loan Ratio - Gross	3.72	1.63	2.09%
Non-Performing Loan Ratio - Net	2.85	1.15	1.70%
Loan to Deposits Ratio	89.31	91.15	-1.84%
Net interest income to average total earning assets	4.21	4.55	-0.34%
Operational expenses to Operating Income	90.59	77.70	12.89%
Return on Assets	1.23	2.38	-1.15%
Return on Equity	7.53	14.29	-6.76%

Solvency and Collectability

Capital Adequacy Ratio (CAR)

In 2014, the Bank retained an adequate capital position. The Capital Adequacy Ratio (CAR), calculating credit risk, market risk and operational risk were posted at 15.72 per cent, well above the minimum requirement set by Bank Indonesia.

Non-Performing Loan Ratio (NPL)

The Bank's gross NPL ratio was 3.72 per cent with the net NPL ratio at 2.85 per cent, which was well below the maximum level stated in the Bank Indonesia Regulations of 5 per cent.

The Bank is committed towards implementing prudential banking principles in loan disbursement that will enable the Bank to book high quality lending growth.

Earnings

In 2014, the Bank booked a realisation of Return on Assets (ROA) and Return on Equity (ROE) respectively at 1.23 per cent and 7.53 per cent, or a decrease from the 2.38 per cent and 14.29 per cent respectively, booked at the end of 2014. The decrease was also in line with the increase in provision for impairment losses of financial assets. This increase was also in line with the implementation of prudential banking principles adopted by the Bank, since there are macro indicators on the increased default risk of the loan portfolio in the banking industry.

Net Interest Margin (NIM)

In line with the competition in banking liquidity that occurred in 2014, the result was an increase in the Bank's cost of funds. The Bank did however manage to maintain NIM ratios in the range of 4.21 per cent in 2014, a slight decrease compared to 4.55 per cent in 2013.

Operational Expenses to Operational Income Ratio

The ratio increased to 90.59 per cent in 2014 from 77.70 per cent in 2013. This was mainly due to an increase in the provision for impairment losses of financial assets. This increase was also in line with the implementation of prudential banking principles

adopted by the Bank, since there are macro indicators on the increased default risk of the loan portfolio in the banking industry. On the other hand, the Bank continues to increase cost efficiency in undertaking day-to-day business activities.

Liquidity

Loan to Deposit Ratio (LDR)

In 2014, the Bank recorded an 89.31 per cent LDR, a decrease of 1.84 per cent from 91.15 per cent in 2013. The Bank always seek to achieve and maintain the optimum balance between liquidity and lending growth.

Material Commitment for Capital Goods Investment

In 2014, the Bank invested in Goods capital with the following details:

Capital Expenditure (in Rp million)	2014	2013
Buildings	3,374	58,065
Infrastructure	25,159	7,840
Office Equipment	87,433	213,285
Vehicles	874	63
Total Capital Expenditure	116,840	192,541
Cash flows from capital expenditure	116,840	192,527

In 2014, total capital expenditure amounted to Rp117 billion, a decrease of Rp279 billion in 2013. Capital investment was mainly related to the Bank's business network expansion as well as other banking facilities to support customer service improvement.

The Bank does not have any material commitment on capital goods.

Management Discussion and Analysis

Capital Structure and the Management's Policy on Capital Structure

Capital Structure

The Bank has a policy to maintain capital structure and Capital Adequacy Ratio (CAR) at the appropriate level to anticipate all the key risks that might potentially arise in the Bank's business management. These key risks include credit risks, market risks and operational risks as well as other risks. By the end of 2014, CAR was booked at 15.72 per cent, well beyond the CAR minimum standard according to the Bank risk profile set by Bank Indonesia, i.e. 9 per cent -< 10 per cent.

The Bank manages capital structure and ensures an alignment to changes in the economic conditions. In order to retain and adjust the capital structure, the Bank can arrange to adjust dividend payments to shareholders, issue new shares or seek funding through borrowing. There were no changes in objectives, policy or processes as of the 31st of December 2014 and 2013.

The Bank's policy is to maintain a sound capital structure to secure access to funding at a fair cost.

Achievement of Targets for 2014

The comparison between targets and realisation for the year 2014 is as follows:

- Net interest income for 2014 was booked at Rp3,015.71 billion, or 104.76 per cent of the target that was set at Rp2,878.70 billion.
- Realisation of operating expenses for 2014 was posted at Rp2,187.3 billion, or 91.45 per cent of the target that was set at Rp2,391.74 billion.
- As of the 31st of December 2014, the total realisation of loans by the Bank reached 94.46 per cent of the target set, while the realisation of fund collection reached 102.21 per cent of the target set.
- The Bank's CAR as of 31st of December 2014 was posted at 15.72 per cent in comparison to the target CAR of 16.35 per cent.

Financial Projection 2015

In line with the Indonesian macroeconomic and banking progress, the Bank has reviewed performance achievement, set some projections and prepared a budget as well as a medium-term business plan.

In 2015, the Bank has estimated to achieve 16.02 per cent Capital Adequacy Ratio (CAR). In addition, the Bank has also targeted a 9 per cent loan portfolio growth, while in terms of funding; the target for third party fund is set at 11 per cent.

The Bank will review its dividend policy in 2015 to maintain the capital development needed to support its targets, i.e. assets growth, capital expenditure and new business activities.

The Bank seeks to achieve an ROA of no less than 1.38 per cent and an ROE of no less than 8.96 per cent.

Dividend Policy

Dividends will be distributed based on the resolutions adopted at the Annual General Meeting of Shareholders through the recommendation of the Board of Directors. The following aspects are considered when deciding dividend pay-outs:

- Net profit, cash flow and financial conditions;
- Business Progress; and
- Capital Needs;
- Other factors deemed relevant by the shareholders of the Bank.

For 2013, the Annual General Meeting of Shareholders decided to distribute cash dividends totalling Rp246.49 billion or equalling to a payout ratio of 22 per cent of the net profit made in 2012. The entire dividend was paid on the 8th of May 2013.

Based on the resolution of the 2014 Annual General Meetings of Shareholders, the Bank did not distribute dividends, and the income booked was posted as Retained earnings to finance the Bank's future business activities.

Information on UOB Indonesia Self-Registration Bonds 2014

In 2014, the Bank carried out the public offering of Bank UOB Indonesia Self-Registration Bonds 2014. Total emissions from the offering amounted to Rp1 trillion net after emission fees were allocated for loan disbursement.

Material Information on Investment, Expansion, Divestment and Acquisition

The Bank did not undertake any transactions or material activity related to investment, expansion, divestment or acquisition throughout 2014.

Financial Information on Extraordinary Events

The Bank did not record any extraordinary events throughout 2014 and 2013 which had a material impact on its financial performance.

Subsequent Material Information and Facts

- In conjunction with the Bank's plan to carry out a public offering of Senior Bonds I of Bank UOB Indonesia valued at Rp1,500,000,000, the Bank submitted Letter No. 15 DIR/0036 to the Financial Services Authority (OJK) dated the 16th of January 2015 concerning the Statement of Registration for a public offering of Senior Bonds I of Bank UOB Indonesia Year 2015. In response to this Statement of Registration, the Bank received Letter No. S-03/PM.2/2015 from OJK dated the 18th of February 2015 on the Announcement of Brief Prospectus and/or Implementation of Initial Offering.

- On the 30th of January 2015, the Bank received a letter of request for retirement from Safrullah Hadi Saleh, Director of Finance and Corporate Services of PT Bank UOB Indonesia, which became effective 60 days upon receipt of such letter, unless the General Meeting of Shareholders otherwise decides the effective date should fall before the end of the aforementioned 60 days.

Material Information Containing a Conflict of Interest

In 2014, UOB made no transactions which can be classified as a transaction containing any conflict of interest.

Also in 2014, in running its business, the Company undertook several transactions with related parties, i.e. loan disbursement and customer deposits, the details, type and nature of which are presented in Note No. 35 to the Audited Financial Statements.

Impact of Changes in Regulation to the Bank's Performance

In 2014, Bank Indonesia (BI) and the Financial Services Authority (OJK) issued several regulations, among others:

- OJK Regulation (POJK) No. 1/POJK.07/2013 dated the 6th of August 2013 concerning Financial Consumer Protection.
- POJK No. 3/POJK.02/2014 dated the 1st of April 2014 concerning the Procedure for Retribution by the Financial Services Authority.
- BI Regulation (PBI) No. 16/16/PBI/2014 and BI Circular Letter (SE BI) No. 16/14/DPM concerning Foreign Currency Transactions Against the Rupiah with Domestic Parties.
- PBI No. 16/17/PBI/2014 and SE BI No. 16/15/DPM concerning Foreign Currency Transactions Against the Rupiah with Foreign Parties.
- POJK No. 17/POJK.03/2014 concerning Integrated Risk Management Practices for Financial Conglomerates and POJK No. 18/POJK.03/2014 concerning the Implementation of Integrated Governance for Financial Conglomerates.

These regulations did not have any significant impact on the Bank in general.

The Impact of Interest Rate Changes upon the Bank's Performance

The BI rate and The Fed rate constitute the prime lending rates for the Indonesian banking industry, which directly and indirectly influence the volatility of interest rates of the Bank's loans and time deposits.

Throughout 2014, Bank Indonesia revised the prime lending rate from 7.50 per cent to 7.75 per cent.

To mitigate the risk of utilisation beyond its risk appetite, the Bank has established limits. In addition, the Bank has a Wall Street System (WSS) and Riskwatch system to monitor market risk limits arising from both interest rate and foreign exchange risks. The Bank also establishes a market risk management and control unit to closely monitor the utilisation of limits and has applied the "four eyes principles".

New Accounting Standards

The accounting standards which became effective on or after the 1st of January 2015 and are relevant to the Bank are as follows:

- PSAK 1 (2013): "Presentation of Financial Statements".
- PSAK 24 (2013): "Employee Benefits".
- PSAK 46 (2014): "Income Taxes".
- PSAK 48 (2014): "Impairment of Assets".
- PSAK 50 (2014): "Financial Instrument".
- PSAK 55 (2014): "Financial Instrument".
- PSAK 60 (2014): "Financial Instrument".
- PSAK 68: "Fair Value Measurement".
- ISAK 26 (2014): "Reassessment of Embedded Derivatives."

The Bank is still currently evaluating the impact of these Standards and Interpretation upon the financial statements.

Management Discussion and Analysis

Human Capital

A more competitive and dynamic banking industry encouraged UOB Indonesia to continuously improve its Human Capital competency as the Company's leading assets in achieving business growth.

Human Capital Development Strategy

The function of Human Resources (HR) at the Bank today is not just limited to the role of administrative and supervisory personnel, but has led to a form of collaboration between the Bank's business and activities supporting the work unit.

In increasing the added value of human resources as assets of the Bank, the Bank adopted the following 6 (six) strategies:

1. Building a strong image of the Bank as a trusted regional bank by encouraging and motivating working conditions which are grounded in the Bank's culture, driven by our employees' performance, and promoting the core values of the Bank that will become an added value for high quality personnel to join the Bank.
2. Developing a competent and dynamic workforce that is also responsive towards any change in the banking industry or the banking environment to remain efficient, effective and deliver optimum results; mainly in welcoming the ASEAN Economy Community (AEC).
3. Preparing for leadership succession to support the Bank's business continuity at senior and middle management levels through a well-structured career plan, and supported by a continuous learning culture implemented in the Bank.
4. Encouraging performance and achievement in line with performance management strategy according to the Banks Strategic Plan, where the result and achievement will be recognized transparently and objectively.
5. Providing a professional human capital service by utilizing the means of technology to support our operational activity or cost efficiency based on the prevailing laws and business demand.
6. Implementing a systematic training process to establish a learning culture in the organisation, with the objective that our Human Capital will have a better quality and the Bank will be able to create improvement and performance growth on an ongoing basis.

Recruitment Policy

Employee recruitment carried out at UOB Indonesia is based on a competency standard applied in the Bank and according to the analysis of requirements submitted by each working unit.

In seeking the best and most suitable employee candidates for a position, UOB Indonesia undertakes a series of recruitment processes namely participating in job fairs and recruitment programs in cooperation with reputable universities to recruit their best graduates.

The Bank has recruited 981 employees during 2014, i.e. 863 employees for Senior Manager Level and below, 118 employees for Assistant Vice President Level and above. The composition of these 981 new employees comprises 601 employees for Sales Officers, and 380 employees for Non Sales Officers.

Selection Process

Conformity between the competency of employee candidates with their placement as well as the specific requirements of every business unit becomes one of our focuses in establishing human capital excellence.

The Bank continues to undertake evaluation and development during the selection process by updating the candidate screening process. The screening process is achieved by verifying profile, education, career, credit profile, rapport and any other related background information about the candidates.

In general, the employee selection process in UOB Indonesia is performed through the following scheme:

*) For manager level and below

**) Conducted by HR Manager

Employee Competency Development

The Bank has participated or hosted various employee development programs which are planned to be continued up until 2017, equipped with mandatory training programs as well as other skill development activities, such as:

1) Risk Management Certification Program

The program will be continued in the coming years based on the Bank's needs and in compliance with the regulations of Bank Indonesia and the Financial Services Authority (OJK).

2) To prepare the Bank's future leaders, we have conducted a Regional Management Associate Development Program (RMADP). The RMADP program is dedicated for leadership candidate/talents with a regional perspective and details of the program will be aligned to the Bank's needs and strategy.

3) To meet the requirements of the sales process and to accelerate our business growth according to our banking products, the Bank has established the following academies:

- a) Mortgage Specialist Development Program (MSDP) to be positioned as a marketing consumer loan in the Mortgage segment.
- b) Business Banking Development Program (BBDP) to be positioned as marketing funding and lending in the Business Banking segment.
- c) Personal Banker Associate Program (PBAP) to develop a Senior Personal Banker who will support the business development activity and plan in PFS (Personal Financial Services).
- d) Channel Relationship Officer Development (CROD) to support sales activities in the Channels area.

4) The Bank has implemented a learning program titled e-learning programs, which is an employee learning program using a self-learning method supported by audio visual facilities.

The e-Learning Mandatory Program is an autonomous learning program which has been made mandatory for all employees of Bank UOB Indonesia, consisting of five modules. Every e-Learning module contains definitions, policies, recent regulations and information relating to each learning topic. The objective of this program is to develop knowledge, competency and awareness of the employees regarding the importance of each material related to daily banking activities.

The program will continue to be implemented up until 2017 according to the predetermined schedule. The following are our learning programs with e-learning facilities:

- a. New Employee Orientation Program (NEOP) is dedicated for new employees, to provide general information about the Bank.
- b) Fair Dealing, information about the benefits and use of providing accurate information to the customers.

c) IT security, providing basic information about security and rules of using computers, especially about information technology.

d) Anti fraud, recognize different fraud elements, types of fraud and how to prevent, detect and report fraud.

e) AML/CFT, understand the basic principles of APU and PPT.

f) Risk Management, learning the basics of Risk Management Governance in the Bank.

g) Sending employees to participate in various training, competency development and comparative studies of the UOB Group as well as national and international seminars where participation in workshops is also encouraged according to current needs.

5) Sending employees to several trainings, knowledge development or comparative studies of the UOB Group as well as participating in domestic and international seminars and workshops (public training) continues to be carried out selectively.

6) Providing rewards to employees with the best performance by granting scholarships to the employees and rewards for the employee/group with the best achievement and contribution to the Company.

7) With the planned development of a new information system, including Global Electronic Banking, Personal Electronic Banking, and iBranch, training for employees needs to be completed to support both the Bank's strategy and business.

The following are objectives of the program:

- Employees are trained to use the new system effectively in generating information about the new system and its impact on the working process.
- To provide effective communication to customers concerning any change in products or services.
- To prevent any operational impact on customers and branches during the training period.

8) Mobile Learning

To expand the employees' knowledge, the Bank also plans to develop a centralized library knowledge called "iLearn", which will be accessible to all employees.

To execute all of these training and development programs, the Bank allocated Rp133,096,242,865 as a training and education budget for the 2014 period.

Employee Turn Over

In 2014, the Bank recruited 981 new employees with competencies in their fields to serve in several vacant positions. The number indicated a decrease from the 1,132 employees recruited in 2013. The decrease was, among other reasons,

Management Discussion and Analysis

due to the Bank's stricter recruitment policy while also seeking to increase the Bank's, as well as the employees', productivity from time to time. This is also in line with the Bank's initiative to increase cost effectiveness, particularly in supporting/operational units.

Remuneration Package

The Bank promotes employee's welfare as the foundation of its human capital retention initiative. The commitment is realised through a competitive remuneration package for the Bank's management and employees.

Welfare Improvement

The Bank's HR Management Policy is intended to fulfil the employee's welfare improvement aspect through a welfare improvement scheme related to pension funds, leave regulations, health benefits, sectoral minimum wage, outsourcing employee remuneration as well as a reward and punishment scheme for employees.

In addition, the Bank also leads its employees to prepare their pension fund early to ensure and maintain revenue sustainability for the employees and their families even after the employees' retirement period. The retirement program management is undertaken through a third party appointed specifically by the Bank.

The Bank also provides a health allowance facility for employees and their families through a health insurance program covering Inpatient, Outpatient, Dental Treatment, Maternal, Medical Check-Up, Life Insurance, and Life and Permanent Disabilities Insurance due to occupational accidents.

In order to appreciate and develop its human capital, the Bank also offers a Scholarship Program for Employees. The program is designed to provide scholarships for Bachelor's and Master's Degrees where the employees can choose any university and course which interests them and corresponds with where they work.

Employees Profile

UOB Indonesia is supported by Management and Employees personnel working in our Head Office, Branch Offices or other UOB Indonesia Representative Offices. The total number of UOB Indonesia employees as of the end of 2014 was 4,918 employees, or a decrease of 7.50 percent or 399 employees from 2013. The decline in the number of employees that took place in 2014 was due to the requirement to have a higher efficiency and to enhance the operational aspects of the Bank.

Detailed figures of the UOB Indonesia employee profile based on working location, organisation level, education level, age, gender and position are described as follows:

Employee Profile Based on Working Period

Working Period (year)	2014	2013

Management of Industrial Relations

The Bank always promote a harmonious industrial relationship with the workers union to establish a sound working environment, increase work assurance for employees and ensure sustainable business. UOB Indonesia therefore views the workers union as a partner in developing our human capital.

In order to build a harmonious working relationship between the Bank and its employees, the employees have established a workers' union organisation as a forum to encourage work enthusiasm and productivity, as well as to assume an active role as a partner to achieve the Bank's goals. To date, there are 2 (two) workers' union organisations of the Bank:

- 1) PT Bank UOB Workers Union (formerly PT Bank UOB Buana, Tbk Employee Workers Union) based on Reg. No. 359/III/SP/IV/2008; and
- 2) NIBA UOB Indonesia Workers Union (Bank UOB Indonesia Workers Union) based on Reg. No. 555/I/P/V/2011.

Foreign Workers Recruitment and Outsourcing Policy

Bank UOB Indonesia is a part of an international-scale business entity with a demand for human capital support not only from Indonesia but also from either overseas or third parties. In meeting the requirement, the Bank implemented a Foreign Workers and Outsourcing Policy according to the Bank's business needs.

The Foreign Workers Recruitment and Outsourcing is also in line with the regional development concept that the Bank will also train its employees to be professional workers with global knowledge. Therefore, the Bank has employed Foreign Workers from time to time to develop a high-quality infrastructure and sound business development while seeking to facilitate cross-country employee transfer to work in a temporary post or project.

Management Discussion and Analysis

In conjunction with the enactment of Regulation of the Minister of Manpower and Transmigration of Republic of Indonesia No. 19 of 2012 and Circular Letter of Minister of Workforce and Transmigration No. SE.04/MEN/VIII/2013, the Bank will employ outsourcing staff for several areas permitted under the prevailing laws.

Employee Rewards

The Bank is committed to continuously motivate its employees in supporting the Bank's target achievement, so the Bank arranges an employee reward program according to the Bank's performance realisation and capability. Rewards will be given to employees who have outstanding achievements or provided a significant contribution to the Bank. The program is also expected to increase employee retention and instill a High Performance Culture in UOB Indonesia.

The UOB Recognition Award is held for the integration and standardisation of awards currently applied in the Bank's units, and partly serves as equal recognition treatment between the business segment and support segment. The reward will be given for both Individual and Team categories at every function unit based on predetermined requirements.

The selection process taken for the UOB Recognition Award was completed by the end of the year with the scoring period covering one performance year, the winners of which will be announced in the following year. The UOB Recognition Award program is coordinated by HR Performance and Rewards, with implementation referring to performance achievement and the Bank's capability.

The following are details of employee rewards given in 2014:

Name of Rewards	Achievement
Group Rewards	
1. a The Best Country Function in Business Segment	Best Performance
1. b The Best Country Function in Support Segment	Best Performance
2. a The Best Regional Business team	Best Performance
2. b The Best Area Business Team	Best Performance
Individual Rewards	
1. The Best Employee in each Function (Business Segment & Support Segment)	Best Performance

Employee Relations and Communication

The optimum performance of the employees is closely related to proper interpersonal communication. The Bank has established an institution to support communication either through e-mail, telephone and information available at Bank UOB portal for internal communication use. Moreover, the Bank has also arranged various activities based on passion and competency to achieve work life balance in both art and sports.

"Building Engagement" (Be@UOB Action) Activity

One of the Management's efforts in creating the employee's engagement with the Bank, UOB Indonesia periodically hosts several activities to build teamwork in our organisation unit, which is known as "Building Engagement" (Be@UOB Action) activity.

The Building Engagement (BE@UOB Action) activity is an activity designed to ignite the employees' enthusiasm in their work and in the company, aimed at developing a sense of employee engagement with UOB as well as enhancing and increasing performance and teamwork.

The Building Engagement (BE@UOB Action) activity is implemented according to the results of the BE@UOB survey on 12 questions (Q12 Survey BE@UOB) related to employee engagement in order to improve and intensify employee participation in terms of their commitment to build a comfortable workplace.

The building engagement (BE@UOB) activity takes form in the following activities:

- Motivational Activities
- Gathering Events
- Sharing Sessions or Best Practice Activities
- Other activities

HR Service Center

To provide the best possible service to our employees, The HR Service Center is committed to responding to or replying to any inquiry related to regulation, policy, and procedure for the Human Capital information system as well as other programs implemented by the Human Resources Function. The HR Service Center is a facility dedicated to respond to every inquiry about information on employment issues via phone, e-mail or website channels (HRIS application).

UOB Indonesia Staff Club

By hosting sports and arts events held by the staff club, worklife balance leading to best working environment creation is encouraged at UOB; as expressed in the theme of the UOB Indonesia Staff Club, i.e. "Let's Create Healthy, Fun, Artistic work environments in UOB Indonesia".

1. Sports Club

Various sports activities are much-loved at UOB Indonesia, including aerobics, badminton, basketball, bowling, fishing, futsal, golf, table-tennis, and volleyball.

2. Art Club

The UOB Indonesia art club is divided into a photography club (UOB Lights) and a UOB Choir.

Human Capital Development Plan for 2015

To support competency development and talent management as well as career succession programs regionally, UOB Indonesia is supported by HR and IT Groups and collaborates with UOB representatives from other countries such as China, Malaysia, Thailand and Hong Kong, in an initiative to develop and implement an integrated HR Management System equipped with talent management and a Human Capital Management Solution which covers performance assessment process and training, which is implemented worldwide.

The Bank will also execute several HR programs to support the Bank's strategy and goals through the development of its organisation and human capital. The following are the HR programs planned:

- 1) Continuous Position Evaluation
- 2) Increasing employee productivity
- 3) Implementing HR Management based on Competency, Strategize, Engage, Execute and Develop (SEED)
- 4) Technical Competency Standard Development
- 5) Competency-based training
- 6) Career Management
- 7) Performance Assessment System Improvement
- 8) Talent Management
- 9) Employee Engagement: Building Management
- 10) Formalisation of integrated Human Resources – HR policy

Information Technology and Infrastructure

Throughout 2014, the IT Strategic Plan focused on the following:

1. Developing a competent team

In order to meet the business requirements in an everchanging world of technological advancement and stricter business competition, the Bank needs to continuously upgrade the level of skills and competencies of its staff to cope with those changes. The continuous development of IT staff is of paramount importance to enable us to provide excellent services in terms of business and as a supporting unit in the most efficient and effective manner possible. Developing the competencies of IT staff is also directed towards a more holistic approach covering both technical and managerial skills in fulfilling the high expectations of customers both internally and externally. Towards this end, training sessions, both formal and informal, have been conducted with an emphasis on the development of managerial and technical skills to better support the business as a whole.

2. Providing reliable and standardised application systems to meet user requirements

In order to support the achievement of the Bank's business targets as well as ensure regulatory compliance, the Bank has implemented the following applications and systems:

- iBranch is planned to replace the existing Branch Teller System. The new system will provide overall better control and efficiency and hence support the development of the Bank's business both for corporate as well as retail customers.
- Rating Master will be implemented to support credit rating approval and loan origination process in non-retail businesses to replace the existing credit rating system. The effective use of this system should eventually assist the Bank in developing accurate data for the implementation of Basel reporting.
- Basel II and Know Your Customer (KYC) have been directed towards strengthening the Bank's compliance related systems. These systems will help the Bank to improve its compliance of regulatory requirements.
- Internet banking is planned to be implemented in order to expand the Bank's alternate channels and to meet the customers' need. The system would provide convenience to customers to conduct transactions at their own leisure
- ATM Chip Card enhancement, the use of chip in ATM and POS transactions, is required to fulfill the requirements of Regulators and ATM Network providers. It has been proven elsewhere that chip-based ATM cards helps to enhance fraud prevention.

3. Developing concrete structure of Information Technology Management.

As a growing bank with a continuous need to develop and enhance its IT systems and infrastructure, investment in terms of time, money and resources becomes vital. Every project must be evaluated carefully, supervised and managed comprehensively. Therefore, the existence of a regulatory body becomes crucial. The Bank manages its entire IT aspect through a regulatory structure involving the Board of Commissioners and the Board of Directors as the overall supervisory body, while the Project Steering Committee focuses on the various stages of IT project implementation.

In order to manage the risk of IT use and implementation, the Bank needs to adopt best industrial practices which are tailored to the Bank's needs and to the directions given by the Management.

Corporate Governance

47	Corporate Governance
73	Risk Management Report
114	Corporate Social Responsibility
115	Result of Self Assessment

CORPORATE GOVERNANCE

To increase the Bank's performance, protect the stakeholders' interests and ensure higher compliance with the prevailing Laws and ethical values generally applied in the banking industry, PT Bank UOB Indonesia ("Bank") is confident that the implementation of Good Corporate Governance (GCG) in broader and comprehensive terms will contribute to the added-value profitability for the stakeholders and also for long-term business sustainability. Therefore, the Bank seeks to promote transparent principles and oversee GCG practices according to the prevailing laws and regulations.

Good Corporate Governance implementation refers to five basic principles covering Transparency, Accountability, Responsibility, Independency and Fairness.

CORPORATE GOVERNANCE STRUCTURE

General Meeting of Shareholders

The General Meeting of Shareholders (GMS) holds the highest authority in the Bank. At the GMS, shareholders are authorised to evaluate the performance of the Board of Commissioners and Board of Directors; approve the annual report; appoint and release Commissioners and Directors; determine the amount and type of compensation/remuneration and other facilities for the members of the Board of Commissioners and Board of Directors; and appoint an Independent Auditor. The Annual General Meeting of Shareholders (AGMS) is held once every year. The Bank may also convene an Extraordinary General Meeting of Shareholders (EGMS) when required.

Throughout 2014, the Bank convened 1 (one) Annual General Meeting of Shareholders, which was held in UOB Plaza, at Jalan M.H. Thamrin Number 10, Central Jakarta, 10230. The AGMS, which was held on the 13th of June 2014, was attended by shareholders and/or their proxies representing 9,553,769,677 shares or 99.999 per cent of the 9,553,885,804 shares with voting rights issued by the Bank.

Resolutions on the First Agenda

Approved the Company's Annual Report for the fiscal year ending the 31st of December 2013 including the annual report of the Board of Directors and the report on the supervisory duties of the Company's Board of Commissioners, as well as ratifying the Company's Financial Statements for the fiscal year ending the 31st of December 2013 that were audited by the Public Accounting Firm Purwantono, Suherman and Surja pursuant to report Number: RPC-5393/PSS/2014 dated the 11th of April 2014 with an Unqualified Opinion, hence granting

full release and discharge of liabilities (*acquitt et decharge*) to members of the Board of Directors for their management actions and to members of the Board of Commissioners of the Company for their supervisory actions completed throughout the fiscal year of 2013, insofar as the actions are reflected in the Annual Report and Financial Statements for the fiscal year of 2013.

Resolution on the Second Agenda

Approved the appropriation of net profits for the fiscal year ending the 31st of December 2013 to the amount of Rp1,15 trillion (one point fifteen trillion Rupiah) as follows:

1. A total of Rp25,000,000,000 (twenty-five billion Rupiah) booked as reserves in order to meet the requirements of Article 70 of the Company Law and article 20 of the Articles of Association of the Company.
2. Booking the entire net profits gained in 2013 after deducting the statutory reserves as Retained Earnings amounting to Rp1,12 trillion (one point twelve trillion Rupiah).

Resolution on the Third Agenda

Approved the proposal to reappoint the Public Accounting Firm of Purwantono, Suherman & Surjawich, which will audit the Financial Statements of the Company for the 2014 fiscal year as well as authorized the Board of Directors of the Company to sign employment agreements as well as determining the honorarium and other requirements pertaining to such appointments.

Resolution on the Fourth Agenda

1. Approved the action of UOB International Investment Private Limited (UOB Indonesia) as the majority shareholder by virtue of the authority granted in the Annual General Meeting of Shareholders convened on the 26th of April 2014 in order to determine the amount of salaries and other allowances for 2013 of all the members of the Board of Commissioners of the Company.
2. Granted authority to the majority shareholder of the Company, namely UOB Indonesia, to determine the amount of salaries and other allowances for 2014 of all members of the Board of Commissioners of the Company.
3. Granted authority to the Board of Commissioners of the Company to determine the amount of salaries, remuneration and other allowances for 2014 of all members of the Board of Directors of the Company.

Resolution on the Fifth Agenda

In the fifth agenda, the Company has submitted to the AGMS the realisation of appropriated proceeds of Subordinated Bonds I of Bank UOB Indonesia for 2014.

Corporate Governance

BOARD OF COMMISSIONERS

Duties and Responsibilities of the Board of Commissioners

The Board of Commissioners and Board of Directors of the Bank have their respective work guidelines and rules of procedure which are binding for every member of the Board of Commissioners and Directors and specify among others; provisions on the number, composition, criteria and independence of members of the Board of Commissioners and Directors; duties, authority and responsibility; work ethics and work hours; meeting and decision-making procedures; as well as transparency.

Pursuant to the Articles of Association, the Board of Commissioners must perform supervision on the management policies, general conduct of the management, both concerning the Company as well as the Company's businesses, and advise the Board of Directors. Every member of the Board of Commissioners cannot act on his/her own; only by virtue of a decree from the Board of Commissioners.

In order to support the effectiveness of the implementation of the duties and responsibilities, the Board of Commissioners is assisted by the Audit Committee, the Remuneration and Nomination Committee and the Risk Monitoring Committee; and generally, the Board of Commissioners assumes the following responsibilities:

- a. Supervise the implementation of duties, responsibilities and policies conducted by the Board of Directors as well as advising the Board of Directors.
- b. Direct, supervise and evaluate the implementation of the Bank's strategic policies conducted by the Board of Directors. However, they are not involved in any decision making of the Bank's operational activities, unless as determined by the applicable regulations.
- c. Examine and approve the Bank's business plan.
- d. Provide directions to the Board of Directors with regard to Corporate Governance and ensuring that Corporate Governance has been implemented in all business activities of the Bank at all levels of the organisation.
- e. Provide directions and recommendations for the Bank's strategic development plan as well as evaluating the implementation of the Bank's strategic policies.
- f. Ensure that the Board of Directors has followed-up audit findings and recommendations provided by the Internal Audit Function, External Auditor, and results of supervision by the regulator as well as other authorized agencies.
- g. Analyze and approve the framework of the Bank's risk management.
- h. Inform the regulator no later than 7 (seven) work days following any finding of:
 - Violation of any laws in the financial and banking industry; and
 - Situation or presumed situation which may jeopardize the business continuity of the Bank.
- i. The Board of Commissioners must establish at least:
 - Audit Committee.
 - Risk Monitoring Committee.

- Remuneration and Nomination Committee and ensure that the established Committees perform their duties effectively.
- j. Convene Meetings of the Board of Commissioners on a regular basis, at least four times in one year, in which all members of the Board of Commissioners must be present physically at least twice a year.

Implementation of Duties and Responsibilities of the Board of Commissioners

As a part of their duties and responsibilities, the Board of Commissioners always perform supervision concerning the performance of the Board of Directors and provides additional input to the Board of Directors.

In 2014, the Board of Commissioners provided various recommendations, including among others:

- Approved the Proposal for the Issuance of Self-Registration Bonds I 2014;
- Approved the Business Continuity Management Report for 2013;
- Performed evaluation on the Report of the Bank's Compliance Function Implementation;
- Provide the Board of Commissioners Supervisory Report on the Realisation of Bank Business Plan.
- Approved the proposal of the Board of Directors concerning the schedule and agenda for the Annual General Meeting of Shareholders for 2014;
- Approved the recommendation from the Audit Committee that the Board of Directors should appoint Public Accounting Firm Purwantono, Suherman & Surja as the independent auditor of the Bank for the 2014 fiscal year, by virtue of authority granted by the Annual General Meeting of Shareholders;
- Together with the President Director approved the Internal Audit Charter;
- Approved the proposal of the President Director on candidate appointment and structure of the Board of Management;
- Performed analysis, provided input and together with the President Director approved the Revised Bank Business Plan for 2014-2016;
- Approved the set of policies in credit and Risk Management;
- Approved the Work Guidelines and Regulations of the Risk Monitoring Committee;
- Approved the Work Guidelines and Regulations of the Remuneration and Nomination Committee;
- Approved the Recommendations of the Remuneration and Nomination Committee on the Renewal of Policies and Procedure for the Appointment, Replacement and/or Dismissal of Members of the Board of Commissioners, Board of Management and Committees reporting to the Board of Commissioners;
- Approved Amendments to the Audit Committee Charter;
- Approved the Risk Appetite Framework version 1.0;
- Performed analysis, provided inputs and together with the President Director approved the 2015-2017 Bank Business Plan;
- Approved the recommendation of the Remuneration and Nomination Committee for the appointment of members of the Board of Management;

- Approved credit to related parties;
- Approved the projects and budget proposals that required the Board of Commissioners approval;
- Approved the Proposal for Senior Bonds I Issuance 2015.

Composition, Criteria and Independency of the Board of Commissioners

The composition of the Bank's BOC members as of the 31st of December 2014 is:

Name	Position	Effective Date		Re-Appointment	Tenure Expiry
		BI Approval	GMS		
Wee Cho Yaw	President Commissioner	26 December 2005	14 October 2005	26 April 2013	2015
Wee Ee Cheong	Deputy President Commissioner	31 August 2007	22 June 2007	26 April 2013	2015
Lee Chin Yong Francis	Commissioner	19 December 2005	14 October 2005	26 April 2013	2015
Rusdy Daryono	Independent Commissioner	12 June 2006	22 May 2006	26 April 2013	2015
Wayan Alit Antara	Independent Commissioner	8 January 2009	20 June 2008	26 April 2013	2015
Aswin Wirjadi	Independent Commissioner	29 June 2009	12 June 2009	26 April 2013	2015

The composition of the Independent Commissioners is compliant to the provision of Bank Indonesia's Regulation ("PBI") No. 8/4/ PBI/2006 dated the 30th of January 2006 as amended by PBI No. 8/14/PBI/2006 dated the 5th of October 2006 regarding the Implementation of Good Corporate Governance for Commercial Banks and BI Circular Letter No.15/15/DPNP dated the 29th of April 2013 concerning the Implementation of Good Corporate Governance for Commercial Banks.

In accordance with these provisions, 50 per cent of the Bank's Board of Commissioners' members are Independent Commissioners who are both Indonesian citizens and residents.

Independency of the Board of Commissioners

None of the Independent Commissioners have any financial, management, shareholding and/or family relationship up to the second degree with fellow members of the Board of Commissioners, the Board of Directors and/or Ultimate Shareholders, which may affect its ability to act independently.

In accordance with PBI No. 8/14/PBI/2006 regarding the amendment to PBI No. 8/4/PBI/2006 regarding the implementation of Good Corporate Governance for Commercial Banks and BI Circular Letter No.15/15/DPNP concerning the Implementation of Good Corporate Governance for Commercial Banks, members of the Board of Commissioners may only hold concurrent position as members of the Board of Commissioners, the Board of Directors or Executive Officer at 1 (one) non-financial institution/company or members of the Board of Commissioners, the Board of Directors or Executive Officer performing supervisory function at 1 (one) non-bank subsidiary controlled by the Bank.

Excluding, however, concurrent positions held when a non-independent member of the Board of Commissioners performs his/her functional duties from the Bank's shareholder having the form of legal entity in its business group and/or the

relevant member of the Board of Commissioners assumes a position in a non-profit organisation or institution, insofar as the person concerned does not neglect the implementation of their duties and responsibilities as a member of the Board of Commissioners of the Bank.

All members of the Board of Commissioners have fulfilled the provisions as required in PBI No. 8/14/PBI/2006 regarding the Amendment to PBI No. 8/4/PBI/2006 regarding the Implementation of Good Corporate Governance for Commercial Banks and BI Circular Letter No.15/15/DPNP concerning the Implementation of Good Corporate Governance for Commercial Banks, as mentioned above.

Board of Commissioners Fit and Proper Test

The members of the Board of Commissioners were all appointed by the General Meeting of Shareholders by considering the main criteria, i.e. integrity, competency, professionalism, and financial reputation, according to the fit and proper test requirement set by Bank Indonesia.

Meeting Frequency of the Board of Commissioners

The Board of Commissioners holds 1 (one) meeting every 3 (three) months or as necessary, to discuss the general performance of the Bank related to the implementation of the duties and responsibilities of the Board of Directors for the past 3 (three)-month period.

Pursuant to Bank Indonesia's requirements on the implementation of Good Corporate Governance for Commercial Banks and Articles of Association of the Bank, the procedure for meetings of the Board of Commissioners has been provided is as follows:

- Meetings are to be held at least 4 (four) times in one year unless deemed necessary by a member of the Board of Commissioners or upon written request by the Board of Directors or at the request of one or more shareholders holding 1/10 (one tenth) of the total number of shares issued by the Company having valid voting rights.

Corporate Governance

- b. The meeting of the Board of Commissioners is chaired by the President Commissioner. If the President Commissioner is unavailable, to which no evidence to a third party is required, the meeting of the Board of Commissioners is chaired by the Vice President Commissioner and if they are unavailable, the meeting is to be chaired by a member of the Board of Commissioners elected by and between the members of the Board of Commissioners present.
- c. Meeting of the Board of Commissioners is only valid and may adopt binding decisions if more than ½ (half) of the total members of the Board of Commissioners are present or represented in the meeting.
- d. Decisions of the Meeting of the Board of Commissioners must

be adopted by way of deliberations to reach a consensus. In the event that no consensus is reached, decisions are adopted when the number of affirmative votes is more than half of the total votes validly cast at such a meeting.

- e. In the event of a draw, the Chairman of the Board of Commissioners Meeting will decide.
- f. The results of the Board of Commissioners meetings must be set forth in the minutes of the meeting and properly documented.

In 2014, the Board of Commissioners had held 4 (four) Meetings of the Board of Commissioners, as summarized below:

Name	Position	Frequency of Attendance
Wee Cho Yaw	President Commissioner	3
Wee Ee Cheong	Deputy President Commissioner	3
Lee Chin Yong Francis	Commissioner	4
Rusdy Daryono	Independent Commissioner	4
Wayan Alit Antara	Independent Commissioner	4
Aswin Wirjadi	Independent Commissioner	3

Board of Commissioners Meeting Agenda 2014

The Board of Commissioners meeting held in 2014 discussed the following agenda:

1. Reviewing realisation of the Business Plan for Q4/2013 and the Business Plan for the 2014 quarterly period.
2. Reviewing quarterly performance on Loan, Treasury, Channel, HR, Compliance and Risk Management.
3. Reviewing implementation of the Prudential Banking principle and updates on new Regulations.
4. Reviewing reports of the Audit Committee and Risk Monitoring Committee quarterly.
5. Approving the agenda of the Annual General Meeting of Shareholders (AGMS) altogether with the resolutions.
6. Providing recommendations about the revision of the Board of Commissioners, Board of Directors and Board of Commissioners' Committee nomination, placement and succession procedures as proposed by the Nomination and Remuneration Committee.

Recommendations of the Board of Commissioner concerning Funding and Authority of Expenditure on Goods and Services

According to the Articles of Associations and the Bank's Policy, the Board of Commissioners has:

- a. Approved the appointment of contractors and the cost for the replacement of a power generator and chiller as well as repairing the switch board and wiring in UOB Plaza;
- b. Approved the National Standard Indonesia Chip Card Specification Project;
- c. Approved the Risk Weighted Asset (Basel II) project;
- d. Approved the budget for the Rating Master project;
- e. Approved the Global Electronic Banking (GEB) project;
- f. Approved the Proposal for the Self-Registration Bonds I Issuance 2014;
- g. Approved the Proposal for Senior Bonds I Issuance 2015.

Board of Commissioners Training and Development Program

To improve the performance of members of the Board of Commissioners, the Bank includes the Board of Commissioners in various training and competency development programs which are relevant to their competencies and respective areas of work. During 2014, the seminars and trainings that the Board of Commissioners joined were as follows:

Board of Commissioners Training and Seminar in 2014

Name	Position	Date	Training
Rusdy Daryono	Independent Commissioner	17 - 18 December 2014	UOB Indonesia Strategic Workshop 2015
Wayan Alit Antara	Independent Commissioner	28 February - 1 March 2014 17 - 18 December 2014	Risk Management Strategic Workshop 2014/2015 UOB Indonesia Strategic Workshop 2015
Aswin Wirjadi	Independent Commissioner	17 - 18 December 2014	UOB Indonesia Strategic Workshop 2015

BOARD OF DIRECTORS

Duties and Responsibilities of the Board of Directors

Pursuant to the Articles of Association, the Board of Directors is fully responsible for performing its duties in the Bank's best interest to achieve its purpose and objectives. Every member of the Board of Directors must, in good faith and full responsibility, perform his/her duties by observing the prevailing laws and regulations and the Articles of Association of the Bank. The Board of Directors is also entitled to represent the Bank validly and directly both inside and outside the courts with regard to anything and any event.

Principal duties of the Board of Directors include, among others:

- a. Manage the Bank pursuant to its authority and responsibilities as stated in the Articles of Association and prevailing laws and regulations;
- b. Fully responsible for the implementation of the Bank's management;
- c. Implement the principles of Good Corporate Governance in every business activity of the Bank at all levels or tiers of the organisation;
- d. Implement business strategies as recommended by the Board of Commissioners;
- e. Follow-up audit findings and recommendations provided by the Internal Audit Function, External Auditor, results of supervision by Regulator as well as other authorized institutions;
- f. Perform internal supervision in an effective and efficient manner;

- Formulate strategies in order to instill a Compliance Culture within the Bank;
- Propose compliance policies to be stipulated by the Board of Directors;
- Implement a compliance system and procedures to be used to prepare internal provisions and guidelines of the Bank;
- Ensure that all policies, provisions, systems, and procedures as well as business activities conducted by the Bank have complied with the requirements of the regulator and applicable provisions of laws and regulations;
- Minimize the compliance risk of the Bank;
- Take preventive measures in order to ensure that the policies and decisions taken by the Board of Directors of the Bank remain in line with the requirements of the regulator and all prevailing laws and regulations;

- Submit reports to the Financial Services Authority regarding the implementation of their duties;
- Perform other duties related to compliance functions, such as monitoring and protecting the compliance of the Bank towards commitments made by the Bank to the regulator.

In carrying out its duties, the Board of Directors is assisted by Senior Executives leading strategic functions at management level. The Board of Directors and the Senior Executives are commonly known as the Board of Management.

the Composition, Criteria and Independence of the Directors

Composition of the Bank's BOD members as of the 31st of December 2014 are:

Name	Position	Effective as Members		Re-Appointment	Tenure Expiry
		BI Approval	GMS		
Armand B. Arief	President Director	7 September 2007	22 June 2007	26 April 2013	2017
Tan Chin Poh	Deputy President Director	24 July 2013	26 April 2013	-	2017
Iwan Satawidinata	Deputy President Director	10 June 2010	15 April 2010	26 April 2013	2017
Safrullah H. Saleh	Director	29 May 2001	25 May 2001	26 April 2013	2017
Ajeep Rasidi Bin Othman	Director	6 May 2010	19 February 2010	26 April 2013	2017
Soehadie Tansol	Compliance Director	31 December 2002	25 November 2002	26 April 2013	2017

Independency of the Board of Directors

- All members of the Board of Directors of the Bank do not have mutual financial and family relationships up to the second degree with fellow members of the Board of Directors and or members of the Board of Commissioners and Ultimate Shareholder.
- None of the members of the Board of Directors, either individually or collectively, own shares amounting to more than 25 per cent of the issued capital at the Bank or at any other company.
- None of the members of the Board of Directors hold a concurrent position as a member of the Board of Commissioners, the Board of Directors or an Executive Officer at any other Bank, Company and/or institution.
- The President Director of the Bank is a party independent from the ultimate shareholder of the Bank and does not have any financial, management, shareholding and/or family relationship with the ultimate shareholder of the Bank.

Fit and Proper Test Information Disclosure

The appointment of members of the Board of Directors by the General Meeting of Shareholders has complied with the criteria approved by the Board of Commissioners, taking into consideration sufficient integrity, competence, professionalism and the financial reputation in accordance with the requirements of the fit and proper test stipulated by Bank Indonesia.

Meeting Frequency of Directors

Pursuant to the Articles of Association, the order of the Board of Directors meeting has been governed, as follows:

- The meeting is to be held at least once a month unless deemed necessary by one of the members of the Board of Directors, or through written request from one or more of the members of the Commissioners, or through written request from one or more of the shareholders representing 1/10 (one tenth) of the total shares allocated by the Company with a valid voting right.
- The directors' meeting is valid and authorized to make a binding decision if more than ½ (half) of the total members of the Board of Directors are either present or represented in the meeting.
- The decision of the Directors' meeting should be based on deliberation to reach agreement. If a decision cannot be reached through deliberation, a decision will be made through voting based on supporting votes of more than ½ (half) of the total valid votes from the Board of Directors collected in the Meeting.
- If the opposing and supporting votes are equal, the Chairman of the Director's meeting shall decide.
- Results from the Directors Meeting are required to be summarized into the minutes of the meeting and properly documented.

During 2014, the Board of Directors meetings have been conducted for 17 (seventeen) times, with recapitulation as follows:

Name	Position	Frequency of Attendance
Armand B. Arief	President Director	17
Tan Chin Poh	Deputy President Director	14
Iwan Satawidinata	Deputy President Director	14
Safrullah Hadi Saleh	Director	15
Soehadie Tansol	Compliance Director	15
Ajeep Rasidi Bin Othman	Director	14

Board Manual

The implementation of the tasks and responsibilities of the Board of Commissioners and Directors of the Bank is conducted in accordance with the guidelines and rules that are binding for every member of the Board of Commissioners and Board of Directors that includes among others provisions; amount, composition, criteria and independence of Board of Commissioners and Board of Directors members; also disclosing duty, authority and responsibility, work ethics and work schedule, meeting procedures and decision making and transparency.

Remuneration Approval Process

The Bank performed an annual review of the remuneration for the Board of Commissioners and Board of Directors, based on the performance of the job holders, which was adjusted based on the Bank's performance. The factors that were taken into account in reviewing the remuneration included:

- Performance of the Bank;
- Remuneration budget;
- Performance of the job holders;

- Skills and competence level;
- The prospect of the position and market conditions, as well as the benchmarks reflected in compensation and benefits survey; and
- National inflation rate.

A remuneration review was conducted for each Commissioner and Director on an individual basis based on the above criteria. The proposal for any changes to such remuneration should be recommended by the Remuneration and Nomination Committee and must meet the following requirements:

- The proposal of changes to the Board of Directors' remuneration should be agreed by the Board of Commissioners; and
- The proposal of changes to the Board of Commissioners' remuneration should be agreed by the Majority Shareholder.

In line with the authority granted in the AGMS.

Implementation of Committee's Duties

Committees under the Board of Commissioners

Audit Committee

Implementation of the Audit Committee's duty is referring to the Audit Committee Charter as revised and declared under the Board of Commissioners Decree No. 14/COM/0018 dated the 17th of October 2014.

As stated in the Directors' Decree No. 13/SKDIR/0011 dated the 25th of March 2013 regarding the Appointment of Members of the Audit Committee, the structure and membership of the Audit Committee as of the 31st of December 2014 for the office period of 2013-2015 is as follows:

Composition of the Audit Committee Members as of the 31st of December 2014:

Chairman (Independent Commissioner)	Rusdy Daryono
Member (Independent Party)	Winnie Widya

The duties, authorities and responsibilities of the Anti Money Laundering Committee are to:

- Endorse consideration for significant changes to, and deviations from the Bank's Policy on the Anti Money Laundering and Countering the Financing of Terrorism and Sanctions for final approval at the Board of Management;
- Approve AML/CFT and Sanction directives, in line with the pre-determined AML/CFT and Sanctions framework;
- Approve the on-boarding of prospective or the continuation of an existing relationship with specific customers deemed to pose a reputation and/or ethical risk to the Bank;
- Manage, arbitrate and decide on conflicts arising from differing views between business work functions and Compliance Functions on the customer acceptance of specific new customers, and the retention of existing customers;
- Approve account closure arising from the associated AML/CFT and Sanctions compliance risk exposure contributed by specific existing customers;
- Approve any significant AML/CFT and Sanctions related matters that increase the money laundering or terrorist financing risk exposure to the Bank;
- Approve any AML/CFT and Sanctions controls implementation that pose high AML/CFT risks and approve the compensating AML/CFT controls for implementation;
- Facilitate a forum for the Board of Management discussion and decision on any reputational and regulatory compliance issues relating to money laundering, terrorist financing and sanctions.

During 2014, the Anti Money Laundering Committee held 5 (five) face to face meetings and conducted circular approval 14 (fourteen) times.

During meetings conducted throughout 2014, there were 5 (five) cases escalated to the Anti Money Laundering Committee. From the 5 (five) cases, 3 (three) prospective customers were accepted as customers with notation that these customers must be classified as high risk customers and will be monitored more closely, 1 (one) prospective customer was rejected, and 1 (one) more case that related to existing customer transactions must be monitored more closely.

The duties and responsibilities of the ORMC Committee are to:

- Approve and periodically review the Bank Operational Risk Management Framework, ensuring the implementation of operational risk management through the determination of risk tolerance, policies, procedures and guidelines and limits, including risk management strategies to prevent financial loss.
- Make decisions on which methods will be applied in identification, measurement/ assessment, monitoring and controlling/ mitigating operational risk management at the Bank.
- Conduct periodic meetings to discuss significant operational risk issues.
- Provide recommendations or decisions to resolve operational risk issues.
- Develop an organisational culture that is aware of operational risk and foster commitment in managing operational risk.
- Ensure that the remuneration policy of the Bank is in accordance with the bank's risk management strategy.
- Create a culture of operational risk disclosures that is objective in all elements of the organisation, so that operational risk can be identified quickly and appropriately mitigated.
- Establish a policy of reward and punishment that is effectively integrated in the performance appraisal system.
- Ensure that the Bank has a code of conduct that applies to all employees at every level of the organisation.
- Consistently apply sanctions to employees who are convicted of irregularities and violations.

The Work Program of the Operational Risk Management Committee and its realisation in 2014 includes, but is not limited to:

Work Program	Realisation
ORMC Meetings will be held as necessary, at least once a year.	During 2014, the Operational Risk Management Committee held 3 (three) meetings to discuss significant operational risk issues and provide recommendations or decisions to resolve operational risk issues.

CORPORATE SECRETARY

The Corporate Secretary is a liaison officer between the Company and the Financial Services Authority (OJK), Indonesia Stock Exchange (IDX), Indonesia Securities Center Custody (KSEI) and Investors. In the organisation of the Bank, the Corporate Secretary is directly responsible to the Finance and Corporate Service Director.

Duties and Responsibilities

The Corporate Secretary has the following tasks:

- To act as the Bank's representative and as a liaison officer between the Bank and all its stakeholders regarding the Bank's activities;
- To manage the delivery of information on the Bank's performance and corporate actions to the public;
- To submit the Bank's Annual Report and Financial Statements periodically to related stakeholders; and
- To coordinate the organisation of meetings of the Board of Directors, meetings of the Board of Commissioners and the General Meeting of Shareholders, as well as being responsible for the activities of the secretariat of the Board of Directors and Commissioners.

Realisation of Duties and Responsibility 2014

Among the stakeholder engagement activities implemented by the Corporate Secretary in 2014 were the following:

- Organising an Annual and Extraordinary General Meeting of Shareholders;
- Attending Board of Commissioners and Board of Directors meetings and providing the minutes of meetings; and
- Undertaking Bank UOB Indonesia Self-Registration Bonds I 2014 Issuance.

Press Release

In 2014, the Bank periodically published press releases both in national and regional scopes to the press. The published press releases cover information of the Bank's performance, marketing program socialisation, MoU signing with other parties and social (CSR) activity.

Implementation of Compliance, Internal Audit and External Audit Functions

Role of the Compliance Function

The implementation of the Bank's Compliance Function refers to Bank Indonesia Regulation No. 13/2/PBI/2011 and Bank Indonesia Regulation No.11/25/PBI/2009.

The Roles and responsibilities of the Compliance Function, are:

- Create steps in order to support the creation of a compliance culture in the overall Bank's business activities at every organisational level;
- Conduct identification, measurement, monitoring, and control of compliance risk with reference to the Bank Indonesia Regulation concerning The Implementation of Risk Management for Commercial Banks;
- Assess and evaluate thoroughly under partnership with the business/support sector on the effectiveness, adequacy, and conformity of policies, provisions, systems and procedures that are owned by the Bank with the prevailing legislations;
- Conduct reviews and/or recommend updates and the refinement of policies, regulations, systems and procedures that are owned by the Bank to comply with Regulator provisions and prevailing legislations;
- Conduct measures to ensure that the policies, provisions, systems and procedures, as well as the Bank's business activities are in compliance with Regulator provisions and prevailing legislations; and
- Ensure the implementation of a system-wide monitoring of transactions conducted by customers in accordance with the guidelines, policies and procedures so that the implementation of the Anti-Money Laundering and Combating the Financing of Terrorism (AML & CFT) can run well and ensure the Bank avoids the imposition of sanctions;
- Identify, evaluate and document compliance risks related with the Bank's business activities including new products, services, business practices and changes in material for current business and relationship with customers.
- Provide advice and information updates about various aspects related to regulations to the entire Business and Supporting Functions including Senior Management regarding every Regulator's provision as well as other prevailing Law.

- i. Develop a Compliance Manual and guidelines containing prevailing regulations issued by the Regulator, other relevant Law and business conduct along with Business Functions to be used by Senior Management, and the entire Bank's Executives and Staff;
 - j. Identify and maintain an inventory of the Regulator's provision as well as other prevailing Law supported by the internal/external legal counselor, if needed;
 - k. Assist Senior Management in educating the staff regarding every compliance-related aspect;
 - l. Give continuous advice, guidance and training to the staff on the correct implementation of compliance framework, including policy and procedures as stated in Bank Compliance Manual, Code of Conduct and Bank Internal guidelines;
 - m. Provide advice to Working Functions and/or Senior Management related with CLRS on the impact of changes in regulation and provide guidance regarding the implementation of correct and prompt procedures to comply with the requirements;
 - n. Monitor and assess compliance with the Compliance Framework and policy or internal procedures as well as report to the Board of Management and/or Senior Management and Regulator (if considered necessary). Hence, the responsibility to ensure compliance still remains in each Working Function.
 - o. Investigate if there are any compliance incidents and complaints, and take the correct further investigation;
 - p. Act as a contact person for related internal and external parties, including the Regulator, regarding several aspects related with the Bank's compliance;
 - q. Exercise responsibility according to the compliance plan and procedure developed for each business entity based on the compliance framework including compliance monitoring with a risk-based approach.
- b. Conduct identification, measurement, monitoring and controlling process towards Compliance Risk through:
 - Compliance Review Procedure;
 - Supervision of sanctions imposed by Regulator.
 - c. Establish a Compliance Review & Testing Division to manage compliance risk through the Compliance Review Program, so that the Bank can ensure the conformity and adequacy of policy, provision, system and procedure of the Bank with prevailing legislations through:
 - Report of Compliance Review Results;
 - Regulatory Risk Assessment Report.
 - d. Provide Compliance Opinions.
 - e. Monitor and report Follow Ups on the Regulator Audit Results.
 - f. Socialize regulator provisions, either through face-to-face socialisation activities or through Compliance News, including providing information on compliance related matters.
 - g. Evaluate the Marketing Material Checklist.
 - h. Monitor the follow up of the RBBR-GCG Working Group.
 - i. Act as a liaison officer for compliance related issues between the Bank and regulators or internal Bank units.

The Implementation of Good Corporate Governance

The provision related to the Implementation of Good Corporate Governance for Commercial Banks refers to Bank Indonesia Regulation No.8/4/PBI/2006 dated the 30th of January 2006 and No.8/14/PBI/2006 dated the 5th of October 2006 as well as Bank Indonesia Circular Letter No.15/15/DPNP dated the 29th of April 2013.

The Bank consistently ensures that GCG principles are implemented in every business aspect and at all levels of the Bank. Those GCG principles are transparency, accountability, responsibility, independency and fairness. The implementation of these five GCG Principles should be applied to at least 11 (eleven) Factors of GCG Implementation, in which each factor's effectiveness should be able to be assessed from 3 (three) governance aspects as a continuous process.

Those three aspects are:

- a) Governance Structure is an aspect that consists of the Bank's governance structure and infrastructure adequacy in order for the implementation process of GCG principles to produce outcomes as expected by the Bank's stakeholders.
- b) Governance Process is an aspect that consists of effective GCG principles implementation process, supported by adequate governance structure and infrastructure of the Bank in order to produce outcomes as expected by the Bank's stakeholders.

Actions to Prevent Breaches of the Prevailing Regulations

The Compliance Director through the Compliance Function always monitors and controls the Bank's business activities, so that they do not violate the prevailing regulations by ensuring the Bank's compliance to Regulator provisions and prevailing legislations.

This is reflected from measures that have been put in place:

- a. Support the creation of a compliance culture in all the Bank business activities at all levels of organisation through the establishment of:
 - Compliance Charter;
 - Compliance Organisation Structure;
 - Compliance Guideline;
 - Compliance Standard Operational Procedure; and
 - Compliance Culture Campaign Posters.

Corporate Governance

- c) Governance Outcome is an aspect that reflects the result of GCG principles implementation that meets the expectation of the Bank's stakeholders with the support of adequate governance structure and infrastructure of the Bank.

This implementation of GCG principles is evaluated periodically through GCG Self Assessment and is submitted to the regulator and the Bank's Management as a part of the Bank's Soundness Rating Report (Risk Based Bank Rating).

As a form of the Bank's commitment to conduct continuous improvement on GCG principles implementation, the Bank has formed the RBBR Working Group which aims to monitor, maintain and/or improve the composite rating of Risk Based Bank Soundness Rating continuously. This mechanism has been stipulated in the Bank's policy, which is Directors' Decree No.13/SKDIR/0064 dated the 17th of September 2013 concerning PT Bank UOB Indonesia Soundness Rating System.

In 2014, the Compliance Work Unit has also issued a policy on PT Bank UOB Indonesia Guidelines of Good Corporate Governance Implementation through Directors' Decree No.14/SKDIR/0003 dated the 21st of January 2014 as a replacement of Directors' Decree No. 07/SKDIR/00636 on Guidelines of Report Preparation of Good Corporate Governance Implementation. This policy is prepared in reference to adjustment governed by Bank Indonesia through Circular Letter No 15/15/DPNP on the Guidelines of Good Corporate Governance Implementation for a Commercial Bank. Through the policy, Bank established Guidelines of Good Corporate Governance Implementation as a foundation and commitment in implementing GCG principles across all levels of the organisation as well as to elaborate the reporting mechanism on the Self Assessment of GCG that synergizes with the internal provisions of the Bank's Soundness Rating System and also regulation on the Implementation of the Good Corporate Governance Transparency Report.

Internal Audit Function Implementation

With reference to Bank Indonesia Regulation No.1/6/PBI/1999 dated the 20th of September 1999 on the Appointment of Compliance Director and Standards for the implementation of the Bank's Internal Audit Function (SPFAIB), the Bank has implemented an internal audit function and established the Internal Audit Charter and Internal Audit Guidelines.

The Internal Audit is part of the internal control. The implementation of an audit function was conducted based on a Risk Based Approach, as the basis for the auditors to analyze, test and consider issues related to the audit task.

The Internal Audit scope of work comprises of audit, assessment and providing independent, objective, reliable, valued and timely services to provide added-value for the Bank's operational activity. The Internal Audit helps the Bank to achieve its objectives through a systematic, well-directed approach to assess the adequacy of internal control, financial, operational and compliance as well as improving the effectiveness of the governance process, risk management, and internal controls that mitigate both current and evolving risks.

The Internal Audit Head reports to the President Director. To support the independence and guarantee smoothness of the audit as well as the authority to monitor follow-ups, the Internal Audit Head can directly communicate to the Board of Commissioners on issues relating to the audit through the Audit Committee, which is conducted through periodic and ad-hoc meetings.

The Internal Audit has an evaluation program on the quality performance of internal audit, comprising of Ongoing Performance Monitoring Reviews, Internal Quality Assessment and External Quality Assessment.

Internal Audit Professional Qualification/Certification

The Internal Auditor of the Bank holds internal audit professional qualifications and certification, including:

1. Competency Certification as an Assessor (Manager Level on Internal Audit Division) from a National Professional Certification Agency (BNSP).
2. Competency Certification as an Assessor from BNSP.

Internal Audit Organisation Chart

Disclosure of Internal Audit (IA) Practice in 2014

During 2014, 95 per cent of findings have been rectified, 3 per cent of findings are still in the process of rectification and 2 per cent of findings have been overdue and are currently in the process of submission of a new target date to the Management.

Internal Audit has established a follow-up process to monitor and ensure that rectification and risk mitigation has been completed effectively. Significant issues are highlighted to the Audit Committee through audit reports and during Audit Committee meetings.

Internal Audit 2015 Key Initiatives

The Key Initiatives of the Internal Audit in 2015 are prepared to increase value added, by always striving to meet the expectations and needs of the stakeholders which become higher, by focusing on activities such as:

1. Development of human resources through Subject Matter Expertise, Multiple Expertise Auditor, ACL (Audit Command Language) Specialist, and Guest Auditor Program.
2. Integrated and thematic audit increment of competency through continuous education and staff development.

External Audit Function Implementation

As approved in the AGMS, based on the recommendations from the Audit Committee through the Board of Commissioners, the Bank has appointed registered Public Accountant Firm in Bank Indonesia, namely Purwantono, Suherman & Surja.

The performance of the Public Accountant Firm - Purwantono, Suherman & Surja has met specified aspects and performed the audit independently, and also met the public accountant professional standards and audit scope, which are specified in the prevailing regulations, as stated in Engagement Letter between the Public Accountant Firm and the Bank.

Public Accountant Firm - Purwantono, Suherman & Surja, according to Bank Indonesia Regulation No. 3/22/PBI/2001 about the Transparency of Financial Bank, have communicated with Bank Indonesia to request information regarding the condition of the Bank, as well as to provide information on the implementation of the audit from the beginning until the end of the audit process.

Corporate Governance

RISK MANAGEMENT REPORT

Risk Management in UOB Indonesia ("Bank") is implemented thoroughly to support the Bank's sustainability and business growth, in accordance with the Risk Management Vision which is "To have risk management as an embedded culture (risk aware) in supporting a sustainable, trustworthy and sound business growth", because the business activities of the Bank have a variety of risks that must be consistently identified, managed, monitored, supported by internal control, and followed up with several risk mitigation measures, therefore the impact of risk events can be minimized. The impact of a delay in mitigating risks can be very significant, meanwhile the timely and accurate process of identifying and mitigating risks may result in future opportunities for business development. The Bank consistently develops and implements risk management of all risks.

In order to achieve the risk management vision, the Bank determines the risk management mission as follows:

- Promotion of sustainable long-term growth through embracing sound risk management principles and business practices.
- Continual improvement of risk discovery capability and establishment of appropriate value-creating risk controls.
- Facilitating business development within a prudent, consistent and efficient risk management framework that balances risks and returns.

The risks taken by the Bank in implementing its business strategy are managed in accordance with the Bank's prudential principles. The Bank also has determined Risk Management core values which are "AWARE" (Accountable, Weighted, Accurate, Responsive, Excellence).

In order to manage risk, Risk Management functions as an independent working unit and actively establishes the Risk Appetites and Risk Limits for each type of risk, develops risk management policies and procedures in accordance with the Bank's business strategy, and asserts that the risk management process should also involve all parties in the business lines. Hence, the Bank seeks to develop a strong culture of risk management through the implementation of a risk awareness campaign coordinated by the Risk Management function.

Accordingly, Risk Management has a role in improving the quality of Bank management through two aspects, which are to maintain capital and optimize returns in accordance with the established risk limits. Due to a wide scale of operation and an increased business volume, the Bank continuously improves the quality of risk management in a comprehensive and integrated manner (Enterprise-Wide Risk Management) through the identifying, measuring, monitoring and controlling risk exposure across all organisational lines in a timely and accurate basis.

A. General Risk Management Implementation

The Bank implements a Risk Management framework that includes the implementation of four pillars of risk management

in accordance with PBI 11/25/PBI/2009 regarding the implementation of risk management for commercial banks which consists of (1) active supervision of the Board of Commissioners and Board of Directors, (2) adequacy of policies, procedures, and limits, (3) risk management processes and risk management information systems, and (4) internal control system; with a brief explanation as follows:

1. Active Supervision by the Board of Commissioners & the Board Director

The Board of Commissioners and Directors are responsible to ensure the adequacy of risk management implementation tailored with the characteristic, complexity, and risk profile of the Bank, and have a good understanding on the type and level of risks inherent in the Bank's business activities.

In the supervision process, the Bank has several committees, such as the Board of Commissioners that consists of the Risk Monitoring Committee, Remuneration and Nomination Committee and Audit Committee. In addition, the Risk Monitoring Committee regularly conducts meetings with the Risk Management function to oversee the implementation of the Bank's risk management.

Meanwhile at the Board of Directors level, the Bank has various Management Committees such as the Risk Management Committee, Asset and Liability Committee, Credit Policy Committee, Operational, Risk Management Committee, etc, which have carried out their roles and responsibilities in reviewing the adequacy of risk management methodologies, policies, procedures and authorisation of limits. These roles and responsibilities are documented in the Terms of Reference of each committee.

The Board of Directors has determined a clear qualification for human resources and ensures the competency of human resources at all levels of position that are related to risk management implementation and ensures the adequacy of the quantity and quality of human resources including the understanding of their roles and responsibilities.

2. Adequacy of Policy, Procedure, and Limit

The Bank has established a comprehensive framework of policies and procedures to identify, measure, monitor and control risks. The Risk Management function continues to update and enhance its policies and procedures to align with the changes in the Bank's business activities. Risk limits are in place for various risk types and are in line with the Bank's risk appetite.

On a regular basis, the Risk Management function reports the implementation of the Bank's risk management to both the senior management and Regulator through various risk reports. All excess limits and any significant changes are escalated to the related Directors and officers for further action plans.

3. Risk Management Process and Risk Management Information System

The Bank implements risk management through four stages; which consists of:

- a. Risk identification is conducted by analyzing all sources of risk on the Bank's products and activities, including ensuring the adequacy process of identification and assessment of the inherent risks on new products and activities prior to its launch;
- b. Risk measurement is conducted on a regular basis of the Bank's business activities;
- c. Risk monitoring covers the monitoring on the level of risk exposure, risk tolerance, internal limit compliance, stress testing results, and consistency between the implementation and;
- d. Risks controlling is conducted through a framework of policies, processes, and procedures, which includes the establishment of exposure and concentration limits, proper segregation of duties, and other risk mitigation methods as well as increased control functions in any bank activity.

Risk Management Information System

To support the overall risk management process, the Bank implements and develops an adequate Risk Management Information System to implement the process of identifying, measuring, monitoring, and controlling risk. The development of an automation process is expected to be able to identify and detect the changes in risk profile quickly, so the Bank can mitigate efficiently and effectively. The Bank has invested some funds to build and develop automation systems based on Information Technology to ensure the result of the risk profile monitoring process is accurate.

4 Internal Control System

An effective internal control system is performed toward the implementation of business and operational activities at all levels of the organisation to support the process of risk management implementation based on the approved policies and procedures, including through:

- a) Conduct segregation of duties between operational units (business units) with controlling units (risk management function).
- b) Assign the risk management function, as an independent unit, to develop risk management policies, measure risk methodologies, set risk limits, and perform data/model validation.
- c) Review and monitor every transaction and functional activities that have risk exposures as required, and implemented by each business unit.

The Bank also implements 3 (three) lines of defence, as follows:

1. First line of defence - Risk Taking Unit Consists of business and supporting units that responsible to manage risks from their business activities, including managing risks in accordance with the approved policies, limits, and risk appetite.
2. Second line of defence - Risk Oversight
Consists of Risk Management and a Compliance function which is responsible to establish risk management policies and frameworks, risk appetite, and limits. The risk oversight is also responsible to conduct an independent review and oversight of the Bank's risk profile, including reporting the material risks to the management.
3. Third line of defence – an Independent Audit Consists of an Internal Audit function and External Audit which are responsible to conduct risk based audits covering all organisational aspects in purpose to ensure the effectiveness of the risk management implementation.

B. Risk Management Implementation for Each Type of Risk

The Bank establishes risk management policies which consist of 8 (eight) types of risk including: Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Strategic Risk, Compliance Risk and Reputation Risk.

I. Credit Risk

Credit risk is defined as the risk of loss arising from any failure by a debtor or a counterparty to fulfill its financial obligations as and when they fall due. Credit risk is the single largest risk that the Bank faces in its core business as a commercial bank, arising primarily from loans and other lending-related commitments to retail, corporate and institutional borrowers. Treasury and capital market operations, and investments also exposes the Bank to counterparty and issuer credit risks. The Bank believes that a disciplined approach towards credit risk measurement is essential to the effective understanding and management of credit risk.

Credit Risk Management Governance Structure

Credit Risk Management function ("CRM") provides an independent oversight of credit risk in the Bank and is responsible for independent reporting and the analysis of all elements of credit risk. CRM has established the Bank's core credit policies and guidelines, and also monitors and manages credit risk within the established framework that is set down by the Credit Policy Committee ("CPC") and/or Board of Commissioners. As part of this process, CRM ensures that areas of significant risk are highlighted to the appropriate senior management and that the appropriate actions to mitigate and manage this risk are taken.

Corporate Governance

Credit Risk Policies and Procedures

The Bank puts in place the following policies to manage credit risk:

- a. The General Credit Policy that governs the principles of credit extension and the broad credit principles and standards by which the Bank undertakes and manages credit risk. In this policy the Credit Classification rule is also included that governs the assessment of credit activities based on five credit grades of Pass, Special Mention, Substandard, Doubtful and Loss.
- b. The Consumer Credit Policy that governs the principles of consumer credit extension, the credit principles and standards by which the Bank undertakes and manages credit risk for the consumer segment.
- c. The Credit Concentration Risk Management Policy that manages credit concentration risk.
- d. The Credit Risk Mitigation Policy that specifies the types and minimum requirements for collateral, guarantees and credit derivatives to be eligible for capital relief.
- e. The Credit Restructuring Guideline that gives guidance on credit restructuring for borrowers who have difficulties to meet their obligations to the bank.
- f. Green Banking Guidelines, as a form of the Bank's role to support the Government's program to preserve the environment.
- g. Watchlist Accounts Guideline, which regulates the supervision of the development of the good condition of the debtor's business or financial industry, to maintain the quality of the Bank's credit portfolio.
- h. The Asset Classification Policy that gives the guidelines for classifying exposures into the Basel II Asset Classes for Risk Weighted Asset calculation.
- i. The Workflow for Basel II ECAI (External Credit Assessment Institutions) Process that gives the guidelines for obtaining and maintaining the external ratings of debtors for Risk Weighted Asset calculation.
- j. Credit Risk Scorecard & Override Rating Policy, contains policies/guidelines to override the results from an internal rating, which are caused by things that are set in the policy.
- k. Credit Risk Management Framework that governs the management of credit risk in the Bank.

Furthermore, the Bank has an independent credit review process, independent credit approval and processing function, to ensure that accounts are properly graded and classified according to internal policies and Bank Indonesia guidelines.

Credit Risk Management Framework

Board & Senior Management Oversight

The Board and Senior Management are responsible for the Bank governance activities as follows:

- a. Ensure the adequacy of risk management resources;
- b. Review the overall risk profile, limits and tolerance;
- c. Review and approve risk measurement models and approaches;

- d. Approve the Bank's credit policies;
- e. Approve credit concentration limits (including collateral, country/cross border, industry, borrower, obligor and portfolio limits);
- f. Approve Internal Rating-Based (IRB) credit risk parameters, models and scorecards in accordance with the Bank's policies.

Segregation of Duties

Credit Assessment & Approval

Approval of credit facilities and exposures to borrowers and/or other parties according to the discretionary limits approved by the Executive Committee / Board of Management.

To maintain the independence and integrity of the credit approval process, the Credit Approval function has been segregated from the business unit. The Credit Approval function is responsible for conducting independent and comprehensive analysis, evaluation and approval of all credit without undue reliance on external credit assessments. Officers in the Credit Approval function are guided by credit policies, the product program and credit originating guidelines.

The Bank has established a structure for the delegation of Credit Discretionary Limits (CDL), including the escalation process for approval exception, excesses and credit extension beyond prescribed limits. In addition, the credit approval authority is delegated through a risk based CDL structure where the CDLs ability to approve a credit is scaled according to a borrower's credit rating. Besides, the delegation of CDL follows a stringent process that takes into consideration the experience, seniority and track record of the officer. Credit Risk Management division acts as the custodian of the CDL structure to ensure that the CDL's are properly administered.

Credit Risk Management Function

CRM provides an independent oversight of credit risk and is responsible for the reporting and analysis of all elements of credit risk. The Credit Risk Management function has established the Bank's core credit policies and guidelines regarding credit risk, and actively engages with business units on credit related matters, focusing on facilitating business development that is prudent, consistent and efficient. It aims to achieve value creation through congruent credit risk methodologies and consistent credit policies within the Bank.

Credit Management and Special Asset Management

The Bank classifies its credit portfolios according to a borrower's ability to repay the credit facility from their normal source of income. Any account which delays payment or is in excess for more than 90 days will automatically be categorized as a Non Performing Loan by the Bank's NPL system to ensure independence of classification.

All borrowing accounts are categorized into Pass, Special Mention, Non Performing, Doubtful and Loss according to Bank Indonesia rules. Account collectability movement must be supported by a credit assessment based on the repayment capability, cash flows and financial position of the borrowers.

The Bank has a Credit Management function and Special Asset Management function which are authorized to manage bad credit. This unit is separate from the loan origination function to ensure independence and objectivity in managing bad credits.

Credit Risk Mitigation

As a basic principle of credit, the Bank does not grant credit facilities based solely on the collateral provided. All credit facilities are granted based on the credit standing of the borrower, source of repayment and debt servicing ability.

Collateral is taken whenever possible to mitigate credit risk. The value of the collateral is monitored periodically. The frequency of valuation depends on the type, liquidity, and volatility of the collateral value. The main types of collateral taken by the Bank are cash, marketable securities, real estate, equipment, inventory and receivables.

Impairment

Credit facilities are downgraded to impaired/ non-performing loan status if the following criterias are met:

- The principal and/or interest are past due more than 90 days;
- The outstanding amount, including interest of a revolving credit facility remains in excess for more than 90 days;
- The credit facility exhibits weaknesses that render a classification appropriate, although the amount past due or in excess is less than 91 days; and
- The borrower defaults on credit facilities with quarterly, semi-annual or longer periodic repayments.

The Bank uses both individual and collective approaches in formulating the allowance for impairment losses.

Credit Exposures under Basel II

The Bank currently uses the Standardized Approach under Basel II to measure the risk weighted asset (RWA) for credit risk. The information and guidelines of rating for RWA for credit risk is regulated in the Asset Classification Policy.

Under the Standardized Approach, the Bank's exposures are classified into 11 asset classifications and portfolios, as follows:

- Sovereign.
- Non Central Government Public Sector Entities.
- Multilateral Development Bank.
- Bank.

- Corporate.
- Employee / Retiree.
- Claim Secured by Residential Property.
- Claim Secured by Commercial Real Estate.
- Overdue Claims.
- Other Assets.
- Claims on Micro Business, Small Business, and Retail Portfolio.

Currently, the Bank only recognizes international ratings from Moody's, Standard's and Poor and Fitch.

I. Market Risk

Market risk is the risk of loss arising from movements in market variables on the position held by the Bank, which can result in losses for the Bank. Market variables that influence the position of the Bank are interest rates and exchange rates, including changes in the price of the option.

Market Risk Management Governance Structure

The Board of Directors delegates authority to the Assets and Liabilities Committee (ALCO) to provide an oversight on market risk management. ALCO reviews and provides directions on all market risk related matters.

The Bank has established the roles and responsibilities on each level of the position which relates to the implementation of market risk management and is tailored to the purpose, business policy, size and complexity of the Bank. The roles and responsibilities are clearly stated in the Market Risk Management Policy.

Market Risk Policies

The Bank has established Market Risk Management policies as a guidance of market risk management implementation. Market Risk Management Policy is reviewed at least annually to conform to business changes, management directives, and regulatory requirements, approved by the Asset and Liability Committee (ALCO) and the Board of Commissioners (BOC).

Market Risk Management Framework

The Bank's market risk framework comprises market risk policies and practices, delegation of authority and market risk limits, validation of valuation and risk models, etc. This framework also encompasses the new product / service program process to ensure the identified market risk issues are adequately addressed prior to launch.

The main responsibility of the Market Risk Management & Control function is to identify, measure, monitor and mitigate market risks, as well as the escalation of transactions that exceed the limit. The business function is responsible for managing the risks. All market risk appetite and limits control are reviewed at least once a year inline with the business strategy and capital adequacy of the Bank.

Corporate Governance

The Bank's market risk measurement methods are able to:

- 1) Measure the sensitivity and exposure to market risk under normal and stress conditions;
- 2) Provide the outstanding and potential profit and loss on a daily basis;
- 3) Perform mark to market valuations; and
- 4) Accommodate an increase in volume of activities, changes of valuation techniques, changes in methodology and new products.

The Bank calculates market risk capital requirements using the standardized approach as defined by the Bank Indonesia and submitted to Bank Indonesia on a monthly basis.

Internally, the market risk is measured and controlled using internal models. The Bank adopted the method of calculation of Value at Risk (VaR) with a historical simulation to measure the potential losses at a 99 per cent confidence level using historical data of 300 days. VaR estimates are backtested using Profit and Loss data on the trading book to validate the accuracy of the methodology. The process of backtesting is performed to analyze whether the deviation is caused by a weakness in the model calculation or due to genuine movement of the market. All identified irregularities are explained, and model deficiency will be addressed. To complement VaR measurement, stress tests are conducted on the trading book portfolios to identify the Bank's vulnerability in the event of a crisis.

Interest Rate Risk in the Banking Book

Interest Rate Risk in the Banking Book is defined as the risk of potential reduction in or loss of earnings (net interest income) and capital (the economic value of the Bank) due to changes in the interest rates environment.

Interest Rate Risk Management Governance

ALCO is delegated by the Board to supervise the effectiveness of interest rate risk management governance. Market and Balance Sheet Risk Management division supports the ALCO in monitoring the interest rate risk profile of the banking book. At a tactical level, the Global Markets and Investment Management (GMIM) - ALM (GMI-ALM) function is responsible for the effectiveness of risk management in the banking book interest rate adjusted for interest rate risk management policy that has been set.

Interest Rate Risk Management Framework

The primary objective of interest rate risk management is to protect and enhance capital or economic net worth through adequate, stable and reliable growth in net interest earnings under a broad range of possible economic conditions.

Exposure is quantified on a monthly basis using static analysis tools, such as repricing schedules and sensitivity analysis. They provide indications of the potential impact of interest rate

changes on interest income and price value through the analysis of the sensitivity of assets and liabilities to changes in interest rates. Mismatches in the longer tenor will experience greater change in the price-value of interest rate positions than similar positions in the shorter tenor.

Both the earnings (or net interest income or NII) and economic value of equity (EVE) approaches are applied to assess interest rate risk from interest rates changes in different interest rate scenarios, such as changes in the shape of yield curve, including high and low scenarios.

Stress testing is also performed regularly to determine the Bank's capital adequacy in meeting the impact of extreme interest rate movements on the balance sheet both on and off balance sheet. Such tests are also performed in order to provide the early warnings of potential extreme losses, facilitating the proactive management of interest rate risks in an environment of rapid financial market changes.

II. Liquidity Risk

Liquidity risk is defined as the risk to a bank's earnings or capital from its inability to meet its obligations or fund the increase in assets as they fall due, without incurring significant costs or losses.

Liquidity Risk Management Structure

The Bank's strategy is focused on facilitating business development within a prudent, consistent and efficient risk management framework in balancing the risks and returns. This is achieved by ensuring effective risk discovery by embracing the key risk management principles of risk identification, risk measurement, risk control/monitoring and risk analysis/reporting. The Bank has established the roles and responsibilities on each level of the position which are related to the implementation of balance sheet risk management and tailored to the purpose, business policy, the size and complexity of the Bank.

Liquidity Risk Management Policies

The Liquidity Risk Management Policy provides details on how liquidity risk is effectively managed by the Bank. The policy is formulated by Market & Balance Sheet Risk Management, which aims to address the liquidity risks that might arise primarily from the Bank's business of extending loans, making investments, accepting deposits and other funding requirements on trading activities. The policy is reviewed at least annually to incorporate significant business changes, management objectives and regulatory requirements approved by the Assets and Liabilities Committee (ALCO) and Board of Commissioners (BOC). Any exceptions to Liquidity Risk Management policy are tabled to the Asset and Liability Committee (ALCO) for endorsement/approval and the Board of Commissioners (BOC) and Risk Management Committee (RMC) are then notified.

Liquidity Risk Management Framework

Liquidity risks arise because of discrepancies between the period of funding and disbursement of funds on Bank's business activities. In addition, liquidity risks are also closely related to other risks and are very sensitive to the negative trend of financial condition. To mitigate the liquidity risk, the Bank has set the liquidity risk management policy, including the establishment of strategies and limits which are appropriate with the risk level taken by the Bank.

The key measures used by the Bank for managing liquidity risk are using cash flow projection under 'business as usual', 'bank-specific crisis' and 'general market crisis' scenarios, also by monitoring the liquidity ratios as an early warning indicator i.e. per centage decreased in non-bank deposits, LDR, Top 50 and 20 non-bank depositors ratios, swap funding ratio, undrawn facility ratio, and Top 20 bank depositor. Cash flow projection uses behavioral modelling to ensure the cash flow reflects the business-as-usual behavior. Additionally, the Bank also monitors the stability of its 'core deposits' on a regular basis which consists of stable non-bank deposits such as current accounts, savings accounts, and fixed deposits by analyzing their volatility overtime. The Balance Sheet Risk Management function have a responsibility to enhance, implement, maintain, review, develop and communicate the assumptions, methodology, data sources, delegation of authority, stress testing and procedures that are used to measure the liquidity risk.

Several strategic actions have been taken to manage the liquidity risk. On the funding side, the Bank conducts an in-depth evaluation of its funding capacity focusing on funding sources, concentration, tenor, and access to other funding sources in the market as well. Meanwhile from the asset side, it conducts analysis of the type and asset composition such as loans, liquid asset, and policies for financial instrument that covers the acceptable criteria for trading and investment assets. Updated information regarding financial market and economic conditions are also critical to be completed in order to understand the amount of funding available from the market under normal and stress conditions. Furthermore, new product/transaction/activities that have exposure to liquidity risk should be adequately reviewed and approved before such new product/transaction/activity is initiated.

The cash flow analysis of net funding requirement involves the preparation of cash flow mismatches based on actual contractual maturity. Contractual cash flow profiles the asset allocation, liabilities, and off balance sheet items into time bands by remaining maturity. Besides, the Bank also produces the cash flow mismatch reports based on behavior assumptions. The cash flow related to behavior analysis of asset, liabilities, off balance sheet and projecting the potential cash flow based on assumptions which are derived from the behavior patterns. Potential cash flow is specifically associated with product characteristics, such as whether the product is renewed, early redemption for fixed deposit or the historical trend of fixed deposit's rolled over. From the behavior cash flow analysis, the Bank obtained the expected Net Cash Outflow (NCO) gap that will be encountered.

The daily and monthly cash flow mismatch report is produced by Market and Balance Sheet Risk Management and monitored by Market risk Control by comparing the daily report position against NCO limit. Besides, the Market & Balance Sheet Risk Management function ensures that the Bank is not exposed to liquidity risk and provides reports to senior management for action that will be taken to mitigate and manage the liquidity risk.

There were several challenges to be faced by the Bank in developing and implementing liquidity risk management in 2014. One was related to the preparation of Basel III implementation, especially concerning liquidity risk. In September 2014, Financial Services Authority (OJK) issued the Consultative Paper regarding the Basel III Framework on Liquidity Coverage Ratio (LCR), which aims to gain feedback or input from banks on setting the LCR framework in Indonesia.

Since Q2-2013, internally, the Bank has monitored LCR and Net Stable Funding ratio (NSFR) on a monthly basis and reported to the ALCO meeting. Going forward to support the risk management implementation especially related to Basel III, the Bank will develop and enhance the process and database in order to perform effective monitoring.

Contingency Funding Plan

The Contingency Funding Plan (CFP) is a critical component of the liquidity management framework and serves as an extension of the Bank's operational or daily liquidity management policy. Although the Bank monitors liquidity and funding requirements on an ongoing basis, it is important to recognize that unexpected events, economic or market conditions, earnings problems or situations beyond its control could cause a liquidity crisis. The CFP outlines the actions that are to be taken by the Bank in the event of a liquidity crisis and would be activated in the event of a liquidity stress situation. It serves to identify and recognize a liquidity crisis, define the appropriate management responsibilities and responses during a crisis, rectify areas of concern, and ensure that information flows remain timely and uninterrupted to facilitate quick and effective decision-making. The level of sophistication and detail of the plan would commensurate with the complexity, risk exposure, activities, products and organisational structure of the Bank identifying the indicators that are most relevant to its management of liquidity and funding. In addition, the Bank has also established a Liquidity Working Group Team ("LWG"), which is responsible to evaluate the liquidity position and decides the actions to be taken when a crisis occurs.

IV. Operational Risk

Operational Risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Potential loss may be in the form of financial loss or other damages, for example, loss of reputation and public confidence that will impact the Bank's creditability and ability to transact, maintain liquidity and obtain new business.

Corporate Governance

The Bank has established an Operational Risk Management Framework that comprises risk governance structure, risk policies and standards, risk culture and awareness, risk identification, assessment, monitoring and control, operational loss event database, risk mitigation programs, risk reviews and audit, risk reporting, and regulatory capital. Operational Risk thresholds have been established. The thresholds include, but are not limited to the following: Qualitative statements on what the Bank is not willing to tolerate or condone, Risk Appetite, Risk Assessment Matrix, Key Operational Risk Indicators, Materiality and Notification Protocol, Deductible/Limits for insurance cover purchased, etc.

Operational Risk Management Governance Structure

Related parties involved in managing operational risk are as follows:

- The Board of Directors is ultimately responsible for managing the risks arising from the Bank business activities
- Operational Risk Management function ("ORM") is responsible for:
 - Developing Operational Risk Management Framework and Policies;
 - Facilitating and providing support and guidance to the business / support function in the development of their operational risk profiles, conduct operational risk self-assessments and develop key operational risk indicators;
 - Monitoring and reporting operational risk issues to Operational Risk Management Committee (ORMC) and Risk Management Committee (RMC);
 - Managing the Bank's insurance programs for areas of risk which the Bank seeks to transfer;
 - Providing advice and guidance to business / support function on risk mitigating measures to prevent recurrence of loss events; and
 - Facilitating and providing support to business/support function in their Business Impact Analysis (BIA) to enable the formulation of their business recovery strategies.
- Business / support functions are directly responsible for managing and controlling the operational risks in their business activities.
- Subject matter specialists are responsible to provide consultation related to their expertise to ensure that operational risk issues and concerns are effectively addressed.
- The Internal Audit function is responsible to conduct periodic reviews on the effectiveness of the Operational Risk Management framework and policies.

Operational Risk Management Framework

Operational risk is managed through processes and procedures by which business / support units identify, assess, monitor and control/mitigate their operational risks. The operational risk management programmes or tools, include:

- Key Risk Control Self Assessments (KRCSA).
- Key Operational Risk Indicators (KORI).
- Operational Risk Events Management & Reporting.

- Operational Risk Action Plans (ORAP).
- Insurance Management.
- Outsourcing Management.
- New Product Program.
- etc

Risk measurement of Operational Risk is conducted using a risk impact and likelihood matrix.

Operational Risk is monitored by analyzing various reports such as Operational Risk Highlight, Incident Reporting Form (IRF), KORI, KRCSA, GOCEQ, outsourcing activities, and new products and services activities.

Operational Risk is controlled by performing the various action plans from the operational risk issues that has been identified through various operational risk tools and methodology, including the establishment of limits for trading (treasury), ATMs, bank tellers, insurance, Business Continuity Plan (BCP), and also the transfer of some risks to insurance providers, etc.

The Bank has a reporting mechanism that provides the following operational risk information:

- a. Operational risk profile, legal risk profile, compliance risk profile, and reputational risk profile;
- b. Operational risk highlight, including the status report of the action plans arising from IRF, KORI, KRCSA, GOCEQ, outsourcing activities, and new products and services activities;
- c. Report of changes and/or additions of outsourcing plan;
- d. Report of outsourcing problems;
- e. Report in the events causing significant losses to the bank's financial condition; and
- f. BCM Scorecard.

Operational Risk Management Policies Updates

In 2014, the Bank revised and developed new policies to improve the management of operational risk. One of which is the Operational Risk Management Policy that sets out the framework for managing operational risks within Bank.

The Bank revised its Operational Risk Management Policy and separated it into a framework and a policy document for better guidance. The policy sets out the broad principles to manage operational risks within Bank. The Bank also revised its Insurance Management Policy to state the business/support units which are controlling the insurance and responsible unit which is reviewing quotes and the term of insurance policies, facilitating premium budgeting, handling the incident/losses and notifying the Insurance Company, and settlement of claims.

In addition, the Bank also reviewed and revised several existing policies and procedures such as cash transactions, transfers, and all SOPs related to Core Banking changes to ensure that the current processes and controls are adequate and applicable with the changes of the new core banking system.

Business Continuity Management

The Bank has revised the Business Continuity Management ("BCM") Policy and Guideline that covers Business Impact Analysis (BIA), Operational Risk assessment, recovery strategy performed by the Bank for each type of disruption, documentation of disaster recovery and contingency plan, and the evaluation of the effectiveness of the BCM program.

The Bank will continue to increase its capability to minimize the likelihood and impact of identified disaster. In 2012, the Bank has initiated a strategy to manage wide-area disruption especially for the Jakarta area. In order to support the Bank in developing competency and confidence of business continuity, BCP exercises are performed. The exercises include BCP Exercise, Disaster Recovery Exercise for the IT system, and the Management Call Tree Exercise.

Branch Assurance & Validation Program

To ensure the implementation of operational risk management tools and methodologies, ORM conducts a Branch Assurance & Validation Program to ensure GOCEQ and KRCSA are properly implemented in Branches.

In 2014, ORM conducted a review on several branches in all regions and it included assessing their compliance with procedures and control.

Quality Assurance

The Bank will continue to enhance the roles of Quality Assurance to support the Branches in managing operational risk. Workshops and socialisation on Fraud Risk Awareness and Branch Assurance Program for Quality Assurance were held in 2014 to ensure that they continue to be effective and capable of performing their roles.

The Quality Assurance Control Checklist is developed and periodically reviewed to help the Quality Assurance in assessing the adequacy and implementation of controls in Branches.

V. Compliance Risk

Compliance risk is defined as the risk of the Bank's failure to comply with the prevailing laws, regulations, and policies applicable to the Bank's business activities and operations. In line with Bank Indonesia Regulation No.13/2/PBI/2011 concerning the Implementation of Compliance Function in Commercial Banks, one of the Compliance Function strategy is the Management of Compliance Risk. As such, the compliance risk management strategy of the Bank covers the following aspects:

Compliance Risk Management Governance Structure

The Compliance Director and Compliance Function is an independent structure from any business, operational, and/or other support functions. The implementation of compliance function in the Bank is the responsibility of all stakeholders. The stakeholders involved in managing compliance risk are as follows:

- The Board of Commissioners evaluates the implementation of the Bank's compliance function at least twice a year.
- The Board of Directors approve the Compliance Charter and ensure the implementation of a Compliance Culture at all levels of organisation and the Bank's business activities.
- The Board of Management is responsible to foster and ensure the implementation of a Compliance Culture at all levels of the Bank's organisation and business activities, as well as ensuring the implementation of the Bank's Compliance Function.
- The Senior Management fosters awareness of the major aspects of Bank's compliance risks that should be explicitly managed.
- The Compliance Director is responsible to formulate strategies to encourage the creation of the Bank's Compliance Culture, establish compliance systems and procedures that will be used to formulate the Bank's internal provisions and guidelines.
- The Compliance Advisory and Monitoring Division monitors the effectiveness of the implementation strategy of the Compliance function in accordance with the policies, systems and procedures, and manage the Bank's compliance with the Bank's commitment to the regulator, and make steps in order to support the creation of a compliance culture in all activities of the Bank's business.
- The Compliance Review and Testing Division identifies, measures, monitors, and manages compliance risk with reference to the Regulators' regulations concerning the risk management implementation for commercial banks. This is performed by coordinating with the business/support function to ensure that the Bank's policies, provisions, systems, and procedures, as well as business activities are in accordance with the regulations from Regulators and other applicable regulations.
- The AML/CFT and Sanctions Division ensures the implementation of Anti Money Laundering and Countering the Financing of Terrorism Program in order to minimize the Bank's risk in being used as a means or target of crime, directly or indirectly, by criminals.
- The Risk Management function is responsible to manage the overall risks of the Bank.
- The Internal Audit function independently assesses the adequacy and the effectiveness of the Compliance Function.
- The Legal Function is responsible for providing advice from a legal viewpoint on the applicable Laws and Regulations, and also for the development and maintenance of policies, procedures and guidelines for the management of legal risks on a Bank-wide basis.
- Line Managers and Members of Staff are accountable for compliance risk and are responsible to ensure compliance with Bank Indonesia regulations and other regulations.

Compliance Risk Management Policies and Procedures

One of the strategies for compliance risk management is the establishment of a Compliance Charter and Compliance Guidance as two main policies and procedures in managing compliance risk. Both the policies set out:

- Compliance Framework.
- Compliance Code of Conduct.

Corporate Governance

- Procedure on Compliance Review and Testing.
- Procedure on Monitoring of Bank's Commitment Monitoring and Follow-Up on Request from Related Regulator.
- Procedure on Escalation and Reporting of Compliance Risk Incident.
- Procedure on the Bank's Internal Provisions Preparation.
- Provisions related to Compliance Function.

The Compliance Charter and Compliance Guidance are reviewed to be updated annually to ensure adequate and timely compliance function implementation in all levels of the organisation and thus better help the Bank harmonize between the Bank's commercial interests and compliance towards prevailing regulations. For such a policy and procedure to be implemented effectively, the most fundamental aspect that must be in place is a Compliance Culture, which is the value, behavior and action that supports the Bank's compliance towards the prevailing laws and regulations.

Compliance Risk Management Framework

In order to strengthen the Bank's internal control system framework, especially in the Compliance Function which functions as the 2nd line of defence, the Bank has developed the organisational structure under the Compliance Function into three divisions namely; Compliance Review and Testing Division, Compliance Advisory and Monitoring Division, and AML/ CFT and Sanctions Division. The strategies to implement the Bank's compliance function are through the establishment of compliance function governance, compliance risk management, as well as the implementation of compliance culture.

The Bank's compliance function framework in compliance governance aspects is reflected in the Compliance organisational structure that is independent from the business units and other support units, where the Compliance Director is directly responsible to the President Director. Thus, in carrying out the Bank's compliance function, the Compliance function is prevented from a conflict of interest.

Compliance risk management, aside from being conducted through compliance review and testing, is also conducted through the monitoring of the fulfillment of the Bank's commitment to the regulator, either based on the results of the regulatory inspection or through correspondence between the Bank and the regulator. Monitoring of the imposition of sanctions also became the focus of implemented compliance risk management, using several parameters such as the type, materiality and frequency of violations of applicable regulations.

Another framework of the Compliance Function implementation is the implementation of a compliance culture, through education to employees on a Compliance Code of Conduct and its application in employees' daily activities.

The functions which perform risk management implementation for compliance risk (Compliance Function and Operational Risk Management Division) are responsible for the monitoring and reporting of compliance risk issues to the Board of Directors and Commissioners on a regular basis.

VI. Strategic Risk

Strategic risk is defined as the risk due to the improper setting and/or implementation of a strategic decision and failure to anticipate any changes in the business environment.

Strategic Risk Management Governance Structure

Related parties involved in managing strategic risk are as follows:

- The Board of Commissioners and Directors formulate and approve the strategic plan and business plan, including the communication to all staff within the organisation.
- The Risk Management Committee supports the Board of Directors in monitoring strategic risk management in the Bank, providing information related to material risk exposure, issues, and action plans.
- The business / support functions monitor and manage strategic risk in their respective areas, and are responsible for ensuring all material risks that arise from the business activities and implementation of strategy are reported in a timely manner to the Board of Directors.
- The Risk Management function, together with the Finance function, conduct an evaluation of the realisation of the Bank's Business Plan.

Strategic Risk Management Policies and Procedures

An effective implementation of strategic risk management is supported with policies and procedures, and also risk limit which is aligned with the Bank's vision, mission, and business strategy. The development of these policies and procedures is tailored with the type, complexity, business activity, risk profile, and risk limit, and complies with the prevailing regulations and/or sound banking practices. The implementation of these policies and procedures is supported with the adequacy of capital and quality of human resources.

Strategic Risk Management Framework

The Bank adheres to prudent principles in all its business decisions so as to minimize and mitigate any risks involved. In managing strategic risk, the Bank constantly monitors the environment in which it operates, analyzes the Bank's performance in relation to its competitors, and takes corrective actions to adjust its strategies and plans as appropriate.

On an on-going basis, the Bank performs periodic reviews on the achievement of financial targets and realized strategies. All business functions are also responsible for the monitoring of its strategic risks and reporting promptly to the Risk Management Committee on any potential issues or problems that have strategic implications on the Bank.

VII. Legal Risk

Legal Risk is defined as the risk due to the weaknesses of juridical aspects which may arise from lawsuits, absence of supported legislations or weaknesses of litigation i.e unfulfillment of contracts requirements and inadequate collateral binding.

Legal Risk Management Governance Structure

Related parties involved in managing legal risk are as follows:

- The Board of Directors is responsible for managing legal risks arising from the Bank's activities.
- The Risk Management Committee supports the Board of Directors in monitoring legal risk management in the Bank, providing information related to material risk exposure, issues, and action plans.
- The business/support functions are responsible for monitoring and managing legal risk and its impact.
- Subject matter specialists are responsible for providing consultation related to their respective areas of expertise which comprises Compliance, Legal, Human Resources, Technology & Operations, Property & General Services, and Corporate Secretary functions.

Legal Risk Management Policies and Procedures

The Bank has in place a Legal Risk Management Policy that governs the Legal Risk Management Governance Structure, methodology and toolkits for managing the legal risk, and communication related to the legal risk, etc.

Legal Risk Management Framework

Risk measurement for legal risk is conducted by using indicators such as potential losses due to litigation, cancellation of contracts due to unenforceability of engagement, and changes of regulations.

The legal function reviews all standard contracts/agreements, standard loan agreements and standard Letters of offers; between the Bank and other parties on an annual basis. Every legal risk incident and its potential loss must be documented.

VIII. Reputation Risk

Reputation Risk is the adverse impact on the Bank's income, liquidity or capital arising from a negative stakeholder perception or opinion of the Bank's business practices, activities, and financial condition.

Reputation Risk Management Governance Structure

Related parties involved in managing reputation risk are as follows:

- The Board of Directors is responsible for managing the Bank's reputation risk.
- The Risk Management Committee assists the Board of Directors in the oversight of the management of reputational risk in the Bank, keeping them apprised of the material risk exposures, issues and resolution plans.
- The Reputation Risk Management Panel is a sub-committee of the Risk Management Committee which is responsible to confirm the impact of high reputational risk issues, determines

the appropriate action plans, appoints the relevant task force, and approves the closure of the case.

- The business/support functions are responsible for monitoring and managing the various types of risks they assume and paying close attention to those with potential reputation risk impact.
- The Risk Management function is responsible for developing and maintaining risk management policies and procedures; training and advising business/support function in risk management of market, credit, and operational risks.
- Subject matter specialists are responsible to provide consultation related to their expertise which comprises Brand Performance and Corporate Communications, Customer Advocacy and Service Quality, Compliance, Legal, Human Resources, Information Technology, and Corporate Secretary function.

Reputation Risk Management Policies and Procedures

The Bank has established the Reputation Risk Management Policy that governs the Reputation Risk Management Governance Structure, methodology, and toolkits for managing the reputation risk and its communication process, reputation risk escalation process, establishment of a Reputation Risk Management Panel, reputation risk issue owner, etc.

Reputation Risk Management Framework

Risk identification and measurement for reputation risk is conducted using information from various sources such as: news in mass media, customer complaints through call centres, and the customer satisfaction survey.

Risk monitoring for reputation risk is conducted on a regular basis in accordance with the Bank's loss experience in the past.

Risk controlling for reputation risk is conducted through:

- a. Prevention of events that could lead to reputation risk, for example by conducting a regular communication to stakeholders in the process of creating positive reputation and a series of activities such as corporate social responsibility.
- b. Restoration of the Bank's reputation after a reputational risk event and the prevention of the worsening of the reputation of the Bank.

Any incidents relating to Reputation Risk and its potential losses shall be documented, including the amount of potential losses resulting from those incidents.

Where the reputation risk event affects the Bank's ability to continue its business activities and/or to obtain funding, the Bank will activate the Crisis Management Plan (CMP), BCP, Disaster Recovery Plan (DRP) and/or Contingency Funding Plan (as relevant).

Corporate Governance

B. BASEL STANDARDS

In line with the implementation of Bank Indonesia regulation in 2012, the Bank adopted a Standardised Approach (SA) for credit risk and market risk, and Basic Indicator Approach (BIA) for operational risk.

In 2015–2017, the Bank will continue to prepare a foundation to establish and ensure Basel II and Basel III implementation is supported with a sufficient information system and tailored with the development of the banking system in Indonesia.

For internal purposes, in order to measure and maintain the strength of short-term and long-term liquidity, the Bank is in the process of developing simulations of the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) with reference to the Basel III regulation. The Bank also continues to improve the implementation of Pillar 2 “Internal Capital Adequacy Assessment Process” (ICAAP) to assess the overall capital adequacy associated with risk profile and strategy to maintain the level of the Bank’s capital. On an ongoing basis the Bank is improving the implementation of Pillar 3 “Market Discipline” to ensure the transparency of the Bank’s financial and non-financial information.

Table 1.a Quantitative Disclosures of Capital Structures Commercial Bank

		(in Rp million)	
CAPITAL COMPONENT		31 December 2014	31 December 2013
(1)	(2)	Bank	Bank
		(3)	(4)
I	CAPITAL COMPONENT

Corporate Governance

Related Party Funding and Large Exposure

The Bank has policies and procedures on Legal Lending Limits and the allocation of funds to related parties and large exposures as part of its prudential principles.

As of the 31st of December 2014, loans to related parties and large exposures were as follows:

(in Rp million)

No.	Funding	Total Debtor	Nominal
1	To Related Party	249	345,067
2	To Core Debtor	25	11,241,835
	a) Individual	3	974,481
	b) Group	22	10,267,354

Remarks:

- Nominal is related to outstanding parties (either included or excluded from LLL calculation, e.g: guaranteed by time deposit, lending to executive officer, with SBLC collateral, Prime Bank).
- Funding to core debtor, based on explanation in form 10 of Periodic Report of Commercial Bank, is 25 debtor/group (one obligor concept) that is excluded from the related party with accordance to the total Bank's asset that is stated in Bank Indonesia Regulation concerning Bank Soundness Rating System for a Commercial Bank.

Bank's Strategic Plan

In order to improve Good Corporate Governance and to comply with Bank Indonesia regulations, The Bank has proposed a Business Plan describing the Bank business activities in the short and medium term, the direction of the Bank's policies and strategic objectives of continuous operation based on proper planning, prudent and sound banking principles. The business plan is proposed by taking into consideration global and domestic economic development as well as visions to be achieved.

In the future, the Bank's policies will be directed towards:

- Accelerate business growth in all business segments although the Bank's main focus remains on the retail segment, while maintaining the quality of productive assets.
- Enhance liquidity capability with a lower cost of fund.
- Strengthen and accelerate infrastructure development in order to support business growth.

- Strengthen and improve management and HR development as the key to success in realising the Corporate Plan.
- Maximise the productivity of every office network owned by the Bank.
- Continuously enhancing the quality of services provided.
- Build the foundation to prepare the Bank for developing the implementation of Basel II and Basel III.
- Strengthen the implementation of the Anti Money Laundering (AML) and Countering the Financing of Terrorism (CFT) program in order to prevent the Bank from being misused as a means of money laundering.

Strategic steps that will be implemented in 2015 are as follows:

- Issue financial instruments such as Senior Bonds and a Negotiable Certificate of Deposit (NCD).
- Continue the implementation of a Rebalancing strategy in order to support a healthier credit growth and to strengthen the Liquidity Coverage Ratio (LCR) of the Bank.
- Replace the Branch Teller System with iBranch in order to support the Bank's overall business development.
- Develop internet banking for institution customers - Global Electronic Banking (GEB) project.
- Increasing the effectiveness of the organisation by engaging qualified human resources.

With a proper business strategy and good management practices, along with prudential principles and compliance to internal and external regulations, it is expected that the Bank's business would grow and provide benefits to all stakeholders.

Transparency of Bank's Financial and Non Financial Condition That Has Not Been Disclosed in Other Reports

The Bank has disclosed all its financial and non financial conditions because the Bank already implements the transparency principle in delivering financial and non financial information to the public in a timely, complete, accurate, up to date and comprehensive manner.

All related party transactions did not have loss potential or reduce the Bank's profit.

Bank's Buy Back Shares and Buy Back Bond

During 2014, the Bank did not perform any buy back on the Bank's shares and bonds.

CODE OF CONDUCT

The Bank's code of business conduct and ethics is the foundation of our governance framework and reflects our commitment to doing what is fair, right and legal. All of the Bank's management and employees are committed to upholding and strengthening the implementation of GCG practices that puts forth the moral and ethical principles based on the Bank's code of conduct and ethics.

The Bank regularly reviews the code of conduct and ethics and disseminates it to all employees and management to ensure that they understand its requirements and puts them into practice.

The code of conduct is set out in six components:

1. Responsibilities to the Bank

The Bank has the obligation to cooperate with the external investigation team and internal audit, obligation to safeguard the interests of the Bank in terms of intellectual property rights, the use of IT tools of the Bank for the purpose of the interests of the Bank, provide records promptly and accurately, document storage as applicable and prohibit the influence of employees or others, associated with business relationship (non-solicitation).

2. Responsibilities at the workplace

The Bank should promote a non-discrimination culture to create a conducive and healthy work environment.

3. Responsibility to customers and other external parties
The Bank imposes a ban on accepting gifts or money from any outside party, proper business judgment when selecting a third party to partner with the Bank. The Bank also prohibits political activism.

4. Secrecy

All employees are obligated to maintain confidentiality, customer privacy and security of customer data.

5. Investment and external activities

The Bank prohibits insider trading activities. It also avoids involvement in transactions where there is a conflict of interest. It also prohibits any external activities which directly or indirectly may interfere with the performance of employees and/or the Bank.

6. Legal provisions and other major compliance

The Bank prohibits against violations of anti-trust laws and complies with all prevailing laws and regulations.

Corporate Culture

The Bank's core values are fundamental to the way it operates as a company. The core values of the company are a representation of the Bank's corporate culture and how it runs and manages its business.

The Bank's corporate values are as follows:

- Integrity
Maintaining and implementing a high standard of ethics, morality and law, in all communications and customers' activities, as well as communities by setting aside personal interests.
- Teamwork
Cooperating as a team, helping each other to achieve the desired purpose while appreciating each function and task without feeling superior to others.

- **Trust and Respect**
Trust and respect customers as well as business partners and treating everyone with an open mind, honestly and respectfully in every word and action.
- **Performance Excellence**
Striving for better performance everyday, because we aim to lead the market as an organisation with sustainable growth and development.

Whistleblowing

The Bank has established a policy and procedure for whistleblowing. This policy was created to encourage each employee to report any breach or potential breach of laws, regulations, the Bank's policy, or code of conduct and ethics, while protecting them from any potential threat due to their report. Whistleblowers can submit their report verbally or in written form, to the respective direct supervisor, Head of Internal Audit, President Director, or Chairman of the Audit Committee.

Whistleblowing Procedure

Whistleblowing has to be made with assurance that the report is based on fact. The report is submitted without stating the name of the Whistleblower and will be responded to according to the Auditor's consideration.

The Whistleblower has to provide clear information and evidence to be investigated and followed-up and has to be submitted either verbally or under written statement to a direct supervisor/manager. Thus, the process relies on a level or sensitivity of the issues related and who the suspected party is that committed the fraud.

If the Whistleblower feels uncomfortable in the report or has an assumption towards the management staff (including to a direct supervisor) and the Board of Directors, a report has to be submitted directly to Head of Internal Audit and Chairman of Audit Committee.

Protection for Whistleblower and the Reported Party

A whistleblower who submits a truthful report according to this policy and with good will, will be protected from unfair dismissal or revenge risk. The protection is not valid for a whistleblower who intentionally submits false reports dishonestly.

The Bank will protect the whistleblower identity and will not disclose his/her identity without his/her permission. If there is any particular circumstances where the Bank fails to settle the issue without disclosing the whistleblowers identity (namely due to the evidence being required by the Court), the Bank will discuss with the whistleblower how to handle this issue. The Bank assures that every report submitted to the Bank's officer will be handled under a high level of confidentiality. The Bank will optimally seek to also protect the confidentiality of whistleblowers or a reported party, and for anyone who provides information during the investigation process based on the prevailing Law.

Report Handling

Officers in the Internal Audit Unit who are in charge of the Whistleblowing Hotline will respond to every report submitted as well as current issues through the following mechanism:

- Investigated by appropriate Unit/Division.
- Referred to the Police Department through Whistleblowing Panel/Committee.
- Recommended to Audit Committee.

In certain circumstances, the report will be settled with consensus without needing to complete an investigation. If any action considered needs to be carried out, this will be conducted before other investigations are completed.

The implementation of this policy is not limited to the seriousness of the complaint, the credibility of the complaints and the extent to which reporting can be verified by the resources - the resources available.

Result of Whistleblowing

In 2014, there were 7 (seven) cases reported through the whistleblowing hotline, which currently have been completely settled.

Corporate Governance

CORPORATE SOCIAL RESPONSIBILITY

Bank UOB Indonesia believes in the ability to play an active role in building a better environment, so during 2014 we continued to participate in community building.

Customer Protection

Providing high quality and relevant advice for customers, is a part of our commitment in building a responsible company. As an integral part of the Bank's growth, customers deserve our best efforts in ensuring their needs are met with the appropriate products and services. To meet this objective, we implemented a customer complaints policy and established the Bank Customer Service as well as a Call Centre Unit.

The Bank has implemented a customer complaints and dispute settlement procedure in accordance with BI, among others, through Circular Letter No.14/CSQ/0005 regarding Revised Guidelines for the Acceptance and Settlement of Customer Complaints which regulates the acceptance of customer complaints in branches and units as well as dispute settlement

procedure. Referring to the Circular Letter mentioned above, we provide Customer Complaints Forms, which can be found with every Customer Service officer in every operational office, for any customer who wishes to address their complaints to the Bank. In addition, to strengthen our effort in protecting our customer, we distribute relevant information on banking mediation by providing posters on every operational office of the Bank.

The Bank Call Centre is available 24-hours, covering all inquiries and requests on credit cards, banking and loans through IVR (Interactive Voice Response) and live Call Agents. All services would not be successful without well-trained personnel, thus the Bank provides a series of development programmes to train all call agent staff to deepen their knowledge and skills in the area of service excellence and to ensure smooth information delivery to customers.

The table shows the data of customer complaints received by the Bank in 2014:

Customer Complaint 2014

UOB Green Office Campaign

The Bank has a deep commitment to take part in environmental preservation initiatives in its daily operational and business activities, carried out by the management and employees in all Bank offices. Every activity conducted by the Bank will have an impact towards the environment, the Bank implemented the UOB Green Office campaign in 2014 focusing on reducing paper waste, saving clean water and efficiency in using electricity.

UOB Indonesia involvement in the Community in 2014

In conducting social activities, the Bank built a strong foundation for the Bank in providing ongoing support for the community in which the Bank operates, the three main focuses: children, education and arts. Throughout 2014, the Bank conducted and participated in the following programs:

UOB Heartbeat

In 2014, the Bank participated in an annual event at the initiative of the UOB Group, and managed to raise Rp130 million which was donated to Yayasan Pendidikan Anak Buta (YPAB) Surabaya (Surabaya Blind Children Foundation) with the aim to support education facilities and medical treatment for blind children and also donated Rp130 million for the Kick Andy Foundation to provide financial education and assistance for female entrepreneurs through the PREMAN SUPER community in Malang. In 2014, the UOB Heartbeat was held in Surabaya, East Java with more than 1,000 participants of UOB Indonesia employees and family.

Blood Donors UOB

As part of its commitment to the community, the Bank in cooperation with the Indonesian Red Cross (PMI), held blood donor activities annually; until now the Bank has donated more than 2,000 blood bags. In 2014, 250 UOB Indonesia employees participated in the blood donor scheme.

UOB Children's Education

In 2014, the Bank through various actions, helped society to encourage better education. The CSR activity in the education aspect performed in 2014 included among others: scholarships for student interns and assistance with school infrastructure.

UOB Painting of the Year

UOB believe that the arts play a very important role in community development for economic empowerment. Hence, the Bank shares our art collection with a selection of art showcased at UOB offices with our customers. Increasing public awareness of the arts is also a priority of the implementation of the painting competition UOB Painting of the Year which has been held four times until 2014. The UOB Painting of the Year competition is also intended to discover new artists. An artist from Yogyakarta, Antonius Subiyanto, won the UOB Painting of the Year 2014 and UOB Painting of the Year Regional in South-East Asia. This is the second time an Indonesian artist has won the UOB Painting of the Year Regional in South East Asia, previously Indonesian artist Y. Indra Wahyu won in 2012. The winner of UOB Painting of the Year and UOB Painting of the Year Regional will have the chance for a residency programme at the Fukuoka Asian Art Museum in Fukuoka, Japan.

Financial Literacy Program

The Bank also considers the importance of efforts to educate customers in financial literacy. In 2014, the Bank through various platforms, became involved in financial literacy campaigns targeted at youth, women, and both small and medium enterprise owners.

Financial Literacy Program for Youth

The Bank, in cooperation with Yayasan Kick Andy (Kick Andy Foundation), developed a financial literacy program for the youth to increase their awareness in the importance of saving. In a similar program, the Bank also partnered with Yayasan Mien R. Uno (Mien R. Uno Foundation) for the development of young entrepreneurs through an education series in the field of management, marketing communication, equity and business continuity. The financial literacy program for youth reached more than 100 youths in 2014.

Financial Literacy Program for Women

UOB Cerdas is a series of campaigns through seminars or talk shows for the Bank's female employees, employee's wives, and housewives. The program is designed to increase their knowledge of banking services that will help them in planning their financial goals. This program reached more than 100 women in 2014.

Financial Literacy Program for Small and Medium Enterprise

In welcoming the ASEAN Economic Community (AEC) in 2015, the Bank sees the need to better equip Indonesian SME owners by sharing its expertise through a series of financial articles published in SWA Magazine. Aside from a series of publications in SWA Magazine, the Bank also hosted on air radio talk shows partnering with Radio Brava, sharing the success stories from various business leaders.

Disaster Relief

The Bank has a commitment to help in easing the burden of natural disaster victims. In 2014, the Bank contributed to natural disaster relief and gave donations to the victims in the Mount Sinabung eruption, Manado earthquake and Jakarta flood.

In 2014, the total Corporate Social Responsibility fund contributed by the Bank, amounted to Rp2,85 billion.

GENERAL CONCLUSION OF THE RESULT OF SELF ASSESSMENT OF THE IMPLEMENTATION OF GOOD CORPORATE GOVERNANCE AT PT BANK UOB INDONESIA

The Bank conducted a self assessment on its implementation of Good Corporate Governance principles as of December 2014. The Bank is rated by comparing its Good Corporate Governance implementation against the minimum criteria set by Bank Indonesia. The Management is fully aware that the Bank should implement Good Corporate Governance to gain trust from customers, as well as shareholders. The Bank also believes that Good Corporate Governance should be achieved with high standards in order to support business (for business growth, profitability, and value added for all stakeholders) as well as to enhance its ability so that long-term business sustainability can be achieved.

Based on GCG Self Assessment in the 2nd Semester of 2014, the Bank is placed at a composite rating 2, which means that the Bank has achieved generally 'Good' GCG implementation. This is reflected from the adequate fulfilment of GCG principles.

Below is the result of the GCG Self Assessment viewed from the aspect of governance structure, governance process and governance outcome.

The Bank has conducted self assessment on the implementation of Good Corporate Governance principles throughout the period of January to December 2014, where in general, the Good Corporate Governance principles have been implemented in all eleven assessment factors and has included aspects of governance structure, governance process and governance outcome adequately.

Corporate Governance

Based on the assessment of Governance Structure aspects, the Bank's organisation structure has been equipped with the Board of Commissioners, Directors and Committees, as well as work functions, according to the Bank's needs and has complied with the Regulator's provision. This organisational structure is supported by the completeness of policies and procedures, management information systems, as well as the management of main duties and functions.

Similarly towards the assessment on Governance Process aspects, the Bank has conducted assessments to ensure the effectiveness of the implementation process of all policies, procedures and management information systems of the Bank by the independent Internal Audit Work Unit and External Audit periodically.

In the assessment of Governance Outcome aspect, the Bank has consistently met the expectations of stakeholders, namely:

- The adequacy of report transparency;
- Compliance with the law and regulations;
- Customer protection;
- Objectivity in performing assessments/audits;
- Improvement of compliance with the prevailing provisions.

Based on the assessment results of those governance aspects, the Bank still needs to make improvements on the following items:

- 1) There are still administrative sanctions from the Regulator due to errors in report submission to the Regulator, which in general was caused by human error factor and lack of control function of the supervisor. The Bank has provided training to reporting officers to further increase awareness and monitoring functions by supervisors, particularly in the process of report preparation and submission to the Regulator.
- 2) Improvements are still required in the Bank's internal control system, such as by implementing Risk Awareness Campaigns regularly and continuously to all employees, and calculating the effectiveness of risk management implementation on employee performance evaluation and other processes.
- 3) There are still customer complaints caused by incomplete information received by the customer, even though all customer complaints have been resolved by the Bank in accordance with the prevailing provisions. The Bank will keep conducting training to increase awareness on the importance of transparency principles implementation within all business activities of the Bank.
- 4) Several targets of the Bank have not been achieved until the end of 2014, namely due to the macroeconomic condition, but the Bank was able to maintain a minimum capital adequacy ratio above the minimum requirement. The Bank also achieved sound growth on loan portfolio and third party fund growth by the end of the 2nd semester of 2014. By the end of the 2nd Semester of 2014, Loan to Deposit Ratio was booked higher than the target set, indicating that the Bank had managed its liquidity position properly.

INFORMATION ACCESS

Internal Communications

The Bank uses its various internal communications channels to educate employees about the banking industry, business related activities, policies and plans. The internal communication network comprises:

- UOB Intranet Portal which contains information crucial to support the Bank's services as well as day-to-day operations.
- Monthly News email newsletter which carries CEO messages, business updates and reports.
- Daily News alerts which contain a summary of selected news reports on the national banking industry.
- Market Analysis is a daily bulletin containing information on the conditions of domestic and global markets.
- HR News is published periodically to inform the activities organised by Human Resources Directorate and other information relating to manpower.
- PFS News is published regularly to inform news, promotions and programmes launched by Personal Financial Services Directorate.
- TSB News contains information on activities conducted by Transaction Banking unit.
- CASQ News is a monthly publication containing any information related to customer service quality.
- OBOR is a quarterly publication as a communication media for operational risk coordinators (ORISCO) at the head office and branches.
- Legal Info is a monthly publication containing information on legal matters and activities conducted by Legal unit.
- RMG Bulletin is a bimonthly publication and contains information.

External Communication

Website

The Bank provides access for customers and general public by providing the www.uob.co.id website as a portal service that also provides the latest information. On this site, the public can find out, among others, the Bank's profile, products and services, interest rates, financial performance, addresses of branches and subbranches and ATMs, as well as job vacancies open for the public.

Call Centre 14008

The customers can also access information regarding the Bank or its products and services by calling the 24-hours Call Centre at '14008'.

Press Release and Media Interviews

Throughout 2014, the Bank issued 13 press releases published in various media, to promote and communicate its products, and corporate actions.

PT Bank UOB Indonesia

Laporan keuangan tanggal 31 Desember 2014
dan untuk tahun yang berakhir pada tanggal tersebut
beserta laporan auditor independen/

Financial statements as of December 31, 2014

and for the year then ended with independent auditor's report

The original report included herein is in the Indonesian language.

Laporan Auditor Independen

Laporan No. RPC-7012/PSS/2015

**Pemegang Saham, Dewan Komisaris dan Direksi
PT Bank UOB Indonesia**

Kami telah mengaudit laporan keuangan PT Bank UOB Indonesia ("Bank") terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2014, serta laporan laba rugi komprehensif, laporan perubahan ekuitas, dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, dan suatu ikhtisar kebijakan akuntansi signifikan dan informasi penjelasan lainnya.

Tanggung jawab manajemen atas laporan keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Tanggung jawab auditor

Tanggung jawab kami adalah untuk menyatakan suatu opini atas laporan keuangan tersebut berdasarkan audit kami. Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Standar tersebut mengharuskan kami untuk mematuhi ketentuan etika serta merencanakan dan melaksanakan audit untuk memperoleh keyakinan memadai tentang apakah laporan keuangan tersebut bebas dari kesalahan penyajian material.

Independent Auditors' Report

Report No. RPC-7012/PSS/2015

**The Shareholders and The Boards of Commissioners
and Directors
PT Bank UOB Indonesia**

We have audited the accompanying financial statements of PT Bank UOB Indonesia (the "Bank"), which comprise the statement of financial position as of December 31, 2014, and the statements of comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of such financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on such financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether such financial statements are free from material misstatement.

The original report included herein is in the Indonesian language.

Laporan Auditor Independen (lanjutan)

Laporan No. RPC-7012/PSS/2015 (lanjutan)

Tanggung jawab auditor (lanjutan)

Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Prosedur yang dipilih bergantung pada pertimbangan auditor, termasuk penilaian atas risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan. Dalam melakukan penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal entitas. Suatu audit juga mencakup pengevaluasian atas ketepatan kebijakan akuntansi yang digunakan dan kewajaran estimasi akuntansi yang dibuat oleh manajemen, serta pengevaluasian atas penyajian laporan keuangan secara keseluruhan.

Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opini

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan PT Bank UOB Indonesia tanggal 31 Desember 2014, serta kinerja keuangan dan arus kasnya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Independent Auditors' Report (continued)

Report No. RPC-7012/PSS/2015 (continued)

Auditors' responsibility (continued)

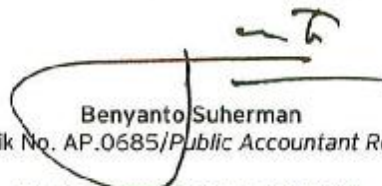

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of PT Bank UOB Indonesia as of December 31, 2014, and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

1. Umum

a. Pendirian Bank dan Informasi Umum

PT Bank UOB Indonesia (dahulu PT Bank UOB Buana) ("Bank") didirikan di Indonesia berdasarkan Akta Pendirian No. 150 tanggal 31 Agustus 1956 yang dibuat di hadapan Notaris Eliza Pondaag, S.H. Akta pendirian ini disahkan oleh Menteri Kehakiman Republik Indonesia dalam Surat Keputusan No. J.A 5/78/4 tanggal 24 Oktober 1956, didaftarkan pada Pengadilan Negeri Jakarta dengan No. 1811 tanggal 27 Oktober 1956 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 96, Tambahan No.1243 tanggal 30 November 1956.

Bank memulai aktivitas perbankan secara komersial pada tanggal 1 November 1956 berdasarkan Surat Keputusan Menteri Keuangan Republik Indonesia No. 203443/U.M.II tanggal 15 Oktober 1956 tentang Pemberian Izin Usaha PT Bank Buana Indonesia berkedudukan di Jakarta. Sesuai dengan pasal 3 Anggaran Dasar Bank, ruang lingkup kegiatan usaha Bank adalah menjalankan kegiatan umum perbankan. Bank telah memperoleh izin untuk menjalankan aktivitas sebagai bank devisa berdasarkan Surat Keputusan Gubernur BI No. 9/39/KEP/DIR/UD tanggal 22 Juli 1976.

Pada tahun 2000, Bank mengubah status Perseroan menjadi perusahaan terbuka dengan melakukan penawaran umum perdana kepada masyarakat sebanyak 194 juta saham. Perubahan status Bank menjadi perusahaan terbuka telah disetujui oleh Bapepam-LK berdasarkan Surat Ketua Badan Pengawas Pasar Modal No. S-1544/PM/2000, tanggal 27 Juni 2000. Selanjutnya pada tahun 2002, 2003 dan 2006, Bank melakukan Penawaran Umum Terbatas I, II dan III.

Pada tahun 2007, Bank (yang pada saat itu bernama PT Bank Buana Indonesia Tbk) mengganti nama menjadi PT Bank UOB Buana Tbk sebagaimana dinyatakan dalam Akta Pernyataan Keputusan Rapat Umum Pemegang Saham Luar Biasa No. 9 tanggal 19 Januari 2007, dibuat di hadapan Fathiah Helmi, SH, Notaris di Jakarta, yang telah mendapatkan persetujuan dari Menkumham No. W7-01036 HT.01.04-TH-2007 tanggal 29 Januari 2007.

1. General

a. Establishment of the Bank and General Information

PT Bank UOB Indonesia (formerly PT Bank UOB Buana) (the "Bank") was established in Indonesia based on the Deed of Establishment No. 150 dated August 31, 1956 of Eliza Pondaag, S.H. The Deed of Establishment was approved by the Minister of Justice of the Republic of Indonesia in its Decree Letter No. J.A 5/78/4 dated October 24, 1956, as recorded at the Jakarta Court of Justice under registration No. 1811 dated October 27, 1956 and was published in State Gazette of the Republic of Indonesia No. 96 Supplement No. 1243 dated November 30, 1956.

Bank's commercial banking activities begin on November 1, 1956 based on the Decision Letter of The Ministry of Finance of the Republic of Indonesia No. 203443/U.M.II dated October 15, 1956 about Granting Business License of PT Bank Buana Indonesia located in Jakarta. Based on Article 3 of the Bank's Articles of Association, the scope of Bank's business is to engage in general banking activities. The Bank also obtained a license to run the activities as a foreign banks based on BI Governor Decree No. 9/39/KEP/DIR/UD dated July 22, 1976.

In 2000, the Bank changed the status of the Company into a public company with initial public offering as many as 194 million shares to the public. Change the status of the Bank into a public company has been approved by Bapepam-LK based on Letter from the Chairman of the Capital Market Supervisory Board No. S-1544/PM/2000, dated June 27, 2000. Furthermore, in 2002, 2003 and 2006, the Bank conducted Limited Public Offering I, II and III.

In 2007, the Bank (whose name at the time was PT Bank Buana Indonesia Tbk) changed the name into PT Bank UOB Buana Tbk as set forth in Deed of Statement of Resolutions of Extraordinary Meeting of Shareholders No. 9 dated 19 January 2007, drawn up before Fathiah Helmi, SH, Notary in Jakarta, which has obtained approval of the Minister of Law and Human Rights No. W7-01036 HT.01.04-TH-2007 dated 29 January 2007.

1. Umum (lanjutan)

a. Pendirian Bank dan Informasi Umum (lanjutan)

Pada tahun 2008, RUPS Bank telah menyetujui perubahan status Bank dari perusahaan terbuka menjadi perusahaan tertutup dan menghapuskan pencatatan (delisting) saham Bank di BEI. Perubahan status, termasuk delisting tersebut telah dilakukan sesuai dengan persyaratan yang ditentukan oleh OJK (dahulu Bapepam dan LK) dan BEI dan Bank telah menyelesaikan hak-hak pemegang saham minoritas melalui proses penawaran tender sesuai dengan ketentuan yang berlaku. Berdasarkan Akta Pernyataan Keputusan Rapat Umum Pemegang Saham Luar Biasa No. 16 tanggal 16 Januari 2009, dibuat di hadapan Fathiah Helmi, SH, Notaris di Jakarta dan telah disetujui oleh Menkumham berdasarkan Surat Persetujuan No. AHU-26687.AH.01.02. Tahun 2009 tanggal 17 Juni 2009, Anggaran Dasar Bank telah diubah sehubungan dengan perubahan status Bank dari perusahaan terbuka (publik) menjadi perusahaan tertutup.

Berdasarkan Akta Pernyataan Keputusan Rapat Umum Pemegang Saham Luar Biasa No. 12 tanggal 15 April 2010, dibuat di hadapan Fathiah Helmi, SH, Notaris di Jakarta dan telah diberitahukan kepada Menkumham berdasarkan Surat Penerimaan Pemberitahuan No. AHU-AH.01.10-14548 tanggal 14 Juni 2010, para pemegang saham Bank (yang pada saat itu bernama PT Bank UOB Buana) setuju untuk melakukan penggabungan usaha dengan suatu bank yang pada saat itu bernama PT Bank UOB Indonesia.

Pada tanggal 30 Juni 2010, Bank (yang pada saat itu bernama PT Bank UOB Buana) secara efektif menerima penggabungan usaha PT Bank UOB Indonesia, penggabungan tersebut telah memperoleh persetujuan dari BI berdasarkan Surat Keputusan Gubernur BI No. 12/45/KEP.GBI/2010 tanggal 10 Juni 2010 tentang Pemberian Izin Penggabungan Usaha (Merger) PT Bank UOB Indonesia ke dalam PT Bank UOB Buana. Izin tersebut tetap berlaku sebagai izin usaha Bank sebagai perusahaan hasil penggabungan.

1. General (continued)

a. Establishment of the Bank and General Information (continued)

In 2008, the general meeting of shareholders of the Bank has approved the change in Bank's status from publicly listed to private company and delisted the Bank's shares at BEI. The change in status, including the delisting, had been conducted in compliance to the requirements determined by OJK (formerly Capital Market and Financial Institution Supervisory Agency) and BEI and the Bank which had settled the rights of minority shareholders through tender offer process in accordance with applicable regulations. Pursuant to the Deed of Statement of Resolutions of Extraordinary Meeting of Shareholders No. 16 dated 16 January 2009, drawn up before Fathiah Helmi, SH, Notary in Jakarta and approved by the Minister of Law and Human Rights through Letter of Approval No. AHU-26687.AH.01.02. Tahun 2009 dated 17 June 2009, Articles of Association of the Bank have been amended in relation to the change in the Bank's status from a publicly listed to a private company.

By virtue of Deed of Resolutions Statement of Extraordinary Meeting of Shareholders No. 12 dated 15 April 2010, drawn up before Fathiah Helmi, SH, Notary in Jakarta and as notified to the Minister of Law and Human Rights through Letter of Notification Receipt No. AHU-AH.01.10-14548 dated 14 June 2010, shareholders of the Bank (whose name at the time was PT Bank UOB Buana) agree to merged its business with a bank whose name at the time was PT Bank UOB Indonesia.

On June 30, 2010, the Bank (whose name at the time was PT Bank UOB Buana) effectively accepted the business merger of PT Bank UOB Indonesia, this merger had obtained the approval of BI under Decision of BI Governor No. 12/45/KEP.GBI/2010 dated 10 June 2010 regarding Granting of Merger Permit of PT Bank UOB Indonesia into PT Bank UOB Buana. The permit still applies as the business permit of the Bank as the resulting bank.

Pada tanggal 31 Desember 2014 dan 2013, total karyawan masing-masing sebanyak 4.918 dan 5.317 orang (tidak diaudit).

2. Ikhtisar Kebijakan Akuntansi Penting

Kebijakan-kebijakan akuntansi yang penting, yang diterapkan dalam penyusunan laporan keuangan untuk tahun 2014 dan 2013 adalah sebagai berikut:

a. Dasar Penyajian Laporan Keuangan

Laporan keuangan telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan (SAK) di Indonesia yang dikeluarkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia (DSAK-IAI).

Laporan keuangan kecuali laporan arus kas, disusun dengan dasar akrual dan berdasarkan konsep biaya historis, kecuali beberapa akun tertentu yang disusun berdasarkan pengukuran lain sebagaimana diuraikan dalam kebijakan akuntansi masing-masing akun tersebut.

Laporan arus kas disusun menggunakan metode langsung yang dimodifikasi dan arus kas dikelompokkan atas dasar aktivitas operasi, investasi dan pendanaan. Kas dan setara kas terdiri dari kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada Bank Indonesia, bank lain dan lembaga keuangan, yang jatuh tempo dalam waktu 3 (tiga) bulan sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

1. General (continued)

b. Board of Commissioners, Directors and Employees (continued)

Short-term employee benefits received by Bank's Board of Commissioners and Directors for December 31, 2014 and 2013 amounting to Rp28,199 and Rp14,379, respectively.

Long-term employee benefits received by Bank's Board of Commissioners and Directors for December 31, 2014 and 2013 amounting to Rp12,778 and Rp14,542, respectively.

As of December 31, 2014 and 2013, the Bank has 4,918 and 5,317 employees (unaudited), respectively.

2. Summary of Significant Accounting Policies

The significant accounting policies applied in the preparation of the financial statements for the year 2014 and 2013, are as follows:

a. Basis of Preparation of the Financial Statements

The financial statements have been prepared and disclosed in accordance with the Indonesian Financial Accounting Standards (FAS) issued by the Financial Accounting Standards Board of the Indonesian Institute of Accountants (DSAK-IAI).

The financial statements, except for the statements of cash flows, are prepared using the accrual basis and based on historical cost concept, except for certain accounts which are measured on the bases described in the related accounting policies for those accounts.

The statement of cash flows have been prepared using the modified direct method and the cash flows have been classified on the basis of operating, investing and financing activities. Cash and cash equivalents consists of cash, current accounts with Bank Indonesia and current accounts with other banks, placements with Bank Indonesia other banks and financial institution maturing within 3 (three) months or less from the acquisition date provided they are not used as collateral for borrowings nor restricted.

(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

a. Dasar Penyajian Laporan Keuangan (lanjutan)

Dalam penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia, dibutuhkan estimasi dan asumsi yang mempengaruhi:

- nilai aset dan liabilitas yang dilaporkan, dan pengungkapan atas aset dan liabilitas kontinjensi pada tanggal laporan keuangan.
- jumlah pendapatan dan beban selama periode pelaporan.

Walaupun estimasi ini dibuat berdasarkan pengetahuan terbaik Manajemen atas kejadian dan tindakan saat ini, hasil akhir mungkin berbeda dengan jumlah yang diestimasi semula.

Mata uang penyajian yang digunakan dalam laporan keuangan adalah mata uang Rupiah, yang merupakan mata uang fungsional Bank. Seluruh angka dalam laporan keuangan ini, kecuali dinyatakan secara khusus, dibulatkan menjadi jutaan Rupiah.

b. Transaksi dengan Pihak Berelasi

Dalam menjalankan usahanya, Bank melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK No. 7 (Revisi 2010) tentang "Pengungkapan Pihak-pihak Berelasi".

Seluruh transaksi yang signifikan dengan pihak berelasi telah diungkapkan dalam catatan atas laporan keuangan.

Pihak berelasi adalah orang atau entitas yang terkait dengan entitas yang menyiapkan laporan keuangannya (entitas pelapor). Yang termasuk pihak berelasi adalah sebagai berikut:

1. Orang atau anggota keluarga terdekat mempunyai relasi dengan entitas pelapor jika orang tersebut:
 - a. Memiliki pengendalian atau pengendalian bersama atas entitas pelapor;
 - b. Memiliki pengaruh signifikan atas entitas pelapor; atau
 - c. Merupakan personil manajemen kunci entitas pelapor atau entitas induk pelapor.

2. Summary of Significant Accounting Policies (continued)

a. Basis of Preparation of the Financial Statements (continued)

The preparation of financial statements in conformity with Indonesian Financial Accounting Standards requires the use of estimates and assumptions that affect:

- the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements.
- the reported amounts of revenues and expenses during the reporting period.

Although these estimates are based on Management's best knowledge of current events and activities, actual results may differ from those estimates.

The presentation currency used in the financial statement is Indonesian Rupiah, which is the functional currency of the Bank. Figures in the financial statements are rounded to and stated in millions of Rupiah unless otherwise stated.

b. Transactions with Related Parties

In the normal course of its business, the Bank enters into transactions with related parties which are defined under PSAK No. 7 (Revised 2010), "Related Party Disclosures".

All significant transactions with related parties are disclosed in the notes to the financial statements.

A related party is a person or entity that is related to the entity that is preparing its financial statements (in this Standard referred to as the 'reporting entity'). The related parties are as follows:

1. A person or a close member of that person's family is related to a reporting entity if that person:
 - a. Has control or joint control of the reporting entity ;
 - b. Has significant influence over the reporting entity, or
 - c. Is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

b. Transaksi dengan Pihak Berelasi (lanjutan)

Pihak berelasi adalah orang atau entitas yang terkait dengan entitas yang menyiapkan laporan keuangannya (entitas pelapor). Yang termasuk pihak berelasi adalah sebagai berikut: (lanjutan)

2. Suatu entitas berelasi dengan entitas pelapor jika memenuhi salah satu hal sebagai berikut:
 - a. Entitas dan entitas pelapor adalah anggota dari kelompok usaha yang sama (artinya entitas induk, entitas anak, dan entitas anak berikutnya terkait dengan entitas lain);
 - b. Suatu entitas adalah entitas asosiasi atau ventura bersama dari entitas lain (atau entitas asosiasi atau ventura bersama yang merupakan anggota suatu kelompok usaha, yang mana entitas lain adalah anggotanya);
 - c. Kedua entitas tersebut adalah ventura bersama dari pihak ketiga yang sama;
 - d. Suatu entitas adalah ventura bersama dari entitas ketiga dan entitas yang lain adalah entitas asosiasi dari entitas ketiga;
 - e. Entitas tersebut adalah sebuah program imbalan pascakerja untuk imbalan kerja dari salah satu entitas pelapor atau entitas yang terkait dengan entitas pelapor;
 - f. Entitas yang dikendalikan atau dikendalikan bersama oleh orang yang diidentifikasi sebagaimana dimaksud dalam angka 1; atau
 - g. Orang yang diidentifikasi sebagaimana dimaksud dalam angka 1) huruf a) memiliki pengaruh signifikan atas entitas atau merupakan manajemen kunci entitas (atau entitas induk dari entitas).

c. Aset dan Liabilitas Keuangan

Aset keuangan diklasifikasikan sebagai aset keuangan yang diukur pada nilai wajar melalui laporan laba rugi, pinjaman yang diberikan dan piutang, aset keuangan dimiliki hingga jatuh tempo dan aset keuangan tersedia untuk dijual. Bank menentukan klasifikasi atas aset keuangan pada saat pengakuan awal.

2. Summary of Significant Accounting Policies (continued)

b. Transactions with Related Parties (continued)

A related party is a person or entity that is related to the entity that is preparing its financial statements (in this Standard referred to as the 'reporting entity'). The related parties are as follows: (continued)

2. *An entity is related to a reporting entity if any of the following condition applies:*
 - a. *The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);*
 - b. *One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);*
 - c. *Both entities are joint ventures of the same third party;*
 - d. *One entity is a joint venture of a third party and the other entity is an associate of the third entity;*
 - e. *The entity is a post-employment benefit plan for the benefit employees of either the reporting entity or an entity related to the reporting entity;*
 - f. *The entity is controlled or jointly controlled by a person identified in (1); or*
 - g. *A person identified in (1) (a) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).*

c. Financial Assets and Liabilities

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity financial assets and available-for-sale financial assets. The Bank determines the classification of its financial assets at initial recognition.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Liabilitas keuangan diklasifikasikan sebagai liabilitas keuangan diukur berdasarkan biaya perolehan diamortisasi dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi.

Pengakuan dan Pengukuran

Klasifikasi instrumen keuangan pada pengakuan awal tergantung pada tujuan dan intensi manajemen serta karakteristik dari instrumen keuangan tersebut. Semua instrumen keuangan pada saat pengakuan awal diukur sebesar nilai wajarnya.

Pengukuran aset keuangan dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasi aset keuangan dan liabilitas keuangan tersebut.

Klasifikasi instrumen keuangan pada pengakuan awal tergantung pada tujuan dan intensi manajemen serta karakteristik dari instrumen keuangan tersebut. Semua instrumen keuangan pada saat pengakuan awal diukur sebesar nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diukur pada nilai wajar melalui laporan laba rugi, nilai wajar tersebut ditambah biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan aset keuangan atau liabilitas keuangan tersebut.

Aset keuangan yang diukur pada nilai wajar melalui laba rugi adalah aset yang diperoleh Bank atau dimiliki terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat, atau jika merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek (*short term profit taking*), atau merupakan derivatif (kecuali derivatif yang ditetapkan dan efektif sebagai instrumen lindung nilai).

Pengukuran aset keuangan dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasi aset keuangan dan liabilitas keuangan tersebut.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Financial liabilities classified as financial liabilities are measured at amortized cost and financial liabilities at fair value through profit or loss.

Recognition and Measurement

The classification of financial instruments at initial recognition depends on the purpose and the management's intention for which the financial instruments were acquired and their characteristics. All financial instruments are measured initially at their fair value.

The subsequent measurement of financial assets and liabilities depends on their classification.

The classification of financial instruments at initial recognition depends on the purpose and management's intention for which the financial instruments were acquired and their characteristics. All financial instruments are measured initially at their fair value. In the case that financial assets or liabilities are not designated at fair value through profit or loss, the fair value should be added with attributable transaction costs directly from acquisition or issuance of financial assets or liabilities.

Financial assets measured at fair value through profit or loss are those assets that the Bank acquires or incurs principally for the purpose of selling or repurchasing in the near term, or it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking, or derivatives (unless they are designated as and effective hedging instruments).

The subsequent measurement of financial assets and liabilities depends on their classification.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Aset Keuangan

- a) Aset keuangan yang diukur pada nilai wajar melalui laporan laba rugi

Aset keuangan yang diukur pada nilai wajar melalui laporan laba rugi terdiri dari aset keuangan yang diklasifikasikan sebagai dimiliki untuk diperdagangkan dan aset keuangan yang pada saat pengakuan awal telah ditetapkan manajemen untuk diukur pada nilai wajar melalui laporan laba rugi.

Aset keuangan yang diklasifikasikan dalam kelompok dimiliki untuk diperdagangkan jika dimiliki terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat, atau jika merupakan bagian dari portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti mengenai pola ambil untung dalam jangka pendek (*short term profit taking*), atau merupakan derivatif (kecuali derivatif yang ditetapkan dan efektif sebagai instrumen lindung nilai).

Setelah pengukuran awal, aset keuangan yang dikelompokkan dalam kategori ini diukur sebesar nilai wajarnya, keuntungan atau kerugian yang belum direalisasi akibat perubahan nilai wajar instrumen keuangan tersebut diakui dalam laporan laba rugi komprehensif sebagai "Keuntungan yang telah direalisasi dan belum direalisasi atas efek-efek yang dijual dan perubahan nilai wajar efek-efek yang diperdagangkan - neto".

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Financial Assets

- a) *Financial assets designated at fair value through profit or loss*

Financial assets designated at fair value through profit or loss comprises of financial assets classified as held for trading, and financial assets designated by management as at fair value through profit or loss upon initial recognition.

Financial assets are classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, or it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking, or derivatives (unless they are designated and effective as hedging instruments).

After initial recognition, the financial assets included in this category are measured at fair value, the unrealized gains or losses resulting from changes in fair value are recognized in the statements of comprehensive income as "Realized and unrealized gain on securities sold and from changes in fair value of trading securities - net".

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Aset Keuangan (lanjutan)

b) Aset keuangan tersedia untuk dijual

Aset keuangan tersedia untuk dijual adalah aset keuangan non-derivatif yang tidak diklasifikasikan sebagai dimiliki untuk diperdagangkan atau ditetapkan pada nilai wajar melalui laporan laba rugi. Setelah pengukuran awal, instrumen keuangan tersedia untuk dijual selanjutnya diukur sebesar nilai wajar. Keuntungan dan kerugian yang belum direalisasi diakui sebagai pendapatan komprehensif lainnya (sebagai "Keuntungan (kerugian) yang belum direalisasi atas efek-efek yang tersedia untuk dijual - neto").

c) Aset keuangan yang dimiliki hingga jatuh tempo

Aset keuangan yang dimiliki hingga jatuh tempo adalah aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan dan jatuh temponya telah ditetapkan, dimana Bank mempunyai intensi positif dan kemampuan untuk memiliki aset keuangan tersebut hingga jatuh tempo.

Setelah pengakuan awal, aset keuangan yang dimiliki hingga jatuh tempo diukur pada biaya perolehan diamortisasi dengan menggunakan metode Suku Bunga Efektif (EIR), dikurangi dengan penurunan nilai. Biaya perolehan diamortisasi dengan memperhitungkan diskonto atau premi pada awal akuisisi dan fee/biaya sebagai bagian yang tidak terpisahkan dari EIR. Amortisasi dan kerugian yang timbul dari penurunan nilai diakui dalam laporan laba rugi komprehensif.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Financial Assets (continued)

b) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are neither classified as held-for-trading nor designated as at fair value through profit or loss. After initial measurement, available-for-sale financial instruments are subsequently measured at fair value. Unrealized gains and losses are recognized as other comprehensive income (as "Unrealized gain (loss) on available-for-sale securities - net").

c) Held-to-maturity financial assets

Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturities, which the Bank has positive intention and ability to hold the financial assets to maturity.

After initial measurement, held-to-maturity financial assets are measured at amortized cost using the Effective Interest Rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees/costs that are an integral part of the EIR. The amortization and the losses arising from impairment of such investments are recognized in the statements of comprehensive income.

Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Aset Keuangan (lanjutan)

d) Pinjaman yang diberikan dan piutang

Pinjaman yang diberikan dan piutang adalah aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan yang tidak dikuotasi pada pasar aktif, kecuali:

- Aset dimana Bank mempunyai intensi untuk menjual segera atau dalam waktu dekat dan pinjaman yang diberikan dan piutang yang diukur Bank pada nilai wajar melalui laporan laba rugi pada saat awal pengakuan;
- Aset dimana Bank pada awal pengakuan dimaksudkan sebagai tersedia untuk dijual; atau
- Aset dimana Bank mungkin tidak akan mendapat pemulihan secara substansial atas investasi awalnya, selain karena penurunan kualitas pinjaman aset keuangan.

Setelah pengukuran awal, pinjaman yang diberikan dan piutang selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan EIR dikurangi dengan penurunan nilai. Biaya perolehan diamortisasi dihitung dengan memperhitungkan nilai kredit pada saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif menggunakan metode suku bunga efektif (EIR) yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya, dikurangi penurunan untuk penurunan nilai atau nilai yang tidak dapat ditagih. Amortisasi suku bunga efektif dan kerugian yang timbul atas penurunan nilai diakui dalam laporan laba rugi komprehensif.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Financial Assets (continued)

d) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in active markets, other than:

- Those that the Bank intends to sell immediately or in the near term and loans and receivables that the Bank upon initial recognition designates as at fair value through profit or loss;
- Those that the Bank, upon initial recognition, designated as available-for-sale; or
- Those for which the Bank may not recover substantially all of its initial investment, other than because of credit deterioration.

After initial measurements, loans and receivables are subsequently measured at amortized cost using the EIR, less allowance for impairment. Amortized cost is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest rate (EIR) method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility. The EIR amortization and losses arising from impairment is included in the statements of comprehensive income.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Liabilitas Keuangan

- a) Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi

Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi terdiri dari dua sub-kategori, yaitu liabilitas keuangan diklasifikasikan sebagai diperdagangkan dan liabilitas keuangan yang pada saat pengakuan awal telah ditetapkan oleh Bank untuk diukur pada nilai wajar melalui laporan laba rugi.

Liabilitas keuangan diklasifikasikan sebagai diperdagangkan jika diperoleh terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat atau jika merupakan portofolio instrumen keuangan tertentu yang dikelola bersama dan terdapat bukti pola ambil untung dalam jangka pendek terkini. Derivatif diklasifikasikan sebagai liabilitas diperdagangkan kecuali ditetapkan dan efektif sebagai instrumen lindung nilai.

Keuntungan dan kerugian yang timbul dari perubahan nilai wajar liabilitas yang diklasifikasikan sebagai diperdagangkan dan yang diukur dari nilai wajar melalui laporan laba rugi dicatat melalui laporan laba rugi komprehensif sebagai "Keuntungan/kerugian dari perubahan nilai wajar instrumen keuangan".

- b) Liabilitas keuangan yang diukur berdasarkan biaya perolehan diamortisasi

Liabilitas keuangan yang diukur berdasarkan biaya perolehan diamortisasi merupakan liabilitas keuangan dalam klasifikasi tidak diukur pada nilai wajar melalui laporan laba rugi.

Setelah pengakuan awal, Bank mengukur seluruh liabilitas keuangan berdasarkan biaya perolehan yang diamortisasi dengan menggunakan metode suku bunga efektif.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Financial Liabilities

- a) *Financial liabilities designated at fair value through profit or loss*

Financial liabilities at fair value through profit or loss consist of two sub-categories; financial liabilities classified as held for trading and financial liabilities designated by the Bank as at fair value through profit or loss upon initial recognition.

A financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of portfolio of identified financial instrument that are managed together and for which there is evidence of a recent actual pattern of short term profit taking. Derivatives are also categorized as held for trading unless they are designated and effectively as hedging instruments.

Gains and losses arising from changes in fair value of financial liabilities classified held for trading and designated at fair value through profit or loss are recorded in the statements of comprehensive income as "Gains/losses from changes in fair value of financial instruments".

- b) *Financial liabilities measured at amortized cost*

Financial liabilities measured at amortized cost were financial liabilities that are not classified as fair value through profit or loss.

After initial recognition, the Bank measures all financial liabilities at amortized cost using EIR method.

December 31, 2014
(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Penghentian Pengakuan (lanjutan)

Liabilitas keuangan dihentikan pengakuannya pada saat liabilitas diselesaikan atau dibatalkan atau berakhir.

Saling Hapus

Aset keuangan dan liabilitas keuangan saling hapus dan nilai bersihnya dilaporkan di laporan posisi keuangan jika, dan hanya jika, terdapat hak yang berkekuatan hukum yang masih berlaku untuk saling hapus jumlah keduanya dan terdapat intensi untuk diselesaikan secara bersih, atau untuk merealisasikan aset dan menyelesaikan liabilitas secara bersamaan. Pendapatan dan beban disajikan secara bersih hanya jika diperbolehkan oleh standar akuntansi.

Nilai Wajar

Nilai wajar adalah nilai yang digunakan untuk mempertukarkan suatu aset atau untuk menyelesaikan suatu liabilitas antara pihak-pihak yang memahami dan berkeinginan untuk melakukan transaksi secara wajar (*arm's length transaction*).

Nilai wajar suatu aset atau liabilitas keuangan dapat diukur dengan menggunakan kuotasi di pasar aktif, yaitu jika harga yang dikuotasikan tersedia setiap waktu dan dapat diperoleh secara rutin dan harga tersebut mencerminkan transaksi pasar yang aktual dan rutin dalam suatu transaksi yang wajar.

Dalam hal tidak terdapat pasar aktif untuk suatu aset atau liabilitas keuangan, maka Bank menentukan nilai wajar dengan menggunakan teknik penilaian yang sesuai. Teknik penilaian meliputi penggunaan transaksi pasar terkini yang dilakukan secara wajar oleh pihak yang berkeinginan dan memahami, dan bilamana tersedia, penggunaan analisa arus kas yang didiskonto dan penggunaan nilai wajar terkini dari instrumen lain yang secara substansial sama, dan model penetapan harga opsi.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Derecognition (continued)

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting

Financial assets and liabilities are offset and the net amount are reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. Income and expenses are presented on a net basis only when permitted by accounting standards.

Fair Value

Fair value is the value which is used to exchange an asset or to settle a liability between parties who understand and are willing to perform a fair transaction (*arm's length transaction*).

Fair value of a financial asset or liability can be measured by using the quotation in an active market, that is if the quoted price is available anytime and can be obtained routinely and the price reflects the actual and routine market transaction in a fair transaction.

In case there is no active market for a financial asset or liability, the Bank determines the fair value by using the appropriate valuation techniques. Valuation techniques include the usage of a recent market transaction performed fairly by those who are willing to and understand, and if there is available, the usage of discounted cash flow analysis and the usage of the recent fair value of other instrument which is substantially similar, and option pricing models.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Reklasifikasi Instrumen Keuangan

Bank tidak melakukan reklasifikasi instrumen keuangan dari atau ke klasifikasi yang diukur pada nilai wajar melalui laporan laba rugi selama instrumen keuangan tersebut dimiliki atau diterbitkan.

Bank tidak mereklasifikasi setiap instrumen keuangan dari diukur pada nilai wajar melalui laba rugi jika pada pengakuan awal instrumen keuangan tersebut ditetapkan oleh Bank sebagai diukur pada nilai wajar melalui laba rugi.

Bank mereklasifikasi aset keuangan dari diukur pada nilai wajar jika aset keuangan tersebut tidak lagi dimiliki untuk tujuan penjualan atau pembelian kembali dalam waktu dekat (meskipun aset keuangan mungkin telah diperoleh atau timbul terutama untuk tujuan penjualan atau pembelian kembali dalam waktu dekat).

Persyaratan untuk reklasifikasi adalah:

- a) Dilakukan dalam situasi yang langka,
- b) Memenuhi definisi pinjaman yang diberikan dan piutang (jika aset keuangan tidak diisytiratkan untuk diklasifikasikan sebagai diperdagangkan pada pengakuan awal) dan Bank memiliki intensi dan kemampuan memiliki aset keuangan untuk masa mendatang yang dapat diperkirakan atau hingga jatuh tempo.

Bank tidak mereklasifikasi instrumen keuangan ke dalam kategori nilai wajar melalui laba rugi setelah pengakuan awal.

Bank mereklasifikasi aset keuangan yang diklasifikasikan sebagai tersedia untuk dijual yang memenuhi definisi pinjaman yang diberikan dan piutang (jika aset keuangan tidak ditetapkan sebagai tersedia untuk dijual) dari tersedia untuk dijual jika Bank memiliki intensi dan kemampuan memiliki aset keuangan untuk masa mendatang yang dapat diperkirakan atau hingga jatuh tempo.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Reclassification of Financial Instruments

The Bank shall not reclassify any financial instrument out of or into the fair value through profit or loss classification while it is held or issued.

The Bank does not reclassify any financial instrument out of fair value through profit or loss classification if upon initial recognition the financial instrument is designated by the Bank as at fair value through profit or loss.

The Bank reclassify a financial asset out of fair value through profit or loss classification if the financial asset no longer incurred for the purpose of selling or repurchasing it in the near term (although the financial asset may have been acquired or intended principally for the purpose of selling or repurchasing it in the near term).

Requirement for the reclassification are:

- a) Occurs in a rare circumstances,*
- b) Qualifies as loans and receivables definition (if the financial asset is not designated as at held for trading upon initial recognition) and the Bank has the intention and ability to hold the financial assets for the future that can be forecasted or to maturity.*

The Bank does not reclassify any financial instrument into fair value through profit or loss classification after initial recognition.

The Bank reclassify a financial asset at available-for-sale classification which qualifies as loans and receivable definition (if the financial asset is not designated as at available-for-sale) from available-for-sale if the Bank has the intention and ability to hold the financial asset for the future that can be forecasted or to maturity.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Reklasifikasi Instrumen Keuangan

Bank tidak mereklasifikasi aset keuangan yang dikategorikan dimiliki hingga jatuh tempo. Jika terjadi penjualan atau reklasifikasi aset keuangan dari kelompok dimiliki hingga jatuh tempo dalam jumlah yang lebih dari jumlah yang tidak signifikan sebelum jatuh tempo (selain dari kondisi spesifik tertentu), maka seluruh aset keuangan yang dimiliki hingga jatuh tempo akan direklasifikasi menjadi aset keuangan yang tersedia untuk dijual. Selanjutnya, Bank tidak akan mengklasifikasi aset keuangan sebagai aset keuangan yang dimiliki hingga jatuh tempo selama dua tahun berikutnya.

Kondisi spesifik tertentu yang dimaksud adalah sebagai berikut:

- a) Dilakukan ketika aset keuangan sudah mendekati jatuh tempo atau tanggal pembelian kembali, sehingga perubahan suku bunga tidak akan berpengaruh secara signifikan terhadap nilai wajar aset keuangan tersebut.
- b) Ketika Bank telah memperoleh secara substansial seluruh jumlah pokok aset-aset keuangan tersebut sesuai jadwal pembayaran atau Bank telah memperoleh pelunasan dipercepat; atau
- c) Terkait dengan kejadian tertentu yang berada di luar kendali Bank, tidak terulang, dan tidak dapat diantisipasi secara wajar oleh Bank.

Reklasifikasi aset keuangan dari kelompok diukur pada nilai wajar melalui laba rugi ke dalam kelompok pinjaman yang diberikan dan piutang dicatat pada biaya perolehan atau biaya perolehan diamortisasi. Keuntungan atau kerugian belum direalisasi yang telah diakui sebagai laba rugi tidak dapat dibalik.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Reclassification of Financial Instruments

The Bank does not reclassify any financial asset categorized as held-to-maturity. If there is a sale or reclassification of held-to-maturity financial asset for more than an insignificant amount before maturity (other than in certain specific circumstances), the entire held-to-maturity financial assets will have to be reclassified as available-for-sale financial assets. Subsequently, the Bank shall not classify financial asset as held-to-maturity during the following two years.

The certain specific circumstances are as follows:

- a) Performed if financial assets are so close to maturity or call date, that changes in the market rate of interest would not have a significant effect on their fair value.
- b) When the Bank have collected substantially all of the financial assets original principal through scheduled payment or prepayment; or
- c) Attributable to an isolated event that is beyond the Bank's control, is non-recurring and could not have been reasonably anticipated by the Bank.

Reclassification of fair value through profit or loss financial asset to loans and receivables is recorded at cost or amortized cost. Unrealized gain or loss that has been recognized as profit or loss shall not be reversed.

(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

c. Aset dan Liabilitas Keuangan (lanjutan)

Reklasifikasi Instrumen Keuangan (lanjutan)

Reklasifikasi aset keuangan dari kelompok tersedia untuk dijual ke dalam kelompok pinjaman yang diberikan dan piutang dicatat pada biaya perolehan atau biaya perolehan diamortisasi. Keuntungan atau kerugian belum direalisasi yang sebelumnya diakui dalam ekuitas dicatat dengan cara sebagai berikut:

- a) Jika aset keuangan memiliki jatuh tempo tetap, keuntungan atau kerugian diamortisasi ke laba rugi selama sisa umur investasi dengan EIR.
- b) Jika aset keuangan tidak memiliki jatuh tempo yang tetap, keuntungan atau kerugian tetap dalam ekuitas sampai aset keuangan tersebut dijual atau dilepaskan dan pada saat itu keuntungan atau kerugian diakui dalam laba rugi komprehensif.

Reklasifikasi aset keuangan dari kelompok yang dimiliki hingga jatuh tempo ke kelompok tersedia untuk dijual dicatat sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi diakui dalam ekuitas sampai aset keuangan tersebut dihentikan pengakuannya dan pada saat itu keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas diakui pada laporan laba rugi komprehensif.

d. Giro pada Bank Indonesia dan Bank Lain

Giro pada bank lain dan Bank Indonesia setelah perolehan awal diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Cadangan kerugian penurunan nilai diukur bila terdapat indikasi penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2k.

2. Summary of Significant Accounting Policies (continued)

c. Financial Assets and Liabilities (continued)

Reclassification of Financial Instruments (continued)

Reclassification of available-for-sale financial asset to loans and receivables is recorded at cost or amortized cost. Any previous gain or loss which has been recognized directly in equity shall be accounted for as follows:

- a) In the case of a financial asset with a fixed maturity, the gain or loss shall be amortized to profit or loss over the remaining life of the investment using the EIR.
- b) In the case of a financial asset that does not have a fixed maturity, the gain or loss shall remain in equity until the financial asset is sold or otherwise disposed of, when it shall be recognized in statements of comprehensive income.

Reclassification of held-to-maturity financial asset to available-for-sale is recorded at fair value. The unrealized gain or loss is recognized in equity until the time financial assets is derecognized and at the time the cumulative gain or loss previously recognized in equity shall be recognized in the statement of comprehensive income.

d. Current Accounts with Bank Indonesia and Other Banks

Subsequent to initial recognition, current accounts with other banks and Bank Indonesia are measured at their amortized cost using the EIR method. Allowance for impairment losses is assessed if there is an indication of impairment using the impairment methodology as disclosed in Note 2k.

PT BANK UOB INDONESIA

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

e. Penempatan pada Bank Indonesia dan Bank Lain

Penempatan pada Bank Indonesia dan bank lain merupakan penempatan dana dalam bentuk *call money*, Fasilitas Simpanan Bank Indonesia, deposito berjangka dan lain-lain.

Penempatan pada Bank Indonesia dinyatakan sebesar saldo penempatan.

Penempatan pada bank lain dinilai berdasarkan nilai wajar ditambah biaya transaksi tambahan langsung, jika ada, dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan EIR. Cadangan kerugian penurunan nilai diukur bila terdapat bukti yang obyektif mengenai penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2k.

f. Efek-efek yang diperdagangkan

Efek-efek yang diperdagangkan terdiri dari Surat Utang Negara, Surat Perbendaharaan Negara, dan Sertifikat Bank Indonesia yang dikategorikan sebagai dimiliki untuk diperdagangkan dan dicatat di laporan posisi keuangan sebesar nilai wajar.

Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajar disajikan dalam laporan laba rugi komprehensif tahun berjalan. Pendapatan bunga dari efek hutang dicatat dalam laporan laba rugi komprehensif sesuai dengan persyaratan dalam kontrak. Pada saat penjualan portofolio efek yang diperdagangkan, selisih antara harga jual dengan harga perolehan diakui sebagai keuntungan atau kerugian penjualan pada tahun dimana efek tersebut dijual.

2. Summary of Significant Accounting Policies (continued)

e. Placements with Bank Indonesia and Other Banks

Placements with Bank Indonesia and other banks consist of call money, Bank Indonesia Deposit Facilities, time deposits and others.

Placements with Bank Indonesia are stated at the outstanding balances.

Placements with other banks are initially measured at fair value plus incremental direct transaction cost, if any, and subsequently measured at their amortized cost using EIR. Allowances for impairment losses is assessed if there is an objective evidence of impairment using the impairment methodology as disclosed in Note 2k.

f. Trading securities

Trading securities comprises of Government Bonds, State Treasury Notes, and Certificates of Bank Indonesia that are classified as held for trading, and recorded in the statements of financial position at fair value.

Unrealized gains or losses resulting from the increase or decrease in fair value are recognized in the current year statements of comprehensive income. The interest income from debt securities is recorded in the statements of comprehensive income according to the terms of the contract. At the time of sale of trading securities portfolio, the difference between the selling price and the purchase price is recognized as a gain or loss in the year when the securities are sold.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

g. Investasi Keuangan

Investasi keuangan diklasifikasikan sebagai berikut:

Efek-efek yang Tersedia untuk Dijual

Efek-efek yang tersedia untuk dijual diakui dan diukur sebesar nilai wajar dengan memperhitungkan pendapatan dan/atau beban yang dapat diatribusikan langsung pada pembelian efek-efek. Setelah pengakuan awal, keuntungan dan kerugian yang belum direalisasikan dari kenaikan atau penurunan nilai wajar, setelah pajak, diakui dan disajikan sebagai komponen ekuitas.

Ketika investasi tersebut dihapus, keuntungan atau kerugian kumulatif setelah pajak, yang sebelumnya diakui di pendapatan komprehensif lainnya, diakui dalam laporan laba rugi komprehensif. Kerugian yang timbul dari penurunan nilai pada investasi tersebut diakui dalam laporan laba rugi komprehensif dan dikeluarkan dari pendapatan komprehensif lainnya.

Premi dan/atau diskonto diamortisasi sebagai pendapatan bunga dengan menggunakan EIR.

Efek-efek yang Dimiliki Hingga Jatuh Tempo dan Pinjaman yang Diberikan dan Piutang

Efek-efek yang dimiliki hingga jatuh tempo dan pinjaman yang diberikan dan piutang diakui dan diukur sebesar nilai wajar dengan memperhitungkan pendapatan dan/atau beban yang dapat diatribusikan langsung pada pembelian efek-efek. Setelah pengakuan awal, efek-efek diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif.

h. Instrumen Keuangan Derivatif

Seluruh instrumen derivatif dicatat dalam laporan posisi keuangan berdasarkan nilai wajarnya. Nilai wajar tersebut ditentukan berdasarkan harga pasar, kurs Reuters pada tanggal pelaporan laporan posisi keuangan, diskonto arus kas, model penentu harga atau harga yang diberikan oleh broker (*quoted price*) atas instrumen lain yang memiliki karakteristik atau model penentuan harga serupa.

2. Summary of Significant Accounting Policies (continued)

g. Financial Investments

Financial investments are classified as follows:

Available-for-Sale Securities

Available-for-sale securities are recognized and measured at fair value by calculating income and/or expenses directly attributable to the purchase of securities. After initial recognition, gains and losses from changes in fair value of securities, net of tax, are recognized directly to equity.

When the investment is disposed the cumulative gain or loss, net of tax, previously recognized in other comprehensive income is recognized in the statements of comprehensive income. The losses arising from impairment of such investments are recognized in the statements of comprehensive income and removed from other comprehensive income.

Premium and/or discount is amortized and reported as interest income using the EIR.

Held-to-Maturity Securities and Loans and Receivables

Held-to-maturity securities and loans and receivables are recognized and measured at fair value by calculating income and/or expenses directly attributable to the purchase of securities. After initial recognition, securities are measured at amortized acquisition cost using EIR.

h. Derivatives Financial Instruments

All derivatives instruments are recognized in statements of financial position at fair value. The fair value is based on the market rate, Reuters exchange rate at statements of financial position date, discounted cash flows, price valuation or broker quoted price on other instruments with similar characteristics or price model.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

h. Instrumen Keuangan Derivatif (lanjutan)

Keuntungan atau kerugian dari kontrak derivatif yang tidak ditujukan untuk lindung nilai (atau tidak memenuhi kriteria untuk dapat diklasifikasikan sebagai lindung nilai) diakui pada laporan laba rugi komprehensif tahun berjalan.

Instrumen derivatif melekat dipisahkan dari kontrak utama non-derivatif dan diperlakukan sebagai instrumen derivatif jika seluruh kriteria berikut terpenuhi:

1. Risiko dan karakteristik ekonomi dari derivatif melekat tidak secara erat berhubungan dengan karakteristik dan risiko kontrak utama.
2. Instrumen terpisah dengan kondisi yang sama dengan instrumen derivatif melekat memenuhi definisi dari derivatif, dan
3. Instrumen hibrid (kombinasi) tidak diukur pada harga wajar dengan perubahan nilai wajar diakui dalam laporan laba rugi komprehensif (yaitu derivatif melekat dalam aset keuangan atau liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi tidak dipisahkan).

i. Kredit yang Diberikan

Kredit yang diberikan diukur pada biaya perolehan diamortisasi menggunakan EIR dikurangi cadangan kerugian penurunan nilai. Biaya perolehan diamortisasi dihitung dengan memperhitungkan nilai kredit pada saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif menggunakan metode suku bunga efektif (EIR) yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya, dikurangi penurunan untuk penurunan nilai atau nilai yang tidak dapat ditagih. Amortisasi tersebut diakui pada laporan laba rugi komprehensif. Cadangan kerugian atas penurunan nilai dilakukan bila terdapat indikasi penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2k.

2. Summary of Significant Accounting Policies (continued)

h. Derivatives Financial Instruments (continued)

Gain or loss on a derivative contract not designated as a hedging instrument (or derivative contract that does not qualify as a hedging instrument) is recognized in the current year statements of comprehensive income.

Embedded derivatives instruments are separated from their host non-derivative contract and accounted for as a derivative instrument if all of the following criteria are met:

1. *The economic characteristics and risks of the embedded derivative are not closely related to those of the host contract.*
2. *A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and*
3. *The hybrid (combined) instrument is not measured at fair value with changes in fair value recognized in statements of comprehensive income (i.e a derivative that is embedded in a financial asset or financial liability at fair value through profit or loss is not separated).*

i. Loans

Loans are measured at amortized cost using the EIR less allowance for impairment losses. The amortized cost of loan is the amount at which the loan is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest rate (EIR) method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility. The amortization is recognized in the statements of comprehensive income. The allowance for impairment losses are assessed if there is an objective evidence of impairment using the impairment methodology as disclosed in Note 2k.

(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

i. Kredit yang Diberikan (lanjutan)

Kredit sindikasi dinyatakan sebesar pokok kredit sesuai dengan porsi risiko yang ditanggung oleh Bank.

Restrukturisasi Kredit

Kerugian yang timbul dari restrukturisasi kredit yang berkaitan dengan modifikasi persyaratan kredit hanya diakui bila nilai tunai penerimaan kas masa depan yang telah ditentukan dalam persyaratan kredit yang baru, termasuk penerimaan yang diperuntukkan sebagai bunga maupun pokok, adalah lebih kecil dari nilai kredit yang diberikan yang tercatat sebelum restrukturisasi.

Untuk restrukturisasi kredit bermasalah dengan cara konversi kredit yang diberikan menjadi saham atau instrumen keuangan lainnya, kerugian dari restrukturisasi kredit diakui hanya apabila nilai wajar penyertaan saham atau instrumen keuangan yang diterima dikurangi estimasi biaya untuk menjualnya adalah kurang dari nilai tercatat kredit yang diberikan.

Saat ini hanya terdapat restrukturisasi kredit dengan menggunakan metode perpanjangan jangka waktu kredit.

j. Tagihan dan Liabilitas Akseptasi

Tagihan akseptasi diukur pada biaya perolehan diamortisasi menggunakan metode EIR, dikurangi dengan cadangan kerugian penurunan nilai. Liabilitas akseptasi diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif.

Cadangan kerugian penurunan nilai dilakukan bila terdapat bukti yang obyektif mengenai penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2k.

2. Summary of Significant Accounting Policies (continued)

i. Loans (continued)

Syndicated loans are stated at the loan principal amount based on the risk participation by the Bank.

Loan Restructuring

Losses on loan restructuring in respect of modification of the terms of the loans are recognized only if the cash value of total future cash receipt specified in the new terms of the loans, including both receipt designated as interest and those designated as loan principal, are less than the recorded amounts of loans before restructuring.

For loan restructuring which involve a conversion of loans into equity or other financial instruments, a loss on loan restructuring is recognized only if the fair value of the equity or other financial instruments received, reduced by estimated costs to sell the equity or other financial instruments, is less than the carrying value of loan.

Currently, there was only loan restructuring using extension terms of loans method.

j. Acceptances Receivable and Liabilities

Acceptances receivable are measured at amortized cost using the EIR, less allowance for impairment losses. Acceptance liabilities are measured at amortized cost by using the EIR.

The allowance for impairment losses are assessed if there is an objective evidence of impairment by using the impairment methodology as disclosed in Note 2k.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

k. Penurunan Nilai Aset Keuangan

Pada setiap tanggal laporan posisi keuangan, Bank mengevaluasi apakah terdapat bukti yang objektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Aset keuangan atau kelompok aset keuangan diturunkan nilainya dan kerugian penurunan nilai terjadi jika, dan hanya jika, terdapat bukti yang objektif mengenai penurunan nilai tersebut sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset tersebut (peristiwa yang menyebabkan penurunan nilai), yang berdampak pada estimasi arus kas masa depan atas aset keuangan atau kelompok aset keuangan yang diestimasi secara andal.

Bukti penurunan nilai meliputi indikasi kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam, wanprestasi atau tunggakan pembayaran pokok atau bunga, kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya dan data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang, misalnya perubahan tunggakan atau kondisi ekonomi yang berkorelasi dengan wanprestasi atas aset dalam kelompok tersebut.

Jika terdapat bukti objektif bahwa penurunan nilai telah terjadi, jumlah kerugian diukur sebesar selisih antara nilai tercatat aset dan nilai sekarang dari estimasi arus kas masa depan (tidak termasuk kerugian kredit di masa datang yang diharapkan tapi belum terjadi).

Estimasi periode antara terjadinya peristiwa dan identifikasi kerugian ditentukan oleh Manajemen untuk setiap portofolio yang diidentifikasi. Pada umumnya, periode tersebut bervariasi antara 3 (tiga) sampai 12 (dua belas) bulan, untuk kasus tertentu diperlukan periode yang lebih lama.

Untuk aset keuangan yang dicatat pada biaya perolehan diamortisasi, Bank pada awalnya menentukan apakah terdapat bukti objektif penurunan nilai secara individual atas aset keuangan yang signifikan secara individual, atau secara kolektif untuk aset keuangan yang tidak signifikan secara individual.

2. Summary of Significant Accounting Policies (continued)

k. Impairment of Financial Assets

The Bank assesses at each statements of financial position date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired and impairment losses incurred if, and only if, there is an objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

If there is an objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred).

The estimated period between the occurrence of the event and identification of loss is determined by Management for each identified portfolio. In general, the periods used vary between 3 (three) months to 12 (twelve) months; in exceptional cases, longer periods are warranted.

For financial assets carried at amortized cost, the Bank first assesses individually whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant.

PT BANK UOB INDONESIA

Kecuali Dinyatakan Lain)

PT BANK UOB INDONESIA
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended
December 31, 2014
(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

k. Penurunan Nilai Aset Keuangan (lanjutan)

Penilaian secara individual dilakukan atas aset keuangan yang signifikan yang memiliki bukti objektif penurunan nilai. Aset keuangan yang tidak signifikan dimasukkan dalam kelompok aset keuangan yang memiliki karakteristik risiko kredit yang sejenis dan dilakukan penilaian secara kolektif.

Jika Bank menyimpulkan tidak terdapat bukti objektif penurunan nilai aset keuangan yang dinilai secara individual, maka Bank memasukkan aset tersebut ke dalam kelompok aset keuangan yang memiliki karakteristik risiko kredit yang sejenis dan menilai penurunan nilai kelompok tersebut secara kolektif.

Bank menetapkan kredit yang dievaluasi penurunan nilainya secara individual, jika memenuhi salah satu kriteria di bawah ini:

1. Kredit yang secara individual memiliki nilai signifikan tertentu dan memiliki bukti obyektif penurunan nilai;
2. Kredit yang direstrukturisasi yang secara individual memiliki nilai signifikan

Cadangan kerugian penurunan nilai secara individual dihitung dengan menggunakan metode diskonto arus kas (*discounted cash flows*).

Bank menetapkan bahwa kredit dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

1. Kredit yang secara individual bernilai signifikan dan tidak memiliki bukti obyektif penurunan nilai.
2. Kredit yang secara individual bernilai tidak signifikan.
3. Kredit yang telah direstrukturisasi yang secara individual bernilai tidak signifikan.

Bank menerapkan cadangan penurunan nilai secara kolektif yang dihitung dengan menggunakan metode statistik atas data historis berupa *probability of default* di masa lalu, waktu pemulihan dan jumlah kerugian yang terjadi (*Loss Given Default*) yang selanjutnya disesuaikan lagi dengan pertimbangan manajemen terkait kondisi ekonomi dan kredit saat ini.

2. Summary of Significant Accounting Policies (continued)

k. Impairment of Financial Assets (continued)

Individual assessment is performed on the significant financial assets that had objective evidence of impairment. The insignificant financial assets includes in the group of financial assets with similar credit risk characteristics and assessed collectively.

However, if the Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, the Bank includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

The Bank determines loans to be evaluated for impairment through individual evaluation if one of the following criteria is met:

1. *Loans which individually have certain significant value and objective evidence of impairment;*
2. *Restructured loans which individually have significant value.*

Allowance for impairment losses on impaired financial assets that was assessed individually by using discounted cash flows method.

The Bank determines that loans to be evaluated for impairment through collective evaluation if one of the following criteria is met:

1. *Loans which individually have significant value and there is no objective evidence of impairment.*
2. *Loans which individually have insignificant value.*
3. *Restructured loans which individually have insignificant value.*

The Bank provides allowance for impairment on impaired financial assets that was assessed collectively, using statistical method of the historical data such as the probability of defaults, time of recoveries, the amount of loss incurred (Loss Given Default), and by considering management's judgment of current economic and credit conditions.

(Disajikan dalam Jutaan Rupiah,
Kecuali Dinyatakan Lain)

PT BANK UOB INDONESIA
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended
December 31, 2014
(Expressed in Millions of Rupiah,
Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

k. Penurunan Nilai Aset Keuangan (lanjutan)

Bank menggunakan *statistical model analysis method*, yaitu *roll rates analysis method* untuk penilaian penurunan nilai aset keuangan secara kolektif.

Bank menggunakan nilai wajar agunan (*fair value of collateral*) sebagai dasar dari arus kas masa datang apabila salah satu kondisi berikut terpenuhi:

1. Kredit bersifat tergantung pada agunan (*collateral dependent*), yaitu jika pelunasan kredit hanya bersumber dari agunan;
2. Pengambilalihan agunan kemungkinan besar terjadi dan didukung dengan perjanjian pengikatan agunan.

Kerugian penurunan nilai aset keuangan yang dicatat pada biaya perolehan setelah amortisasi diukur sebesar selisih antara nilai tercatat aset keuangan dengan nilai kini estimasi arus kas masa datang yang didiskonto menggunakan suku bunga efektif awal dari aset keuangan tersebut. Jika pinjaman yang diberikan atau surat-surat berharga dan Obligasi Pemerintah dimiliki hingga jatuh tempo memiliki suku bunga variabel, maka tingkat diskonto yang digunakan untuk mengukur setiap kerugian penurunan nilai adalah suku bunga efektif yang berlaku saat ini yang ditetapkan dalam kontrak.

Sebagai panduan praktis, Bank dapat mengukur penurunan nilai berdasarkan nilai wajar instrumen dengan menggunakan harga pasar yang dapat diobservasi, perhitungan nilai kini dari estimasi arus kas masa datang dari aset keuangan agunan (*collateralized financial asset*) yang mencerminkan arus kas yang dapat dihasilkan dari pengambilalihan agunan dikurangi biaya-biaya untuk memperoleh dan menjual agunan, terlepas apakah pengambilalihan tersebut berpeluang terjadi atau tidak. Kerugian yang terjadi diakui pada laporan laba rugi komprehensif dan dicatat pada akun cadangan kerugian penurunan nilai sebagai pengurang terhadap aset keuangan yang dicatat pada biaya perolehan diamortisasi.

2. Summary of Significant Accounting Policies (continued)

k. Impairment of Financial Assets (continued)

The Bank uses *statistical model analysis method*, i.e., *roll rate analysis method* to assess financial asset impairment collectively.

The Bank uses the fair value of collateral as the basis for future cash flows if one of the following conditions is met:

1. Loans are collateral dependent, i.e. if the source of loans repayment is made only from the collateral;
2. Foreclosure of collateral is most likely to occur and supported by binding collateral agreement.

Impairment losses on financial assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and present value of estimated future cash flows discounted at the financial assets original effective interest rate. If a loan or held-to-maturity securities and Government Bonds have a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

As a practical guideline, the Bank may measure impairment on the basis of an instrument's fair value using an observable market price, the calculation of the present value of the estimated future cash flows of a collateralized financial assets which reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable. Losses are recognized in the statements of comprehensive income and reflected in an allowance for impairment losses account against financial assets carried at amortized cost.

PT BANK UOB INDONESIA

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

k. Penurunan Nilai Aset Keuangan (lanjutan)

Pendapatan bunga dari aset keuangan yang mengalami penurunan nilai tetap diakui atas dasar suku bunga yang digunakan untuk mendiskonto arus kas masa datang dalam pengukuran kerugian penurunan nilai. Jika terjadi peristiwa setelah tanggal laporan posisi keuangan menyebabkan jumlah kerugian penurunan nilai berkurang, kerugian penurunan nilai yang sebelumnya diakui dipulihkan dan pemulihan tersebut diakui pada laporan laba rugi komprehensif.

Untuk aset keuangan yang tersedia untuk dijual, pada setiap tanggal laporan posisi keuangan, Bank mengevaluasi apakah terdapat bukti obyektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Penurunan yang signifikan atau penurunan jangka panjang atas nilai wajar investasi dalam instrumen ekuitas yang diklasifikasikan sebagai tersedia untuk dijual di bawah biaya perolehannya merupakan bukti obyektif terjadinya penurunan nilai dan menyebabkan pengakuan kerugian penurunan nilai. Kerugian penurunan nilai atas surat-surat berharga yang tersedia untuk dijual diakui dengan memindahbukukan kerugian kumulatif yang telah diakui secara langsung dalam ekuitas ke laporan laba rugi komprehensif. Jumlah kerugian kumulatif yang dipindahbukukan dari ekuitas dan diakui pada laporan laba rugi komprehensif merupakan selisih antara biaya perolehan (setelah dikurangi dengan nilai pelunasan pokok dan amortisasi) dengan nilai wajar kini, dikurangi kerugian penurunan nilai aset keuangan yang sebelumnya telah diakui pada laporan laba rugi komprehensif.

Kerugian penurunan nilai yang diakui pada laporan laba rugi komprehensif atas investasi instrumen ekuitas yang diklasifikasikan sebagai instrumen ekuitas yang tersedia untuk dijual tidak dipulihkan.

Jika pada periode berikutnya, nilai wajar instrumen utang yang diklasifikasikan dalam kelompok tersedia untuk dijual meningkat dan peningkatan tersebut dapat secara obyektif dihubungkan dengan peristiwa yang terjadi setelah pengakuan kerugian nilai pada laporan laba rugi komprehensif maka kerugian penurunan nilai tersebut dipulihkan melalui laporan laba rugi komprehensif.

2. Summary of Significant Accounting Policies (continued)

k. Impairment of Financial Assets (continued)

Interest income on the impaired financial assets continues to be recognized using the original rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. When a subsequent event causes the amount of impairment loss to decrease, the impairment loss previously recognized is reversed through the statements of comprehensive income.

For financial assets classified as available-for-sale, the Bank assesses at each statements of financial position date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity instruments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is an objective evidence of impairment resulting in the recognition of an impairment loss. Impairment losses on available-for-sale marketable securities are recognized by transferring the cumulative loss that has been recognized directly in equity to the statements of comprehensive income. The cumulative loss that has been removed from equity and recognized in the statements of comprehensive income is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss previously recognized in the statements of comprehensive income.

Impairment losses recognized in the statements of comprehensive income on investments in equity instruments classified as available-for-sale shall not be reversed.

If in a subsequent period, the fair value of debt instrument classified as available-for-sale securities increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the statements of comprehensive income, the impairment loss is reversed, with the amount of reversal recognized in the statements of comprehensive income.

Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

k. Penurunan Nilai Aset Keuangan (lanjutan)

Jika persyaratan pinjaman yang diberikan, piutang atau surat-surat berharga yang dimiliki hingga jatuh tempo dinegosiasi ulang atau dimodifikasi karena debitur atau penerbit mengalami kesulitan keuangan, maka penurunan nilai diukur dengan suku bunga efektif awal yang digunakan sebelum persyaratan diubah.

Jika, pada suatu periode berikutnya, jumlah cadangan kerugian penurunan nilai berkurang dan pengurangan tersebut dapat dikaitkan secara obyektif pada peristiwa yang terjadi setelah penurunan nilai diakui (seperti meningkatnya peringkat kredit debitur atau penerbit), maka kerugian penurunan nilai yang sebelumnya diakui akan dipulihkan, dengan menyesuaikan akun cadangan. Jumlah pemulihan aset keuangan diakui pada laporan laba rugi komprehensif.

Pemulihan kembali pada tahun berjalan aset keuangan yang telah dihapusbukukan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Pemulihan kembali pinjaman yang telah dihapusbukukan pada tahun-tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

l. Penurunan Nilai Aset Non-Keuangan

Berdasarkan Surat Bank Indonesia No. 13/658/DPNP/IDPnP tanggal 23 Desember 2011, Bank tidak diwajibkan lagi untuk membentuk penyisihan penghapusan aset non-produktif dan estimasi kerugian komitmen dan kontinjensi. Namun, Bank tetap harus menghitung cadangan kerugian penurunan nilai mengacu pada standar akuntansi yang berlaku.

2. Summary of Significant Accounting Policies (continued)

k. Impairment of Financial Assets (continued)

If the terms of the loans and receivables or held-to-maturity marketable securities are renegotiated or otherwise modified because of financial difficulties of the borrower or issuer, impairment is measured using the original effective interest rate before the terms is modified.

If, in the next period, the amount of allowance for impairment losses is decreased and the decrease can be related objectively to an event that occurred after the recognition of the impairment losses (i.e. upgrade debtor's or issuer's collectability), the impairment loss that was previously recognized shall be reversed, by adjusting the allowance account. The reversal amount of financial assets is recognized in the statements of comprehensive income.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off loans from previous years are recorded as operational income other than interest income.

l. Impairment of Non-Financial Assets

Based on the letter of Bank Indonesia No. 13/658/DPNP/IDPnP dated December 23, 2011, Bank is no longer required to provide an allowance losses on non-earning assets and estimated losses on commitments and contingencies. However, the Bank should calculate the allowance for impairment losses in accordance with the applicable accounting standards.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

2. Summary of Significant Accounting Policies (continued)

m. Aset Tetap

m. Fixed Assets

Aset tetap dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan dan rugi penurunan nilai. Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan. Selanjutnya, pada saat pemeriksaan yang signifikan dilakukan, biaya pemeriksaan itu diakui ke dalam jumlah tercatat (carrying amount) aset tetap sebagai suatu penggantian jika memenuhi kriteria pengakuan. Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria pengakuan diakui dalam laporan laba rugi komprehensif pada saat terjadinya.

Fixed assets is stated at cost less accumulated depreciation and impairment losses. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs that do not meet the recognition criteria are recognized in the statements of comprehensive income as incurred.

Penyusutan dihitung dengan menggunakan metode garis lurus selama umur manfaat aset tetap yang diestimasi sebagai berikut:

Depreciation is calculated on a straight-line method over the estimated useful lives of the assets as follows:

	Tahun/ Years
Bangunan dan prasarana bangunan	10-20
Perabot kantor, peralatan kantor dan kendaraan	5-10
	Persentase/ Percentage
Bangunan dan prasarana bangunan	5-10
Perabot kantor, peralatan kantor dan kendaraan	10-20

*Buildings and building improvements
Furniture and fixtures, office equipment
and vehicles*

*Buildings and building improvements
Furniture and fixtures, office equipment
and vehicles*

Biaya pengurusan hak legal atas tanah dalam bentuk Hak Guna Usaha ("HGU"), Hak Guna Bangunan ("HGB") dan Hak Pakai ("HP") ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi. Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah diakui sebagai aset tak berwujud dan diamortisasi sepanjang umur hukum hak atau umur ekonomi tanah, mana yang lebih pendek.

Legal cost of land rights in the form of Business Usage Rights ("Hak Guna Usaha" or "HGU"), Building Usage Rights ("Hak Guna Bangunan" or "HGB") and Usage Rights ("Hak Pakai" or "HP") when the land was acquired initially are recognized as part of the cost of the land under the "Fixed Assets" account and not amortized. The cost of the extension or renewal of legal right over land is recognized as an intangible asset and amortized over the legal life or economic life of the land, whichever is shorter.

Sementara biaya pengurusan atas perpanjangan atau pembaruan hak legal atas tanah dalam bentuk HGU, HGB dan HP diakui sebagai bagian dari akun "Beban ditangguhkan, Neto" pada laporan posisi keuangan dan diamortisasi sepanjang, mana yang lebih pendek antara umur hukum hak dan umur ekonomis tanah.

Meanwhile the extension or the legal renewal costs of land rights in the form of HGU, HGB and HP are recognized as part of "Deferred Charges-Net" account in the statements of financial position and are amortized over the shorter of the rights' legal life and land's economic life.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

m. Aset Tetap (lanjutan)

Nilai residu, umur manfaat dan metode penyusutan ditelaah, dan jika sesuai dengan keadaan, disesuaikan secara prospektif pada setiap akhir periode.

Bank melakukan penelaahan untuk menentukan adanya indikasi terjadinya penurunan nilai aset pada akhir tahun. Bank menentukan taksiran jumlah yang dapat direalisasi kembali atas semua asetnya.

n. Agunan yang Diambil alih

Agunan yang diambil alih sehubungan dengan penyelesaian pinjaman yang diberikan disajikan sebagai bagian dari akun "Aset Lain-lain". Pada saat pengakuan awal, agunan yang diambil alih dibukukan pada nilai wajar setelah dikurangi perkiraan biaya untuk menjualnya maksimum sebesar liabilitas debitor di laporan posisi keuangan. Setelah pengakuan awal, agunan yang diambil alih dibukukan sebesar nilai yang lebih rendah antara nilai tercatat dengan nilai wajarnya setelah dikurangi dengan biaya untuk menjualnya. Selisih lebih saldo kredit di atas nilai realisasi bersih dari agunan yang diambil alih dibebankan ke dalam akun cadangan kerugian.

Beban-beban yang berkaitan dengan pemeliharaan agunan yang diambil alih dibebankan pada laporan laba rugi komprehensif pada saat terjadinya.

Laba atau rugi yang diperoleh atau berasal dari penjualan agunan yang diambil alih disajikan sebagai bagian dari "Pendapatan (Beban) Non-Operasional - Neto" dalam laporan laba rugi komprehensif tahun berjalan.

o. Biaya Dibayar di Muka

Biaya dibayar di muka dibebankan pada usaha sesuai dengan masa manfaatnya dan disajikan sebagai bagian dari akun "Aset Lain-lain".

p. Simpanan

Simpanan adalah dana yang dipercayakan oleh nasabah (di luar bank lain) kepada Bank berdasarkan perjanjian penyimpanan dana. Simpanan terdiri dari giro, tabungan dan deposito berjangka.

2. Summary of Significant Accounting Policies (continued)

m. Fixed Assets (continued)

The residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively if appropriate, at each period end.

The Bank evaluates any indication of asset impairment at the end of the year. The Bank determines the estimated realizable amount of its assets if there is an event or condition which indicates the asset impairment.

n. Foreclosed Assets

Collaterals acquired through loan foreclosures related to the loans settlement are presented as part of "Other Assets" account. At initial recognition, foreclosed assets are stated at fair value, net of estimated costs to sell at the maximum at the borrower's liabilities as stated the in statements of financial position. After initial recognition, foreclosed assets are recorded at the amount whichever is lower of the carrying amount and fair value, net of estimated costs to sell. The excess of the uncollectible loan balance over the value of the collateral is charged to allowance for impairment losses.

Maintenance expenses of foreclosed assets are charged to the statements of comprehensive income as incurred.

Gains or losses earned or incurred from the sale of foreclosed assets are presented as part of "Non-Operating Income (Expense) - Others - Net" in the statements of comprehensive income for the current year.

o. Prepaid Expenses

Prepaid expenses are charged to operations over the period benefited and presented as part of "Other Assets" account.

p. Deposits

Deposit are deposits of customers (excluding other banks) with the Bank based on deposit agreements. Deposits consist of demand deposits, saving deposits and time deposit.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

p. Simpanan (lanjutan)

Giro, tabungan dan deposito berjangka diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal simpanan dan biaya transaksi yang merupakan bagian yang tak terpisahkan dari EIR.

q. Simpanan dari Bank Lain

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain, baik dalam maupun luar negeri, dalam bentuk giro, tabungan, *interbank call money* dengan periode jatuh tempo menurut perjanjian kurang dari atau sama dengan 90 hari dan deposito berjangka.

Simpanan dari bank lain diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan EIR. Biaya perolehan diamortisasi dihitung dengan memperhitungkan diskonto atau premi yang terkait dengan pengakuan awal simpanan dari bank lain dan biaya transaksi yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif.

r. Pinjaman yang Diterima

Pinjaman yang diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

s. Efek Hutang yang Diterbitkan

Efek hutang yang diterbitkan diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar nilai biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif (EIR). Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal efek hutang yang diterbitkan dan biaya transaksi yang merupakan bagian yang tidak terpisahkan dari suku bunga efektif (EIR).

2. Summary of Significant Accounting Policies (continued)

p. Deposits (continued)

Demand deposits, saving deposits and time deposits are initially recognized at fair value and subsequently measured at amortized cost. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition of deposits and transaction costs that are an integral part of the EIR.

q. Deposits from Other Banks

Deposits from other banks represent liabilities to other domestic and overseas banks, in the form of demand deposits, saving deposits, interbank call money with maturity period based on agreement less than or equal to 90 days and time deposits.

Deposits from other banks are initially recognized at fair value and subsequently measured at amortized cost using the EIR. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition of deposits from other bank and transaction costs that are an integral part of the EIR.

r. Borrowings

Borrowings are funds received from other banks, Bank Indonesia or other parties with payment obligation based on borrowings agreements.

s. Debt Securities Issued

Debt securities issued are initially recognized at fair value and subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition of debt securities issued and transaction costs that are an integral part of the effective interest rate (EIR).

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

t. Pendapatan dan Beban Bunga

Instrumen keuangan yang diukur pada biaya perolehan diamortisasi, aset dan liabilitas keuangan yang diklasifikasikan sebagai tersedia untuk dijual, pendapatan maupun beban bunganya diakui dengan menggunakan EIR, yaitu suku bunga yang akan mendiskonto secara tepat estimasi pembayaran atau penerimaan kas di masa datang sepanjang perkiraan umur instrumen keuangan tersebut atau, jika lebih tepat untuk masa yang lebih singkat, sebagai nilai tercatat bersih dari aset atau liabilitas keuangan tersebut. Perhitungan dilakukan dengan mempertimbangkan seluruh syarat dan ketentuan kontraktual instrumen keuangan termasuk *fee*/biaya tambahan yang terkait secara langsung dengan instrumen tersebut yang merupakan bagian tidak terpisahkan dari EIR.

Nilai tercatat aset atau liabilitas keuangan disesuaikan jika Bank merevisi estimasi pembayaran atau penerimaan. Nilai tercatat yang disesuaikan tersebut dihitung dengan menggunakan suku bunga efektif awal dan perubahan nilai tercatat dibukukan pada laporan laba rugi komprehensif. Tetapi untuk aset keuangan yang telah direklasifikasi, dimana pada tahun berikutnya Bank meningkatkan estimasi pemulihan kas sebagai hasil dari peningkatan pengembalian penerimaan kas, dampak peningkatan pemulihan tersebut diakui sebagai penyesuaian suku bunga efektif sejak tanggal perubahan estimasi.

Ketika nilai tercatat aset keuangan atau kelompok aset keuangan serupa telah diturunkan akibat kerugian penurunan nilai, pendapatan bunga tetap diakui pada tingkat suku bunga yang digunakan untuk mendiskontokan arus kas masa mendatang dalam pengukuran kerugian penurunan nilai.

Pinjaman yang diberikan dan aset produktif lainnya (tidak termasuk efek-efek) diklasifikasikan sebagai *non-performing* jika telah masuk dalam klasifikasi kurang lancar, diragukan atau macet. Sedangkan efek-efek diklasifikasikan sebagai *non-performing*, jika penerbit efek mengalami wanprestasi dalam memenuhi pembayaran bunga dan/atau pokok atau memiliki peringkat paling kurang 1 (satu) tingkat di bawah peringkat investasi.

2. Summary of Significant Accounting Policies (continued)

t. Interest Income and Expense

All financial instruments measured at amortized cost, financial assets and liabilities classified as available-for-sale, its interest income and expenses is recognized using the EIR, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability. The calculation takes into account all contractual terms of the financial instrument and included any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR.

The carrying amount of the financial asset or liability is adjusted if the Bank revises its estimates of payments or receipts. The adjusted carrying amount is calculated using the original EIR and the change in carrying amount is recorded in the statements of comprehensive income. However, for a reclassified financial asset for which the Bank subsequently increases its estimates of future cash receipts as a result of increased recoverability of those cash receipts, the effect of that increase is recognized as an adjustment to the EIR from the date of the change in estimate.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Loans and other earning assets (excluding securities) are considered as non-performing when they are classified as substandard, doubtful, or loss. While securities are categorized as non-performing when the issuer of securities defaults on its interest and/or principal payments or, if they are rated at least 1 (one) level below investment grade.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

u. Pendapatan dan Beban Provisi dan Komisi

Pendapatan dan beban provisi dan komisi yang jumlahnya material yang berkaitan langsung dengan kegiatan pemberian asset keuangan diakui sebagai bagian/(pengurang) atau penambah dari biaya perolehan asset keuangan yang bersangkutan dan akan diakui sebagai pendapatan dengan cara diamortisasi berdasarkan EIR sepanjang perkiraan umur aset atau liabilitas keuangan.

Saldo beban yang ditangguhkan dan pendapatan komisi atas pinjaman yang diberikan yang diakhiri atau diselesaikan sebelum jatuh tempo diakui sebagai pendapatan dari penyelesaian.

v. Transaksi dan Saldo dalam Mata Uang Asing

Kebijakan akuntansi atas transaksi dan saldo dalam mata uang asing didasarkan pada peraturan BAPEPAM-LK No. VIII.G.7 dan Pedoman Akuntansi Perbankan Indonesia ("PAPI"). Bank mengacu pada PAPI dimana transaksi dalam mata uang asing dicatat dalam Rupiah dengan menggunakan kurs laporan (penutupan) yang ditetapkan oleh Bank Indonesia yaitu kurs tengah yang merupakan rata-rata kurs beli dan kurs jual berdasarkan Reuters masing-masing pada tanggal 31 Desember 2014 dan 2013.

Laba atau rugi kurs yang terjadi dikreditkan atau dibebankan pada laba rugi komprehensif tahun berjalan.

Pada tanggal 31 Desember 2014 dan 2013, kurs tengah mata uang asing adalah sebagai berikut:

	2014
Dinar Kuwait	42.295,76
Pound Sterling Inggris	19.288,40
Euro Eropa	15.053,35
Franc Swiss	12.515,80
Dolar Amerika Serikat	12.385,00
Dolar Kanada	10.679,49
Dolar Australia	10.148,27
Dolar Selandia Baru	9.709,23
Dolar Brunei Darussalam	9.373,35
Dolar Singapura	9.376,19
Ringgit Malaysia	3.542,12
Riyal Arab Saudi	3.299,59
Yuan China Renminbi	1.995,62
Kroner Swedia	1.604,61
Dolar Hong Kong	1.596,98
Yen Jepang	103,56

2. Summary of Significant Accounting Policies (continued)

u. Fees and Commissions Income and Expense

Fees and commissions that have material amount directly related with the acquisition of financial assets are recognized as part/(deduction) or addition of acquisition cost of related financial assets and will be recognized as income and amortized using the EIR during the expected life of financial assets or liabilities.

The outstanding balances of deferred fees and commission income on loans receivable terminated or settles prior to maturity are recognized as income on settlement.

v. Foreign Currency Transactions and Balances

Accounting policy for transaction and balances in foreign transaction is based on BAPEPAM-LK rule No. VIII.G.7 and Guidelines for Indonesian Bank Accounting ("PAPI"). The Bank refers to PAPI where transactions involving foreign currencies are recorded in Rupiah using the reporting (closing) rate set by Bank Indonesia that is middle rate which is the average of bid rate and ask rate based on Reuters on December 31, 2014 and 2013, respectively.

The resulting gains or losses are credited or charged to the statements of comprehensive income for the current year.

As of December 31, 2014 and 2013, the middle rates of the foreign currencies are as follows:

2013	
43.104,10	Kuwait Dinar
20.110,93	Great Britain Pound Sterling
16.759,31	European Euro
13.674,16	Swiss Franc
12.170,00	United States Dollar
11.434,22	Canadian Dollar
10.855,65	Australian Dollar
9.995,83	New Zealand Dollar
9.620,17	Brunei Darussalam Dollar
9.622,08	Singapore Dollar
3.715,47	Malaysian Ringgit
3.244,94	Saudi Arabian Riyal
2.010,27	Chinese Yuan Renminbi
1.897,39	Swedish Kroner
1.569,54	Hong Kong Dollar
115,75	Japanese Yen

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

w. Imbalan Kerja

Bank mencatat estimasi liabilitas imbalan kerja atas uang pesangon, uang penghargaan masa kerja dan uang penggantian hak sesuai dengan Undang-undang Ketenagakerjaan No. 13 Tahun 2003 tanggal 25 Maret 2003 (UU No. 13/2003) dan perjanjian ketenagakerjaan Bank.

Kewajiban program imbalan pasti yang diakui di laporan posisi keuangan dihitung sebesar nilai kini dari estimasi kewajiban imbalan pasca-kerja di masa depan yang timbul dari jasa yang telah diberikan oleh karyawan pada masa kini dan masa lalu, dikurangi dengan nilai wajar aset neto dana pensiun. Perhitungan dilakukan oleh aktuaris independen dengan metode *projected-unit-credit*.

Bila terjadi perubahan imbalan pasca-kerja, kenaikan atau penurunan imbalan sehubungan dengan jasa yang telah diberikan oleh karyawan pada masa lalu dibebankan atau dikreditkan ke dalam laporan laba rugi komprehensif dengan menggunakan metode garis lurus (*straight-line method*) selama rata-rata sisa masa kerja karyawan hingga imbalan pasca-kerja menjadi hak karyawan (*vested*). Imbalan pasca-kerja yang telah menjadi hak karyawan diakui segera sebagai beban dalam laporan laba rugi komprehensif.

Keuntungan dan kerugian aktuarial diakui sebagai penghasilan atau beban apabila akumulasi keuntungan dan kerugian aktuarial bersih yang belum diakui pada akhir periode pelaporan sebelumnya melebihi 10% dari nilai kini liabilitas imbalan kerja (*the Present Value of Defined Benefit Obligation*) pada tanggal tersebut. Besarnya keuntungan dan kerugian aktuarial yang berada di luar koridor 10% tersebut, diakui selama rata-rata sisa masa kerja dari para pekerja dalam program tersebut.

Bank memiliki program pensiun iuran pasti. Imbalan yang akan diterima karyawan ditentukan berdasarkan jumlah iuran yang dibayarkan pemberi kerja dan karyawan ditambah dengan hasil investasi iuran tersebut.

2. Summary of Significant Accounting Policies (continued)

w. Employee Benefits

The Bank recognizes employee benefits obligation for severance pay, gratuity and compensation in accordance with Labor Law No. 13 Year 2003 dated March 25, 2003 (UU No. 13/2003) and the Bank's labor agreement.

The liability recognized in the statements of financial position in respect of defined benefit pension plans is calculated at present value of estimated future benefits that the employees have earned in return for their services in the current and prior periods, deducted by any plan assets. The calculation is performed by an independent actuary using the projected-unit-credit method.

When the benefits of a plan change, the increased or decreased benefits relating to past services by employees are charged or credited to the statements of comprehensive income on a straight-line basis over the average remaining service years until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in the statements of comprehensive income.

Actuarial gains or losses are recognized as income or expense if the unrecognized accumulated gains or losses at the end of the prior period exceed 10% of the present value of the defined benefit obligation at that date. Gains or losses in excess of the 10% corridor are recognized over the average remaining service years of the employees in the program.

The Bank has a defined contribution plan. The benefit to be received by employees is determined based on the amount of contribution paid by the employer and employee and the investment earnings of the fund.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

x. Pajak Penghasilan

Beban pajak tahun berjalan dihitung berdasarkan taksiran penghasilan kena pajak dalam tahun yang bersangkutan. Aset dan liabilitas pajak tangguhan diakui untuk semua perbedaan temporer antara nilai aset dan liabilitas yang tercatat di laporan posisi keuangan dengan dasar pengenaan pajak atas aset dan liabilitas tersebut pada setiap tanggal pelaporan. Manfaat pajak di masa datang seperti rugi menurut pajak yang belum digunakan (bila ada), diakui apabila besar kemungkinan bahwa manfaatnya masih dapat direalisasikan di masa yang akan datang.

Aset dan liabilitas pajak tangguhan dihitung dengan menggunakan tarif pajak yang diharapkan akan diterapkan pada periode ketika aset direalisasi atau ketika liabilitas diselesaikan berdasarkan tarif pajak (dan peraturan-peraturan perpajakan) yang berlaku atau secara substansial telah diberlakukan pada tanggal laporan posisi keuangan. Perubahan pada nilai buku dari aset dan liabilitas pajak tangguhan dikarenakan adanya perubahan dalam tarif pajak dibebankan pada operasi tahun berjalan, kecuali untuk transaksi-transaksi yang terkait dengan transaksi yang sebelumnya telah dibebankan ataupun dikreditkan ke ekuitas.

Jumlah tercatat aset pajak tangguhan ditelaah pada setiap tanggal neraca dan nilai tercatat aset pajak tangguhan tersebut diturunkan apabila tidak lagi terdapat kemungkinan besar bahwa laba fiskal yang memadai akan tersedia untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan.

Perubahan liabilitas pajak dicatat pada saat ketetapan pajak diterima atau dicatat pada saat keberatan/banding diterima, apabila Bank mengajukan keberatan atau melakukan banding.

2. Summary of Significant Accounting Policies (continued)

x. Income Tax

Current tax expense is provided based on the estimated taxable income for the year. Deferred tax assets and liabilities are recognized for temporary differences between the financial and the tax bases of assets and liabilities at each reporting date. Future tax benefits, such as the carry-forward of unused tax losses (if any), are recognized to the extent that realization of such benefits in the future is probable.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax regulations) that have been enacted or substantively enacted at the statements of financial position date. Change in the carrying amounts of deferred tax assets and liabilities due to a change in tax rate is charged to current year operations, except to the extent that it relates to items previously charged or credited to equity.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the benefit of the deferred tax assets to be utilized.

Amendment to tax obligations is recorded when an assessment is received or, if objected or appealed against by the Bank, when the result of the objection or appeal is determined.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

y. Transaksi restrukturisasi antara entitas sependengali

Sejak tanggal 1 Januari 2013, Bank menerapkan secara prospektif PSAK No. 38, "Kombinasi Bisnis Entitas Sepengendali", yang menggantikan PSAK No. 38 (Revisi 2004), "Akuntansi Restrukturisasi Entitas Sepengendali", kecuali atas saldo selisih nilai transaksi restrukturisasi entitas sependengali yang diakui sebelumnya, disajikan sebagai bagian dari "Tambahan Modal Disetor" dalam bagian ekuitas. PSAK No. 38 mengatur tentang akuntansi kombinasi bisnis entitas sependengali, baik untuk entitas yang menerima bisnis maupun untuk entitas yang melepas bisnis.

Dalam PSAK No. 38, pengalihan bisnis antara entitas sependengali tidak mengakibatkan perubahan substansi ekonomi kepemilikan atas bisnis yang dialihkan dan tidak dapat menimbulkan laba atau rugi bagi Bank secara keseluruhan ataupun bagi entitas individual dalam Bank tersebut. Karena pengalihan bisnis antara entitas sependengali tidak mengakibatkan perubahan substansi ekonomi, bisnis yang dipertukarkan dicatat pada nilai buku sebagai kombinasi bisnis dengan menggunakan metode penyatuan kepemilikan.

Dalam menerapkan metode penyatuan kepemilikan, komponen laporan keuangan dimana terjadi kombinasi bisnis dan untuk periode lain yang disajikan untuk tujuan perbandingan, disajikan sedemikian rupa seolah-olah kombinasi bisnis telah terjadi sejak awal periode terjadi sependengalian. Selisih antara nilai tercatat transaksi kombinasi bisnis dan jumlah imbalan yang dialihkan diakui dalam akun "Tambahan Modal Disetor - Neto".

2. Summary of Significant Accounting Policies (continued)

y. Restructuring transactions among entities under common control

Starting January 1, 2013, the Bank prospectively adopted PSAK No. 38, "Business Combinations of Entities Under Common Control", which supersedes PSAK No. 38 (Revised 2004), "Accounting for Restructuring of Entities Under Common Control", except for the previously recognized difference in value of restructuring transactions of entities under common control, are presented as "Additional Paid-in Capital" in the equity section. PSAK No. 38 prescribes the accounting for business combinations of entities under common control, for both the entity which receiving the business and the entity which disposing the business.

Under PSAK No. 38 transfer of business within entities under common control does not result in a change of the economic substance of ownership of the business being transferred and would not result in a gain or loss to the Bank or to the individual entity within the Bank. Since the transfer of business of entities under common control does not result in a change of the economic substance, the business being exchanged is recorded at book values as a business combination using the pooling-of-interests method.

In applying the pooling-of-interests method, the components of the financial statements for the period during which the restructuring occurred and for other periods presented, for comparison purposes, are presented in such a manner as if the restructuring has already happened since the beginning of the periods during which the entities were under common control. The difference between the carrying amounts of the business combination transaction and the consideration transferred is recognized under the account "Additional Paid-in Capital - Net".

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

z. Informasi Segmen

Segmen operasi adalah komponen Bank yang terlibat dalam aktivitas bisnis yang memperoleh pendapatan dan menimbulkan beban, yang hasil operasinya dikaji ulang secara regular oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya serta menyediakan informasi keuangan yang dapat dipisahkan. Segmen operasi terbagi dalam kelompok *wholesale*, *retail* dan lainnya.

aa. Pertimbangan dan Estimasi Akuntansi yang Signifikan

Dalam proses penerapan kebijakan akuntansi Bank, Manajemen telah melakukan pertimbangan dan estimasi profesional dalam menentukan jumlah yang diakui dalam laporan keuangan. Pertimbangan dan estimasi profesional yang signifikan adalah sebagai berikut:

Usaha yang berkelanjutan

Manajemen Bank telah melakukan penilaian atas kemampuan Bank untuk melanjutkan kelangsungan usahanya dan berkeyakinan bahwa Bank memiliki sumber daya untuk melanjutkan usahanya di masa mendatang. Selain itu, Manajemen menyadari adanya ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan Bank untuk melanjutkan kelangsungan usahanya. Oleh karena itu, laporan keuangan telah disusun atas dasar usaha yang berkelanjutan.

Nilai wajar atas instrumen keuangan

Bila nilai wajar aset keuangan dan liabilitas keuangan yang tercatat pada laporan posisi keuangan tidak tersedia di pasar aktif, nilainya ditentukan dengan menggunakan berbagai teknik penilaian termasuk penggunaan model matematika. Masukan (*input*) untuk model ini berasal dari data pasar yang bisa diamati sepanjang data tersebut tersedia, namun bila data pasar yang bisa diamati tersebut tidak tersedia, digunakan pertimbangan manajemen untuk menentukan nilai wajar.

2. Summary of Significant Accounting Policies (continued)

z. Segment Information

An operating segment is a Bank's component that is involved in business activities which derive income and incur expenses, which the operating results is reviewed regularly by operational decision maker for making decision related to resource that is allocated to the segment and evaluates the performance and provide separable financial information. The operating segment has been determined to be *wholesale*, *retail* and others.

aa. Judgments and Significant Accounting Estimates

In the process of applying the Bank's accounting policies, Management has exercised professional judgment and made estimates in determining the amounts recognized in the financial statements. The most significant uses of the professional judgment and estimates are as follows:

Going concern

The Bank's management has made an assessment of the Bank's ability to continue as a going concern and is satisfied that the Bank has the resources to continue in business for foreseeable future. Furthermore, the Management is realized of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

Fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded on the statements of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, management judgment is required to establish fair values.

Unless Otherwise Stated)

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

aa. Pertimbangan dan Estimasi Akuntansi yang Signifikan (lanjutan)

Nilai wajar atas instrumen keuangan (lanjutan)

Pertimbangan manajemen tersebut mencakup pertimbangan likuiditas dan masukan model seperti volatilitas untuk transaksi derivatif yang berjangka panjang dan tingkat diskonto, tingkat pelunasan dipercepat dan asumsi tingkat gagal bayar.

Bank menampilkan nilai wajar atas instrumen keuangan berdasarkan hirarki nilai wajar sebagai berikut:

- Tingkat 1: diperoleh dari harga pasar aktif untuk aset atau liabilitas keuangan yang identik;
- Tingkat 2: teknik valuasi untuk seluruh input yang memiliki efek signifikan terhadap nilai wajar yang diakui dapat diobservasi baik secara langsung atau tidak langsung; dan
- Tingkat 3: teknik valuasi yang menggunakan seluruh input yang memiliki dampak signifikan terhadap nilai wajar tercatat yang tidak didasarkan pada data pasar yang dapat diobservasi.

Penurunan nilai kredit yang diberikan

Pada setiap tanggal laporan posisi keuangan, Bank menelaah kredit yang diberikan untuk menilai apakah penurunan nilai harus dicatat dalam laporan laba rugi komprehensif. Secara khusus, pertimbangan manajemen diperlukan dalam estimasi jumlah dan waktu arus kas di masa mendatang ketika menentukan penurunan nilai. Dalam estimasi arus kas tersebut, Bank melakukan penilaian atas kondisi keuangan peminjam dan nilai realisasi bersih agunan. Estimasi tersebut didasarkan pada asumsi dari sejumlah faktor dan hasil aktual mungkin berbeda, sehingga mengakibatkan perubahan penyisihan di masa mendatang.

Penurunan nilai efek yang tersedia untuk dijual

Bank menelaah efek yang diklasifikasikan sebagai tersedia untuk dijual pada setiap tanggal laporan posisi keuangan untuk menilai apakah telah terjadi penurunan nilai. Penilaian tersebut menggunakan pertimbangan yang sama seperti yang diterapkan pada penilaian secara individual atas kredit yang diberikan.

2. Summary of Significant Accounting Policies (continued)

aa. Judgments and Significant Accounting Estimates (continued)

Fair value of financial instruments (continued)

Management judgments include considerations of liquidity and model inputs such as volatility for long term derivatives and discount rates, early payment rates and default rate assumptions.

The Bank present the fair value of financial instruments based on the following fair value hierarchy:

- Level 1: quoted (unadjusted) prices in active markets for identical financial assets or liabilities;
- Level 2: valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable either directly or indirectly; and
- Level 3: valuation techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Impairment losses on loans

The Bank reviews its loans at each statements of financial position date to assess whether an impairment loss should be recorded in the statements of comprehensive income. In particular, judgment by management is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. In estimating these cash flows, the Bank makes judgment about the borrower's financial situation and the net realizable value of collateral. These estimates are based on assumptions about a number of factors and actual results may differ in future changes to the allowance.

Impairment in value of available-for-sale securities

The Bank reviews securities which are classified as available-for-sale at each financial position date to assess whether impairment has occurred. The assessment uses the same considerations as applied to individual assessment on loans.

2. Ikhtisar Kebijakan Akuntansi Penting (lanjutan)

aa. Pertimbangan dan Estimasi Akuntansi yang Signifikan (lanjutan)

Aset pajak tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan perkiraan waktu dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

Klasifikasi aset dan liabilitas keuangan

Bank menetapkan klasifikasi aset dan liabilitas tertentu sebagai aset keuangan dan liabilitas keuangan dengan mempertimbangkan apakah definisi yang ditetapkan PSAK No. 55 (Revisi 2011) dipenuhi. Dengan demikian, aset keuangan dan liabilitas keuangan diakui sesuai dengan kebijakan akuntansi Bank seperti diungkapkan pada Catatan 2c.

Imbalan kerja

Penentuan liabilitas imbalan kerja Bank bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dan manajemen Bank dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun dan tingkat kematian.

Penyusutan aset tetap

Biaya perolehan aset tetap disusutkan dengan menggunakan metode garis lurus berdasarkan taksiran masa manfaat ekonomisnya. Manajemen mengestimasi masa manfaat ekonomis aset tetap antara 5 sampai dengan 20 tahun.

Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya biaya penyusutan masa depan mungkin direvisi.

2. Summary of Significant Accounting Policies (continued)

aa. Judgments and Significant Accounting Estimates (continued)

Deferred tax assets

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference. Management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing on level of future taxable profits together with future tax planning strategies.

Classification of financial assets and financial liabilities

The Bank determines the classifications of certain assets and liabilities as financial assets and financial liabilities by judging if they meet the definition set forth in PSAK No. 55 (Revised 2011). Accordingly, the financial assets and financial liabilities are accounted for in accordance with the Bank's accounting policies disclosed in Note 2c.

Employee benefits

The determination of the Bank's employee benefits liabilities is dependent on its selection of certain assumptions used by the independent actuaries and the Bank's management in calculating such amounts. Those assumptions include among others, discount rates, future annual salary increase, annual employee turn-over rate, disability rate, retirement age and mortality rate.

Depreciation of fixed assets

The costs of fixed assets are depreciated on a straight-line method over their estimated useful lives. Management estimates the useful lives of these fixed assets to be between 5 to 20 years.

Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, and therefore future depreciation charges could be revised.

Pada tanggal 10 Oktober 2014, Bank melakukan transaksi *swap* suku bunga dengan JP Morgan Chase Bank, N.A dengan nilai nosional sebesar USD91.000.000 (nilai penuh) dengan jangka waktu 8 (delapan) tahun yang akan berakhir pada tanggal 15 Oktober 2022. Untuk transaksi tersebut, Bank membayar tingkat suku bunga tetap dan menerima tingkat suku bunga mengambang sampai dengan jatuh tempo. Transaksi tersebut bertujuan untuk melakukan lindung nilai atas nilai wajar investasi keuangan yang diklasifikasikan sebagai aset keuangan yang tersedia untuk dijual - obligasi pemerintah. Nilai wajar atas transaksi diatas pada tanggal 31 Desember 2014 mengalami kerugian sebesar Rp15.506.

On October 10, 2014, the Bank entered into interest rate swap transaction with JP Morgan Chase Bank, N.A with notional value amounting to USD91,000,000 (full amount) with tenor of 8 (eight) years which will mature on October 15, 2022. For this transaction, the Bank pays fixed interest rate and receive floating rate until maturity date. This transaction is intended to hedge the fair value of financial assets classified as available-for-sale - government bonds. Fair value of the said transaction as of December 31, 2014, suffering losses amounted to Rp15,506.

- c. *Medium term note* per 31 Desember 2014 merupakan obligasi dari PT Mandiri Tunas Finance dan PT Tunas Baru Lampung, masing-masing memiliki peringkat idAA dan idA. *Medium term note* per 31 Desember 2013 merupakan obligasi dari PT Mandiri Tunas Finance yang memiliki peringkat idAA. Peringkat obligasi per 31 Desember 2014 dan 2013 berdasarkan PT Pemeringkat Efek Indonesia (Pefindo), pihak ketiga.

- c. The medium-term notes as of December 31, 2014 were issued by PT Mandiri Tunas Finance and PT Tunas Baru Lampung, and have idAA and idA rating, respectively. The medium-term notes as of December 31, 2013 were issued by PT Mandiri Tunas Finance and have idAA rating. Rating as of December 31, 2014 and 2013 are based on PT Pemeringkat Efek Indonesia (Pefindo), a third party.

Klasifikasi investasi keuangan yang dimiliki hingga jatuh tempo berdasarkan sisa umur sebelum cadangan kerugian penurunan nilai adalah sebagai berikut:

The classification of held-to-maturity financial investments based on the remaining maturities before allowance for impairment losses is as follows:

9. Tagihan dan Liabilitas Derivatif (lanjutan)

Dalam kegiatan normal bisnis, Bank melakukan transaksi derivatif tertentu untuk memenuhi kebutuhan spesifik nasabahnya dan dalam rangka pengelolaan likuiditas dan posisi lindung nilai. Bank memiliki kebijakan pengelolaan risiko dan limit yang ditentukan untuk mengendalikan risiko nilai tukar dan suku bunga. Perubahan variabel risiko pasar dimonitor secara aktif dalam rapat ALCO (*Asset and Liability Committee*) yang dijadikan acuan dalam menentukan strategi Bank.

Pada tanggal 31 Desember 2014 dan 2013, Bank memiliki posisi di beberapa tipe instrumen derivatif sebagai berikut:

Pertukaran forward

Kontrak pertukaran *forward* adalah perjanjian untuk membeli atau menjual suatu mata uang asing pada kurs dan tanggal tertentu. Transaksi tersebut dilakukan di *over-the-counter market*. Secara spesifik, Bank mengadakan transaksi ini dengan tujuan untuk mengendalikan risiko nilai tukar. Jangka waktu perjanjian untuk transaksi pertukaran *forward* yang dilakukan oleh Bank berkisar antara 4 hari - 6 bulan.

Swap suku bunga

Perjanjian *swap* suku bunga merupakan perjanjian kontraktual antara dua pihak untuk menukarkan pergerakan tingkat suku bunga dan untuk melakukan suatu pembayaran yang didasarkan pada suatu situasi tertentu dan jumlah nosional tertentu. Secara spesifik, Bank mengadakan transaksi tersebut dengan tujuan untuk melindungi nilai pergerakan arus kas di masa depan, terkait dengan pendapatan bunga atas pinjaman yang diberikan kepada debitur (debitur perusahaan dan debitur perorangan yang telah digabungkan) dalam Rupiah dan pendapatan bunga dari efek tersedia untuk dijual dalam mata uang Dolar Amerika Serikat. Periode perjanjian untuk *swap* suku bunga yang dilakukan oleh Bank berkisar antara 3 tahun - 10 tahun.

Swap valuta asing dan suku bunga

Perjanjian *swap* valuta asing suku bunga merupakan perjanjian kontraktual antara dua pihak untuk menukarkan aliran kas dari pokok kredit dan pembayaran bunganya dalam denominasi mata uang yang berbeda. Periode perjanjian untuk *swap* valuta asing suku bunga yang dilakukan oleh Bank berkisar antara 1 tahun - 5 tahun.

9. Derivatives Receivable and Payable (continued)

In the normal course of the business, the Bank enters into some derivatives transaction to meet the specific needs of its customers, as well as to manage its liquidity and hedging position. The Bank has its own risk management policy and the risk amount limit in controlling the foreign exchange and interest rate risks. The changes in variable market risk are actively monitored in the ALCO (Asset and Liability Committee) meeting, whereby the changes serve as the benchmark in determining the Bank's strategies.

As of December 31, 2014 and 2013, the Bank has positions in the following types of derivative instruments:

Forward exchange

Forward exchange contracts are contractual agreements to buy or sell a foreign currency at specified rates and on certain dates. These transactions are conducted in the over-the-counter market. Specifically, the Bank enters into this transaction with the objective to control the exchange rate risk. The period of contract for forward exchange transactions undertaken by the Bank ranged between 4 days - 6 months.

Interest rate swap

Interest rate swap contracts are contractual agreements between two parties to exchange movements of interest rates and to make payments with respect to defined credit events based on specified notional amount. Specifically, the Bank has enters into these contracts to hedge its future interest cash flows on its interest income from Rupiah loan receivables from customers (corporate and individual at a pool basis) and its interest income from United States Dollar denominated available-for-sale securities. The contract period for the interest rate swap transacted by the Bank is between 3 year - 10 years.

Cross currency interest rate swap

Cross currency interest rate swap are contractual agreements between two parties to exchange cash flows from loan principal and interest payments which are in different denominations. The contract period for the cross currency interest rate swap transacted by the Bank is between 1 year - 5 years.

9. Tagihan dan Liabilitas Derivatif (lanjutan)

Transaksi-transaksi tersebut di atas tidak diperlakukan sebagai transaksi lindung nilai yang efektif untuk tujuan akuntansi. Perubahan nilai wajar dari instrumen derivatif tersebut dikreditkan atau dibebankan dalam laporan laba rugi komprehensif tahun berjalan.

Pada tanggal 31 Desember 2014 dan 2013, tagihan derivatif digolongkan lancar dan tidak mengalami penurunan nilai.

9. Derivatives Receivable and Payable (continued)

The above transactions are not treated as effective hedging for accounting purposes. The changes in the fair value of the derivative instruments are credited or charged to the statements of comprehensive income in the current year.

As of December 31, 2014 and 2013, derivatives receivable are classified as current and not impaired.

10. Kredit yang Diberikan (lanjutan)

Berikut ini adalah informasi lainnya sehubungan dengan kredit yang diberikan: (lanjutan)

- i. Ikhtisar perubahan cadangan kerugian penurunan nilai kredit yang diberikan adalah sebagai berikut:

	31 Desember/December 31	
	2014	2013
Saldo awal tahun	345.652	502.877
Penyisihan (pemulihan) selama tahun berjalan	473.475	(70.811)
Penerimaan kembali kredit yang telah dihapusbukukan	18.089	29.573
Penghapusbukuan selama tahun berjalan	(186.738)	(133.090)
Selisih kurs penjabaran	3.357	17.103
Saldo akhir tahun	653.835	345.652

Penyisihan kerugian penurunan nilai untuk kredit yang diberikan untuk kelompok individual dan kolektif adalah sebagai berikut:

	31 Desember/December 31	
	2014	2013
Individual	465.519	229.080
Kolektif	188.316	116.572
Saldo akhir tahun	653.835	345.652

Manajemen Bank berkeyakinan bahwa jumlah cadangan penurunan nilai di atas adalah cukup untuk menutup kemungkinan kerugian atas tidak tertagihnya kredit yang diberikan.

- j. Keikutsertaan Bank sebagai anggota sindikasi terhadap jumlah seluruh kredit sindikasi yang diberikan berkisar antara 28,60% sampai dengan 50,00% untuk tahun 2014 dan 4,00% sampai dengan 25,00% untuk tahun 2013.
- k. Rasio kredit usaha kecil terhadap jumlah kredit yang diberikan adalah 0,94% pada tahun 2014 dan 0,98% pada tahun 2013.
- l. Pada tanggal 31 Desember 2014, Bank menilai penurunan nilai secara individual untuk kategori kredit *non-performing/NPL* dan debitur non NPL dengan nilai baki debit di atas Rp50 miliar dan *fully secured*, kecuali kartu kredit. Pada tanggal 31 Desember 2013, Bank menilai penurunan nilai secara individual untuk kategori kredit *non-performing/NPL*, kecuali kartu kredit.

10. Loans (continued)

The significant information relating to loans are as follows: (continued)

- i. The changes in the allowance for impairment losses of loans are as follows:

Beginning balance
Provision (reversal) during the year
Recovery of loans previously written-off
Loans written-off during the year
Foreign exchange translation
Ending balance

Allowance for impairment losses of loans for individual and collective are as follows:

Individual
Collective

Ending balance

The Bank's management believes that the allowance for impairment losses on loans is adequate to cover any possible losses on uncollectible loans.

- j. The participation of the Bank's as a member of a syndicated loans in the total syndicated loans ranged from 28.60% to 50.00% for 2014 and 4.00% to 25.00% for 2013.
- k. The ratio of loans to small business to the total loans is 0.94% in 2014 and 0.98% in 2013.
- l. As of December 31, 2014, Bank assessed the individual impairment for credit non-performing/NPL category and non NPL debtor with outstanding amount above Rp50 billion and fully secured, except for credit card. As of December 31, 2013, Bank assessed the individual impairment for credit non-performing/NPL category, except for credit card.

12. Aset Tetap (lanjutan)

Seluruh aset tetap yang dimiliki oleh Bank berasal dari kepemilikan langsung.

Nilai tercatat bruto dari aset tetap yang telah disusutkan penuh dan masih digunakan adalah sebagai berikut (tidak diaudit):

	31 Desember/December 31	
	2014	2013
Bangunan dan prasarana bangunan	3.355	360
Peralatan kantor	232.787	252.153
Kendaraan	8.644	9.055
Total	244.786	261.568

12. Fixed Assets (continued)

All fixed assets owned by the Bank are from direct ownership.

Gross carrying amount of fixed assets which were fully depreciated and still used are as follows (unaudited):

*Buildings and buildings improvements
Office Equipment
Vehicle*

Total

Rekonsiliasi penambahan aset tetap yang berasal dari pembelian dan reklasifikasi adalah sebagai berikut:

Reconciliation addition of fixed assets which comes from purchase and reclassification are as follows:

	31 Desember/December 31	
	2014	2013
Penambahan melalui pembelian aset tetap	116.840	192.541
Penambahan melalui reklasifikasi aset tetap	-	86.712
Total	116.840	279.253

*Addition through purchase of fixed assets
Addition through reclassification of fixed assets*

Total

Rekonsiliasi pengurangan aset tetap yang berasal dari penjualan dan reklasifikasi adalah sebagai berikut:

12. Aset Tetap (lanjutan)

Penyusutan yang dibebankan pada laporan laba rugi komprehensif masing-masing sebesar Rp110.442 dan Rp86.122 untuk tahun yang berakhir pada 31 Desember 2014 dan 2013 (Catatan 28).

Pada tanggal 31 Desember 2014, seluruh aset tetap (kecuali tanah), diasuransikan terhadap risiko kebakaran dan risiko lainnya berdasarkan paket polis tertentu kepada perusahaan-perusahaan asuransi pihak ketiga Bank yaitu PT Asuransi Adira Dinamika dan PT Asuransi Wahana Tata dengan nilai pertanggungan sebesar Rp1.428.532 dan \$AS33.229.440 (nilai penuh). Manajemen Bank berkeyakinan bahwa nilai pertanggungan asuransi telah mencukupi untuk menutupi kemungkinan kerugian dari risiko yang ada.

Penurunan nilai aset tetap pada tahun 2013 merupakan selisih antara nilai buku aset tetap yang bersangkutan dengan nilai wajar aset tetap tanah dan bangunan tertentu berdasarkan laporan penilai independen.

Hasil penjualan aset tetap adalah masing-masing sebesar Rp14.157 dan Rp25.884 untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2014 dan 2013.

Nilai buku aset tetap yang dijual adalah masing-masing sebesar Rp5.104 dan Rp4.130 untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2014 dan 2013.

Keuntungan atas penjualan aset tetap masing-masing sebesar Rp9.053 dan Rp21.754 untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2014 dan 2013, dibukukan sebagai bagian dari "Pendapatan non-operasional - keuntungan penjualan aset tetap dan agunan yang diambil alih - neto" selama tahun berjalan.

12. Fixed Assets (continued)

Depreciation charged to statements of comprehensive income amounted to Rp110,442 and Rp86,122 for the years ended December 31, 2014 and 2013, respectively (Note 28).

As of December 31, 2014, all fixed assets (except land), are covered by insurance against fire and other risks under blanket policies with the Bank's third parties insurance companies, which are PT Asuransi Adira Dinamika and PT Asuransi Wahana Tata with sum insured amounting to Rp1,428,532 and US\$33,229,440 (full amount). The Bank's management believes that insurance coverage is adequate to cover possible losses arising from such risks.

The impairment on fixed assets in 2013 represents the difference between the net book value and fair value of certain land and buildings based on an independent appraisal.

The proceeds from the sale of fixed assets amounted to Rp14,157 and Rp25,884 for the years ended December 31, 2014 and 2013, respectively.

Book value from the sale of fixed assets amounted to Rp5,104 and Rp4,130 for the years ended December 31, 2014 and 2013, respectively.

The related gain on sales of fixed assets of Rp9,053 and Rp21,754 for the years ended December 31, 2014 and 2013, respectively, are presented as part of "Non-operating income - gain on sale of fixed assets and foreclosed assets - net" during the year.

13. Aset Lain-lain

Aset lain-lain terdiri dari:

	31 Desember/December 31	
	2014	2013
Piutang bunga	250.522	211.620
Biaya dibayar di muka - neto	58.956	76.089
Agunan yang diambil alih (setelah dikurangi cadangan penurunan nilai sebesar Rp10.175 dan Rp15.563 pada tanggal 31 Desember 2014 dan 2013)	51.437	68.686
Uang muka	9.977	22.606
Setoran jaminan	10.485	10.502
Materai	3.430	3.956
Taksiran tagihan pajak penghasilan	1.174	1.174
Lain-lain	42.748	11.865
Neto	428.729	406.498

Ikhtisar perubahan cadangan kerugian penurunan nilai agunan yang diambil alih adalah sebagai berikut:

	31 Desember/December 31	
	2014	2013
Saldo awal tahun	15.563	24.514
Pemulihan cadangan selama tahun berjalan	(5.388)	(8.951)
Saldo akhir tahun	10.175	15.563

Manajemen Bank berkeyakinan bahwa jumlah cadangan kerugian penurunan nilai atas agunan yang diambil alih telah memadai dan nilai tercatat agunan yang diambil alih tersebut merupakan nilai bersih yang dapat direalisasi.

14. Liabilitas Segera

Liabilitas segera sebesar Rp67.710 dan Rp67.723 masing-masing pada tanggal 31 Desember 2014 dan 2013 terdiri dari kiriman uang/wesel akan dibayar, titipan dana nasabah, transaksi kliring/transfer yang belum diselesaikan dan liabilitas-liabilitas jangka pendek lainnya.

13. Other Assets

Other assets consist of:

Interests receivables
Prepaid expenses - net
Foreclosed assets
(net of allowance for decline
in value of Rp10,175 and Rp15,563
as of December 31, 2014 and 2013
respectively)
Advances
Security deposits
Stamp duty
Estimated claim for tax refund
Others

Net

The changes in the allowance for decline in value of foreclosed assets are as follows:

Beginning balance
Reversal of allowance
during the year

Ending balance

The Bank's management believes that the allowance for decline in value of foreclosed assets is adequate and the carrying value of foreclosed assets is stated at net realizable value.

14. Current Liabilities

Current liabilities amounting to Rp67,710 and Rp67,723 as of December 31, 2014 and 2013 represent cash remittances/draft payables, customers' funds, unsettled clearing/transfer transactions and other short-term liabilities.

Pada tanggal 28 Mei 2014, Bank menerbitkan Obligasi Subordinasi I Bank UOB Indonesia Tahun 2014. Obligasi ini ditawarkan sebesar nilai nominal, dicatatkan di Bursa Efek Indonesia dan dinyatakan efektif berdasarkan surat keputusan OJK pada tanggal 20 Mei 2014.

On May 28, 2014, the Bank issued Subordinated Bonds Bank UOB Indonesia Year 2014. The bonds were offered at their nominal value, listed on the Indonesia Stock Exchange and became effective based on OJK Decision Letter dated May 20, 2014.

Informasi mengenai transaksi dengan pihak berelasi dan jatuh tempo terdapat pada Catatan 34 dan 37.

Information on related parties and maturities are disclosed in Notes 34 and 37.

Bank memperhitungkan Obligasi Subordinasi I ini sebagai Komponen Modal Pelengkap Level Bawah (*Lower Tier 2*) berdasarkan Surat Persetujuan Otoritas Jasa Keuangan No. S-86/PB.321/2014 pada tanggal 18 Juni 2014.

The Bank calculates these Subordinated Bonds I as part of Lower Supplementary Capital (Lower Tier 2) based on Approval Letter from Otoritas Jasa Keuangan No. S-86/PB.321/2014 dated June 18, 2014.

Obligasi Subordinasi diterbitkan dikenakan suku bunga tetap sebesar 11,35% per tahun yang dibayarkan setiap tiga bulan dan jangka waktu selama tujuh tahun dan akan jatuh tempo pada tanggal 28 Mei 2021.

The Subordinated Bonds issued bear fixed interest rate of 11.35% per annum which is payable every three months; with a seven-year term; and are due on May 28, 2021.

Obligasi Subordinasi tidak dijamin dengan jaminan khusus, tetapi dijamin dengan seluruh harta kekayaan Bank.

Subordinated bonds are not secured by specific collateral, but are secured by all assets of the Bank.

Pada tanggal 31 Desember 2014, peringkat surat berharga ini menurut Fitch Ratings adalah id AA.

As of December 31, 2014, the rating of the bonds based on Fitch Ratings was id AA.

Selama jangka waktu obligasi tersebut di atas, tanpa ijin tertulis dari wali amanat, Bank tidak diperkenankan untuk:

During the term of abovementioned bonds, without written permission from trustee, the Bank is not allowed to:

- 1) Mengurangi modal dasar, modal ditempatkan dan modal disetor, kecuali pengurangan tersebut dilakukan berdasarkan permintaan dan/atau perintah dari otoritas berwenang (termasuk tetapi tidak terbatas pada OJK);
- 2) Melakukan penggabungan dan/atau peleburan yang menyebabkan bubarnya Bank;

- 1) *Reduce the authorized capital, issued capital and paid-up capital, unless the reduction is carried out based on the request and/or order of the authorized regulator (including but not limited to OJK);*
- 2) *Perform any merger and/or acquisition which causes the liquidation of the Bank;*

23. Modal Saham (lanjutan)

Pengelolaan Modal

Tujuan utama pengelolaan modal Bank adalah untuk memastikan pemeliharaan rasio modal yang sehat untuk mendukung usaha dan memaksimalkan imbalan bagi pemegang saham.

Selain itu, Bank dipersyaratkan oleh Undang-undang Perseroan Terbatas efektif tanggal 16 Agustus 2007 untuk berkontribusi sampai dengan 20% dari modal saham ditempatkan dan disetor penuh dalam bentuk dana cadangan yang tidak boleh didistribusikan. Persyaratan permodalan tersebut dipertimbangkan oleh Bank pada Rapat Umum Pemegang Saham ("RUPS").

Bank mengelola struktur permodalan dan melakukan penyesuaian terhadap perubahan kondisi ekonomi. Untuk memelihara dan menyesuaikan struktur permodalan, Bank dapat menyesuaikan pembayaran dividen kepada pemegang saham, menerbitkan saham baru atau mengusahakan pendanaan melalui pinjaman. Tidak ada perubahan atas tujuan, kebijakan maupun proses pada tanggal 31 Desember 2014 dan 2013.

Kebijakan Bank adalah mempertahankan struktur permodalan yang sehat untuk mengamankan akses terhadap pendanaan pada biaya yang wajar.

23. Share Capital (continued)

Capital Management

The primary objective of the Bank's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholder value.

In addition, the Bank is also required by the Corporate Law effective August 16, 2007 to contribute and maintain a non-distributable reserve fund until the said reserve reaches 20% of the issued and fully paid up share capital. This capital requirements are considered by the Bank at the Annual General Shareholders' Meeting ("AGM").

The Bank manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Bank may adjust the dividend payment to shareholders, issue new shares or raise debt financing. No changes were made in the objectives, policies or processes as of December 31, 2014 and 2013.

The Bank's policy is to maintain a healthy capital structure in order to secure access to finance at a reasonable cost.

24. Tambahan Modal Disetor - Agio Saham

Terkait dengan penerapan PSAK No. 38, "Kombinasi Bisnis Entitas Sepengendali", yang menggantikan PSAK No. 38 (Revisi 2004), "Akuntansi Restrukturisasi Entitas Sepengendali", per 31 Desember 2014 dan 2013, akun ini terdiri dari:

24. Additional Paid-in Capital

Related to adoption of PSAK No. 38, "Business Combinations of Entities Under Common Control", which supersedes PSAK No. 38 (Revised 2004), "Accounting for Restructuring of Entities Under Common Control", as of December 31, 2014 and 2013, this account consists of:

31 Desember/December 31, 2014 dan/and 2013

33. Jaminan Pemerintah terhadap Liabilitas Pembayaran Bank Umum

Sehubungan dengan liabilitas bank umum yang dijamin oleh Program Penjaminan Pemerintah, Pemerintah Republik Indonesia telah mendirikan, sebuah lembaga independen berdasarkan Undang-undang Republik Indonesia No. 24 tahun 2004 tanggal 22 September 2004. Berdasarkan peraturan ini, Lembaga Penjamin Simpanan (LPS) menjamin dana masyarakat termasuk dana dari bank lain dalam bentuk giro, deposito, sertifikat deposito, tabungan dan/atau bentuk lainnya yang dipersamakan dengan itu.

32. Liability for Employee Benefits (continued)

Amounts of employee benefits liabilities for the year ended December 31, 2014 and previous four annual periods are as follows:

The amounts of experience adjustments arising on the plan liabilities for the year ended December 31, 2014 and previous four annual periods of employee benefits:

The movements of employees' benefits liability for the years ended December 31, 2014 and 2013 are as follows:

33. The Government Guarantee for The Payment of Obligations of Commercial Banks

In connection with the obligations guaranteed by commercial bank under the Government Guarantee Program, the Indonesian Government has established an independent institution in accordance with the Republic of Indonesia Law No. 24 year 2004 dated September 22, 2004. Under this Law, The Deposit Guarantee Institution (Lembaga Penjamin Simpanan/LPS), guarantees third party deposits including deposits from other banks in the form of demand deposits, time deposits, certificates of deposit, saving deposits and/or other equivalent forms.

34. Sifat dan Transaksi dengan Pihak Berelasi (lanjutan)

Keterangan: (lanjutan)

- c. Persentase dari beban pemeliharaan gedung dihitung terhadap total beban umum dan administrasi untuk masing-masing tahun yang bersangkutan. Beban pemeliharaan gedung merupakan beban pemeliharaan atas gedung UOB Plaza - Thamrin Nine yang dibayarkan ke PT UOB Property.
- d. Persentase dari beban umum dan administrasi lainnya dihitung terhadap total beban umum dan administrasi untuk masing-masing tahun yang bersangkutan.
- e. Persentase dari biaya *outsourcing* yang dikapitalisasi ke aset tetap dihitung terhadap jumlah aset pada masing-masing tanggal laporan posisi keuangan, sedangkan persentase dari biaya *outsourcing* yang dibebankan pada usaha dihitung terhadap jumlah beban operasional lainnya untuk masing-masing tahun yang bersangkutan. Biaya *outsourcing* merupakan biaya yang dibebankan United Overseas Bank Limited (UOB) kepada Bank sehubungan dengan perubahan *Master Outsourcing Agreement* tertanggal 1 April 2008. UOB akan memberikan jasa peningkatan sistem dan teknologi informasi sehubungan dengan kartu kredit, treasuri dan aplikasi sistem umum di Bank. Sebagai imbalan atas jasa ini, Bank wajib membayar *one time cost* atas beban aktual dan *recurring cost* atas beban pemeliharaan serta biaya peningkatan sistem dan aplikasi teknologi informasi (*enhancement cost*) seperti yang diungkapkan dalam perjanjian tersebut.

Perjanjian ini berlaku untuk satu tahun sejak tanggal efektif perjanjian dan akan secara otomatis diperbaharui untuk satu tahun berikutnya, kecuali jika salah satu pihak memberikan pemberitahuan tertulis untuk tidak memperbaharui perjanjian tersebut dalam waktu enam bulan sebelum berakhirnya perjanjian. Transaksi ini telah mendapat persetujuan dari pemegang saham independen Bank pada tanggal 20 Juni 2008.

- f. Pendapatan dan beban bunga dari/kepada pihak-pihak berelasi, yang dihasilkan/menjadi beban Bank berjumlah kurang dari 10% dari jumlah pendapatan dan beban bunga Bank untuk masing-masing tahun yang bersangkutan.

34. Nature and Transaction Balances with Related Parties (continued)

Notes: (continued)

- c. The percentages of building maintenance expenses are computed based on the total general and administrative expenses in each related year. The building maintenance expense represent the maintenance expenses of UOB Plaza - Thamrin Nine which was paid to PT UOB Property.
- d. The percentage of other general and administrative expenses is computed based on the total general and administrative expenses for each year.
- e. The percentage of outsourcing costs capitalized to fixed assets is computed based on total assets at statements of financial position, while the percentage of outsourcing costs charged to operations is computed based on the total other operational expenses for each related year. Outsourcing costs represent costs charged by United Overseas Bank Limited (UOB) to the Bank in connection with the amended Master Outsourcing Agreement dated April 1, 2008. UOB renders system enhancement and information technology related services on credit card, treasury and common systems applications in the Bank. As compensation to the services, the Bank is obliged to pay one time cost and recurring costs such as development and enhancement costs on the application stated in the agreement.

This agreement shall remain in force for a period of one year commencing from the effective date of the agreement and shall be automatically renewed for another one year unless either of the party shall give the other party a written notice of intention not to renew the agreement at least six months prior to expiry. These transactions have been approved by the Bank's independent shareholders on June 20, 2008.

- f. Interest income and expenses from/to related parties, which are received/incurred by the Bank is less than 10% of the Bank's total interest income and expenses, respectively, for each related year.

35. Posisi Devisa Neto (lanjutan)

Berdasarkan peraturan BI mengenai PDN sebagaimana telah direvisi melalui Peraturan BI No. 6/20/PBI/2004 pada tanggal 15 Juli 2004, yang terakhir diperbaharui dengan Peraturan BI No. 12/10/PBI/2010 tanggal 1 Juli 2010, PDN bank setinggi-tingginya adalah 20% dari modal. PDN merupakan jumlah absolut dari selisih antara aset dan liabilitas dalam mata uang asing, baik yang terdapat di laporan posisi keuangan maupun rekening administratif. PDN Bank pada tanggal 31 Desember 2014 dan 2013 telah memenuhi ketentuan BI.

35. Net Open Position (continued)

In accordance with BI regulation concerning NOP as amended by BI Regulation No. 6/20/PBI/2004 on July 15, 2004 and as further amended by BI Regulation No. 12/10/PBI/2010 dated July 1, 2010, the maximum NOP of banks should be 20% of capital. NOP represents an absolute amount arising from the differences between the assets and liabilities in foreign currencies in the statements of financial position and administrative accounts. The NOP of the Bank as of December 31, 2014 and 2013 is in compliance with BI regulations.

36. Informasi Penting

a. Rasio Kewajiban Penyediaan Modal Minimum

Pada tanggal 31 Desember 2014 dan 2013, rasio Kewajiban Penyediaan Modal Minimum (KPMM) Bank yang dihitung berdasarkan PBI No. 10/15/PBI/2008 tanggal 24 September 2008, SE NO. 13/30/DPNP tanggal 16 Desember 2011, PBI No.14/18/PBI/2012 tanggal 28 November 2012 dan PBI No.15/12/PBI/2013 tanggal 12 Desember 2013 adalah sebagai berikut:

	31 Desember/December 31	
	2014	2013
Modal inti		
Modal disetor	2.388.471	2.388.471
Cadangan tambahan modal		
Agio saham	2.102.242	2.102.242

36. Informasi Penting (lanjutan)

a. Rasio Kewajiban Penyediaan Modal Minimum (lanjutan)

	31 Desember/December 31	
	2014	2013
Aset Tertimbang Menurut Risiko Kredit	60.827.829	53.287.174
Aset Tertimbang Menurut Risiko Pasar	214.863	179.537
Aset Tertimbang Menurut Risiko Operasional	5.950.055	5.309.417
Rasio KPMM Bank untuk Risiko Kredit	17,31%	16,48%
Rasio KPMM Bank untuk Risiko Kredit dan Risiko Pasar	17,25%	16,42%
Rasio KPMM Bank untuk Risiko Kredit, Risiko Pasar dan Risiko Operasional	15,72%	14,94%
Rasio KPMM yang diwajibkan	8,00%	8,00%

Berdasarkan Surat Edaran No. 11/3/DPNP tanggal 27 Januari 2009 mengenai Perhitungan ATMR untuk Risiko Operasional dengan menggunakan Pendekatan Indikator Dasar, Bank telah melakukan perhitungan Aktiva Tertimbang Menurut Risiko (ATMR) untuk Risiko Operasional. Menurut Surat Edaran tersebut, perhitungan ATMR untuk Risiko Operasional dilakukan secara bertahap, yaitu:

1. Sejak tanggal 1 Januari 2011 sampai dengan 30 Juni 2011, perhitungan beban modal Risiko Operasional ditetapkan sebesar 5% (lima persen) dari rata-rata pendapatan bruto positif tahunan selama tiga tahun terakhir.
2. Sejak tanggal 1 Juli 2011 sampai dengan 31 Desember 2011, perhitungan beban modal Risiko Operasional ditetapkan sebesar 10% (sepuluh persen) dari rata-rata pendapatan bruto positif tahunan selama tiga tahun terakhir.
3. Sejak tanggal 1 Januari 2012, perhitungan beban modal Risiko Operasional ditetapkan sebesar 15% (lima belas persen) dari rata-rata pendapatan bruto positif tahunan selama tiga tahun terakhir.

36. Significant Information (continued)

a. Capital Adequacy Ratio (continued)

December 31	
2013	
53.287.174	Credit Risk Weighted Assets
179.537	Market Risk Weighted Assets
5.309.417	Operational Risk Weighted Assets
16,48%	Capital Adequacy Ratio for Credit Risk
16,42%	Capital Adequacy Ratio for Credit Risk and Market Risk
14,94%	Capital Adequacy Ratio for Credit Risk, Market Risk and Operational Risk
8,00%	Required Capital Adequacy Ratio

Based on Circular Letter No. 11/3/DPNP dated January 27, 2009 regarding the calculation of RWA for Operational Risk using the Basic Indicator Approach, the Bank has made the calculation of Risk Weighted Assets (RWA) for Operational Risk. According to the Circular Letter, the calculation of RWA for Operational Risk is applied gradually, as follows:

1. Since January 1, 2011 until June 30, 2011, the calculation of Operational Risk capital charge is set at 5% (five percent) of the average positive annual gross income during the last three years.
2. Since July 1, 2011 until December 31, 2011, the calculation of Operational Risk capital charge is set at 10% (ten percent) of average positive annual gross income during the last three years.
3. Since January 1, 2012, the calculation of Operational Risk capital charge is set at 15% (fifteen percent) of the average positive annual gross income during the last three years.

36. Informasi Penting (lanjutan)

a. Rasio Kewajiban Penyediaan Modal Minimum (lanjutan)

Pada tahun 2012 Bank Indonesia melakukan revisi atas peraturan tersebut dan mengeluarkan Surat Edaran No. 14/37/DPNP tentang Kewajiban Penyediaan Modal Minimum sesuai dengan Profil Risiko dan Pemenuhan *Capital Adequacy Maintained Assets* (CEMA).

Bank wajib memiliki dan menerapkan proses perhitungan kecukupan modal secara internal atau *Internal Capital Adequacy Assessment Process* (ICAAP). Komponen ICAAP paling kurang mencakup:

- Pengawasan Aktif Dewan Komisaris dan Direksi
- Penilaian Kecukupan Modal
- Pemantauan dan Pelaporan
- Pengendalian Internal

Bank juga wajib menyediakan modal minimum sesuai dengan profil risiko, sebagai berikut:

- 8% dari ATMR untuk Bank dengan profil risiko peringkat 1;
- 9% s.d kurang dari 10% dari ATMR untuk Bank dengan profil risiko peringkat 2;
- 10% s.d kurang dari 11% dari ATMR untuk Bank dengan profil risiko peringkat 3;
- 11% s.d 14% dari ATMR untuk Bank dengan profil risiko peringkat 4 atau peringkat 5.

Selain kewajiban penyediaan modal minimum sesuai profil risiko, berdasarkan PBI No. 15/12/PBI/2013 tanggal 12 Desember 2013, Bank juga wajib membentuk tambahan modal sebagai penyangga (*buffer*), sebagai berikut:

- Capital Conservation Buffer sebesar 2,5% (dua koma lima persen) dari ATMR
- Countercyclical Buffer sebesar 0% (nol persen) sampai dengan 2,5% (dua koma lima persen) dari ATMR
- Capital Surcharge untuk *Domestic-Systematically Important Bank* sebesar 1% (satu persen) sampai dengan 2,5% (dua koma lima persen) dari ATMR

Tambahan modal sebagai penyangga (*buffer*) tersebut akan berlaku efektif secara bertahap mulai 1 Januari 2016 hingga 1 Januari 2019.

PBI No. 15/12/PBI/2013 akan berlaku efektif secara bertahap mulai 1 Januari 2016 hingga 1 Januari 2019.

36. Significant Information (continued)

a. Capital Adequacy Ratio (continued)

In 2012, Bank Indonesia revised such regulation and issued circular letter No. 14/37/DPNP regarding *Capital Adequacy Ratio with Risk Profile and Capital Adequacy Maintained Assets* (CEMA).

The Bank is obliged to have and apply the process of capital adequacy calculation internally or *Internal Capital Adequacy Assessment Process* (ICAAP). The components of ICAAP:

- Active Supervision of Board of Commissioners and Board of Directors
- Capital Adequacy Assessment
- Monitoring and Reporting
- Internal control

Bank also provides the minimum capital required according to the risk profile, as follows:

- 8% of the RWA for bank with a rating of 1 risk profile;
- 9% until less than 10% of the RWA for bank with a risk profile rating 2;
- 10% until less than 11% of the RWA for bank with a risk profile rating 3;
- 11% until 14% of RWA for bank with risk profile ratings of 4 or 5.

Besides providing the minimum capital adequacy risk profile, based on PBI No.15/12/PBI/2013 dated December 12, 2013, the Bank is also required to establish additional capital as a buffer, as follows:

- Capital Conservation Buffer in the amount of 2.5% (two coma five percent) from RWA
- Countercyclical Buffer in the amount of 0% (zero percent) up to 2.5% (two coma five percent) from RWA
- Capital Surcharge for *Domestic-Systematically Important Bank* in the amount of 1% (one percent) up to 2.5% (two coma five percent) from RWA

Additional capital as buffer will be effective gradually starting on January 1, 2016 until January 1, 2019.

PBI No.15/12/PBI/2013 will be effective gradually starting on January 1, 2016 until January 1, 2019.

38. Kebijakan Manajemen Risiko

Risiko keuangan dan non-keuangan merupakan bagian yang melekat dalam bisnis Bank. Risiko dikelola dalam tingkat yang dapat diterima oleh Bank, serta disetujui oleh Direksi dan dipantau oleh Dewan Komisaris serta sebuah kerangka kerja yang komprehensif atas kebijakan dan prosedur yang ditetapkan untuk identifikasi, pengukuran, pemantauan dan pengendalian risiko.

Secara garis besar Kebijakan Manajemen Risiko mengacu pada aturan Regulator, dimana pada penerapannya mencakup 4 pilar penerapan manajemen risiko yaitu:

1. Pengawasan aktif dari Dewan Komisaris dan Direksi
2. Kecukupan Kebijakan, Prosedur, dan Limit Manajemen Risiko
3. Kecukupan Identifikasi, Pengukuran, Pemantauan, Pengendalian dan Sistem Informasi Manajemen Risiko
4. Sistem Pengendalian Internal

Dewan Komisaris dan Direksi bertanggung jawab untuk memastikan bahwa penerapan manajemen risiko telah memadai sesuai dengan karakteristik, kompleksitas, dan profil risiko Bank, serta memahami dengan baik jenis dan tingkat risiko yang melekat pada kegiatan bisnis Bank. Untuk mendukung hal tersebut, dibentuk komite-komite untuk mengkaji masalah terkait manajemen risiko, termasuk rencana perbaikan jika dibutuhkan, memberikan persetujuan atas berbagai Kebijakan Manajemen Risiko, mengkaji Laporan Profil Risiko, dan mengevaluasi pelaksanaan sistem pengendalian Bank. Komite yang dibentuk pada level Komisaris salah satunya yaitu Komite Pemantau Risiko (KIPER), sedangkan pada level Direksi antara lain Komite Manajemen Risiko (RMC), Komite Aktiva & Pasiva (ALCO), Komite Kebijakan Kredit (CPC), dan Komite Manajemen Risiko Operasional (ORMC).

Penetapan Kebijakan Manajemen Risiko sesuai dengan Profil Risiko Bank yaitu mencakup 8 tipe Risiko yang terdiri dari : Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Operasional, Risiko Kepatuhan, Risiko Strategik, Risiko Hukum dan Risiko Reputasi.

Risiko Kredit

Risiko kredit didefinisikan sebagai risiko kerugian yang timbul dari kegagalan debitur atau *counterparty* dalam memenuhi kewajiban keuangannya pada saat jatuh tempo.

Dalam mengelola eksposur risiko kredit, Bank menerapkan beberapa prinsip dasar sebagai berikut:

38. Risk Management Policies

Financial and non-financial risks are inherent in the Bank's business. Risks are managed within acceptable levels by Bank, as well as approved by the Board of Directors and oversight by Board of Commissioners and a comprehensive framework of policies and procedures is established for the identification, measurement, monitoring and control of risks.

Generally, the Risk Management Policy refers to the Regulators rules, which the implementation includes the 4 pillars of risk management, e.g:

1. *Active supervision of the Board of Commissioners and Board of Directors*
2. *Policies, Procedures, and Risk Management Limit*
3. *Adequacy of Identification, Measurement, Monitoring, Control and Risk Management Information System*
4. *Internal Control Systems*

Board of Commissioners and Directors are responsible to ensure the adequacy of risk management implementation tailored with the characteristic, complexity, and risk profile of Bank, and have a good on the type and level of risks inherent in the Bank's business activities. To support this, the committees are formed to assess issues related to risk management, including the improvement plan if necessary, give approval for a variety of Risk Management Policy, assess the risk profile report, and evaluate the implementation of the Bank's risk control system. One of the Committee was formed at the commissioner level is Risk Oversight Committee (RoC), whereas at the Directors level e.g the Risk Management Committee (RMC), Asset & Liability Committee (ALCO), Credit Policy Committee (CPC) and Operational Risk Management Committee (ORMC).

Risk Management Policy is determined in accordance with the Bank's risk profile which includes 8 types of risks, consists of: Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Compliance Risk, Strategic Risk, Legal Risk and Reputation Risk.

Credit Risk

Credit risk is defined as the risk of loss arising from any failure by a debtor or a counterparty to fulfill its financial obligations as and when they fall due.

In managing credit risk exposure, the Bank applies several basic principles as follows:

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kredit (lanjutan)

1. Pemisahan fungsi Penyetuju Kredit dari Pengaju Kredit

Terdapat pemisahan tugas antara fungsi kerja Bisnis, fungsi kerja Administrasi Kredit, fungsi kerja Penyetuju Kredit, dan fungsi kerja Manajemen Risiko untuk menjaga independensi dan integritas fungsi kredit.

Divisi Manajemen Risiko Kredit, melakukan pengawasan independen terhadap risiko kredit dan bertanggung jawab atas analisis dan pelaporan dari semua elemen risiko kredit kepada manajemen senior dan Direksi.

2. Kebijakan dan Prosedur Risiko Kredit

Bank telah menerbitkan beberapa kebijakan terkait untuk mengelola risiko kredit antara lain:

- a. Kebijakan Kredit Umum yang mengatur tata cara pemberian kredit dan berbagai prinsip dan standar kredit yang berlaku secara umum, untuk mengelola risiko kredit Bank.
- b. Kebijakan Kredit Konsumer yang mengatur tata cara pemberian kredit konsumer dan berbagai prinsip dan standar kredit guna mengelola risiko kredit Bank pada segmen konsumer.
- c. Kebijakan Manajemen Risiko Konsentrasi Kredit untuk mengelola risiko konsentrasi kredit.
- d. Kebijakan Mitigasi Risiko Kredit yang menentukan jenis dan persyaratan minimum pada agunan, jaminan dan kredit derivatif guna memenuhi persyaratan modal.
- e. Pedoman Restrukturisasi Kredit yang memberikan pedoman restrukturisasi kredit bagi debitur yang mengalami kesulitan dalam memenuhi kewajibannya kepada Bank.
- f. Kebijakan Klasifikasi Aset yang memberikan pedoman atas pengkategorian eksposur ke dalam Kelas Aset Basel II untuk perhitungan Aktiva Tertimbang Menurut Risiko.

38. Risk Management Policies (continued)

Credit Risk (continued)

1. Segregation of Credit Approval from Credit Origination

There is segregation of duties between Business function, Credit Administration function, Credit Approval function, and Risk Management function to maintain independence and integrity of the various credit functions.

Credit Risk Management division, provides independent oversight of credit risk and is responsible for the analysis and reporting of all elements of credit risk to the senior management and the Director.

2. Credit Risk Policies and Procedures

The Bank has issued several related policies to manage credit risk, e.g:

- a. The General Credit Policy that governs the principles of credit extension and the broad credit principles and standards by which the Bank undertakes and manages credit risk.
- b. The Consumer Credit Policy that governs the principles of consumer credit extension, the credit principles and standards by which the Bank undertakes and manages credit risk for the consumer segment.
- c. The Credit Concentration Risk Management Policy that manages credit concentration risk.
- d. The Credit Risk Mitigation Policy that specifies the types and minimum requirements for collateral, guarantees and credit derivatives to be eligible for capital relief.
- e. The Credit Restructuring Guideline that gives guidance on credit restructuring for borrowers who have difficulties to meet their obligation to the Bank.
- f. The Asset Classification Policy that gives the guidelines for classifying exposures into the Basel II Asset Classes for Risk Weighted Asset calculation.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kredit (lanjutan)

2. Kebijakan dan Prosedur Risiko Kredit (lanjutan)

Bank telah menerbitkan beberapa kebijakan terkait untuk mengelola risiko kredit antara lain: (lanjutan)

g. Alur kerja untuk Proses ECAI (*External Credit Assessment Institutions*) Basel II yang memberikan pedoman untuk menghasilkan dan menjaga peringkat eksternal debitur untuk perhitungan Aktiva Tertimbang Menurut Risiko.

h. Pedoman Perbankan Ramah Lingkungan, sebagai bentuk peran dari Bank untuk mendukung program Pemerintah akan kelestarian lingkungan hidup dimana selain memperhatikan kemampuan bayar debitur, Bank juga memperhatikan upaya yang telah dilakukan debitur dalam rangka memelihara lingkungan hidup.

3. Pengelolaan dan Pemantauan Portofolio Kredit

Divisi Manajemen Risiko Kredit menjadi pengawas independen dan melakukan pemantauan portofolio dengan melakukan kaji ulang secara berkala atas risiko internal dan eksternal dan parameter-parameter risiko kredit (seperti: *tren delinquency, special mention, watch list accounts*, risiko konsentrasi, pergerakan kualitas kredit, dan lain-lain).

Saat ini Bank telah memiliki *Independent Credit Review Unit (ICRU)* yang berada di bawah Divisi Manajemen Risiko Kredit yang secara independen bertugas untuk melakukan *review* terhadap akun-akun *watchlist* dan memastikan bahwa akun-akun tersebut dikelola secara proaktif untuk meminimalkan kerugian Bank serta memiliki kolektibilitas sesuai dengan ketentuan internal Bank dan ketentuan regulator.

38. Risk Management Policies (continued)

Credit Risk (continued)

2. Credit Risk Policies and Procedures (continued)

The Bank has put in place the following policies, among others, to manage credit risk: (continued)

g. The Workflow for Basel II ECAI (*External Credit Assessment Institutions*) Process that gives the guidelines for obtaining and maintaining the external ratings of debtors for Risk Weighted Asset calculation.

h. Green Banking Guidelines, as a form of Bank's role to support the Government's program to preserve the environment, in which Bank's concern is not only the debtor's ability to pay but also noted the Debtor's effort to preserve the environment.

3. Management and Monitoring of Credit Portfolio

Credit Risk Management Division provides independent oversight and performs portfolio monitoring by conducting regular reviews of internal and external risk environment and credit risk parameters (i.e *delinquency trend, special mention, watch list accounts, concentration risk, loan quality movement, et cetera*).

Currently the Bank has the *Independent Credit Review Unit (ICRU)* under the Credit Risk Management Division in which the task is to be independently review the *watchlist accounts* and to ensure that the accounts are proactively managed to minimize the losses of the Bank and has an appropriate collectibility in accordance with the Bank's internal regulations and regulatory provisions.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kredit (lanjutan)

3. Pengelolaan dan Pemantauan Portofolio Kredit (lanjutan)

Pengelolaan Risiko Konsentrasi Kredit

Risiko konsentrasi kredit didefinisikan sebagai eksposur tunggal atau eksposur kelompok yang berpotensi menghasilkan kerugian yang cukup besar (relatif terhadap modal Bank, total aktiva, atau tingkat risiko secara keseluruhan) yang mungkin mengancam kesehatan Bank atau kemampuan Bank untuk mempertahankan operasi intinya. Dimana kredit adalah aktivitas utama Bank, risiko konsentrasi kredit adalah risiko yang sangat material.

Bank menetapkan limit eksposur untuk individual/grup, sektor industri, jangka waktu, nilai tukar asing, wilayah, dan agunan yang telah disesuaikan dengan *risk appetite* dan *risk tolerance* sebagai salah satu alat bagi Bank untuk memonitor dan memitigasi risiko konsentrasi kredit.

Kredit menurut sektor industri per 31 Desember 2014 adalah sebagai berikut:

	31 Desember/December 31	
	2014	2013
Industri Pengolahan	15.876.562	14.739.398
Perdagangan besar dan eceran	14.459.513	13.406.448
Rumah Tangga	7.611.986	6.611.424
Real estate dan jasa usaha	4.570.130	4.500.020
Transportasi, pergudangan, dan komunikasi	4.171.872	4.400.098
Konstruksi	3.505.487	2.868.536
Penyedia Akomodasi	3.436.384	3.337.955
Pertambangan dan Penggalian	903.196	803.411
Pertanian, perburuan dan kehutanan	750.984	722.977
Perantara Keuangan	369.811	53.826
Listrik, air dan gas	337.396	373.906
Jasa Kemasyarakatan	277.468	240.689
Jasa Kesehatan	102.862	62.856
Perikanan	55.538	43.270
Jasa Pendidikan	32.470	30.078
Jasa Perorangan	10.692	11.336
Lainnya	14.353	9.864
Total	56.486.704	52.216.092

38. Risk Management Policies (continued)

Credit Risk (continued)

3. Management and Monitoring of Credit Portfolio (continued)

Credit Concentration Risk Management

Credit risk concentration is defined as any single exposure or group of exposures with the potential to produce losses large enough (relative to the Bank's capital, total assets, or overall risk level) to threaten the Bank's health or ability to maintain its core operations. As lending is the Bank's primary activity, credit risk concentration is its most material risk.

The Bank sets the exposure limit for single/group exposure, industry sector, tenor, foreign exchange, region, and collateral which is line with Bank's risk appetite and risk tolerance as one of the tools for Bank to monitor and mitigate credit concentration risk.

Loans based on industrial sector as of December 31, 2014, are as follows:

Processing Industry
Wholesale and retail
Household sector
Real estate and business service
Transportation, warehousing, and communication
Construction
Accommodation provider
Mining and excavation
Agriculture, hunting and forestry
Financial intermediaries
Electricity, water and gas
Social Service
Health service
Fishery
Educational service
Personal Service
Others
Total

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kredit (lanjutan)

3. Pengelolaan dan Pemantauan Portofolio Kredit (lanjutan)

Pengelolaan Risiko Konsentrasi Kredit (lanjutan)

Eksposur terbesar Bank terletak pada sektor industri pengolahan dengan proporsi sebesar 28% dari total kredit Bank dan hal tersebut sesuai dengan *risk appetite* dan *risk tolerance* yang dimiliki Bank.

Kredit berdasarkan sisa umur sampai dengan jatuh tempo per 31 Desember 2014 adalah sebagai berikut:

	Baki Debet Kredit/ Loan Outstanding	Persentase (%)/ Percentage (%)
≤ 1 tahun	29.167.316	51,64
> 1 tahun ≤ 2 tahun	2.674.901	4,74
> 2 tahun ≤ 5 tahun	13.411.468	23,74
> 5 tahun	11.233.019	19,88
Total	56.486.704	100,00

Sebagian besar jangka waktu kredit atau 48,72% jatuh tempo dalam kurun waktu kurang dari 1 (satu) tahun dimana untuk kredit yang lebih berisiko dengan jangka waktu lebih besar atau sama dengan 5 (lima) tahun memiliki porsi 27,06% dan hal ini sesuai dengan *risk appetite* dan *risk tolerance* yang dimiliki Bank.

Untuk aset keuangan yang diakui di laporan posisi keuangan, eksposur maksimum terhadap risiko kredit sama dengan nilai tercatat (tanpa memperhitungkan agunan).

Manajemen Kredit Bermasalah

Kredit bermasalah dikelola secara terpusat oleh divisi independen, *Special Asset Management* (SAM). SAM terdiri dari dua unit:

1. Unit Restrukturisasi yang secara proaktif mengelola kredit bermasalah. Tujuan utamanya adalah untuk menangani kredit bermasalah kembali lancar sehingga akun tersebut dapat ditransfer kembali ke fungsi kerja Bisnis; dan
2. Unit Recovery yang mengelola kredit bermasalah dengan tujuan utama memaksimalkan pemulihan hutang.

38. Risk Management Policies (continued)

Credit Risk (continued)

3. Management and Monitoring of Credit Portfolio (continued)

Credit Concentration Risk Management (continued)

The biggest Bank's exposure is to processing industry with proportion around 28% from total loan and it is in line with Bank's risk appetite and risk tolerance.

Loans based on remaining maturities as of December 31, 2014, are as follows:

	Persentase (%)/ Percentage (%)	
≤ 1 year	51,64	≤ 1 year
> 1 tahun ≤ 2 tahun	4,74	> 1 tahun ≤ 2 tahun
> 2 tahun ≤ 5 tahun	23,74	> 2 tahun ≤ 5 tahun
> 5 tahun	19,88	> 5 tahun
Total	100,00	Total

Most of the loan tenor or 48.72% is within less than 1 (one) year where for the riskiest loan which lies in the loan tenor more than or equal to 5 (five) years is 27.06% portion and it is in line with Bank's risk appetite and risk tolerance.

For financial assets recognized on the statements of financial positions, the maximum exposure to credit risk equal with their carrying amount (without taking into account any collateral held).

Managing Non-Performing Credits

Non-performing credits are centrally managed by an independent unit, *Special Asset Management* (SAM). SAM consists of two units:

1. The Restructuring Unit which proactively manages the non-performing credits. Its primary goal is to handle non-performing credits back to health so that these accounts can be transferred back to the Business Units; and
2. The Recovery Group which manages non-performing credits with the primary goal to maximize debt recovery.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kredit (lanjutan)

3. Pengelolaan dan Pemantauan Portofolio Kredit (lanjutan)

Eksposur Kredit pada Basel II

Saat ini Bank menggunakan Pendekatan Standar berdasarkan Basel II dalam mengukur aktiva tertimbang menurut risiko (ATMR) untuk risiko kredit. Informasi dan pedoman rating ATMR untuk risiko kredit diatur dalam Kebijakan Klasifikasi Aset.

Pada pendekatan standar, eksposur Bank dibagi menjadi 11 klasifikasi aset dan portofolio, sebagai berikut:

- a. Pemerintah
- b. Entitas Sektor Publik Bukan Pemerintah Pusat
- c. Bank Pembangunan Multilateral
- d. Bank
- e. Korporasi
- f. Karyawan/Pensiunan
- g. Kredit Beragunan Rumah Tinggal
- h. Kredit Beragunan *Real Estate* Komersial
- i. Klaim yang telah jatuh tempo
- j. Aset Lainnya
- k. Kredit pada Bisnis Mikro, Bisnis Kecil, dan Portofolio Ritel

Saat ini, Bank hanya mengakui peringkat internasional dari *Moody's*, *Standard* and *Poor* dan *Fitch*.

Pengembangan Infrastruktur dan Persiapan Penerapan Basel II

Bank saat ini telah menerapkan penggunaan model *Internal Rating* pada segmen *Wholesale* sebagai langkah awal untuk mempersiapkan penerapan Basel II dengan pendekatan *Internal Rating*. Untuk tujuan ini, perangkat tambahan yang signifikan telah dibuat pada sistem, proses, dan praktik manajemen risiko Bank untuk mencapai kepatuhan terhadap Basel II.

Eksposur maksimum aset keuangan Bank untuk risiko kredit sebelum memperhitungkan agunan dan jaminan kredit lainnya adalah sebesar nilai tercatatnya (*carrying value*). Lihat Catatan 39 untuk informasi mengenai *carrying value* dan nilai wajar dari instrumen keuangan Bank.

38. Risk Management Policies (continued)

Credit Risk (continued)

3. Management and Monitoring of Credit Portfolio (continued)

Credit exposures under Basel II

Bank currently uses the Standardized Approach under Basel II to measure the risk weighted asset (RWA) for credit risk. The information and guidelines of rating for RWA for credit risk is regulated in the Asset Classification Policy.

Under the Standardized Approach, Bank's exposures are classified into 11 asset classifications and portfolios, as follows:

- a. Sovereign
- b. Non Central Government Public Sector Entities
- c. Multilateral Development Bank
- d. Banks
- e. Corporate
- f. Employee/Retiree
- g. Claim Secured by Residential Property
- h. Claim Secured by Commercial Real Estate
- i. Overdue Claims
- j. Other Assets
- k. Claims on Micro Business, Small Business, and Retail Portfolio

Currently, Bank only recognizes international ratings from *Moody's*, *Standard's* and *Poor* and *Fitch*.

Development of Infrastructures and Preparation of Basel II Internal Rating Based Implementation

The Bank has implemented Internal Rating model on the Wholesale segment as an initiation step to prepare the implementation of Basel II Internal Rating Approach. To this end, significant enhancements have been made to the Bank's risk management systems, processes and practices to achieve Basel II IRB compliance.

The Bank's financial asset's maximum exposure to credit risk before taking into account any collateral and other credit enhancements is its carrying value. Please refer to Note 39 for the information regarding the carrying value and fair value of the Bank's financial instruments.

Bank melakukan penilaian terhadap 3 (tiga) pilar dalam menilai aset keuangan yang mengalami pemburukan. Ke-3 (tiga) pilar tersebut adalah prospek bisnis, kinerja debitur dan kemampuan bayar debitur, dimana hal tersebut sesuai dengan kebijakan regulator.

Bank memperhitungkan agunan yang layak dalam menghitung Cadangan Kerugian Penurunan Nilai (CKPN). Agunan yang layak yang diperhitungkan oleh Bank adalah kas/setara kas, tanah & bangunan dan vessel.

Risiko Pasar

Risiko pasar adalah risiko kerugian yang timbul dari pergerakan variabel pasar pada posisi yang dimiliki oleh Bank yang dapat menimbulkan kerugian bagi Bank. Variabel *market* yang mempengaruhi posisi Bank adalah suku bunga dan nilai tukar termasuk perubahan harga *option*.

38. Risk Management Policies (continued)

Credit Risk (continued)

3. Management and Monitoring of Credit Portfolio (continued)

The aging analysis of past due but not impaired loans on December 31, 2014 and 2013:

The Bank uses 3 (three) pillars approach in assessing financial assets that are past due or impaired. Those 3 (three) pillars are business prospect, performance of the borrower and repayment capability which is in line with the regulatory requirement.

The Bank takes into account the eligible collaterals in calculating the impairment loss. The eligible collaterals that recognized by Bank are cash/cash equivalents, land & buildings and vessels.

Market Risk

Market risk is the risk of loss arising from movements in market variables on the position held by the Bank which can result in losses for the Bank. Market variables that influence the position of the Bank are interest rates and exchange rates, including changes in the price of the option.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Pasar (lanjutan)

Kerangka kerja risiko pasar Bank terdiri dari kebijakan dan praktek risiko pasar, pendelegasian wewenang dan limit risiko pasar, validasi atas penilaian dan model risiko, dll. Kerangka kerja ini juga meliputi proses produk / aktivitas baru untuk memastikan isu-isu risiko pasar telah diidentifikasi secara memadai sebelum diluncurkan.

Direksi mendelegasikan wewenang kepada Komite Aktiva dan Pasiva ("ALCO") untuk melakukan pengawasan aktif terhadap manajemen risiko pasar. ALCO melakukan kajian dan memberikan arahan atas seluruh hal terkait risiko pasar.

Bank telah menetapkan tugas dan tanggung jawab pada setiap tingkat pada posisi yang terkait pelaksanaan manajemen risiko pasar disesuaikan dengan tujuan, kebijakan bisnis, ukuran, dan kompleksitas Bank. Tugas dan tanggung jawab ini terdapat pada Kebijakan Manajemen Risiko Pasar.

Bank menggunakan Pendekatan Standar untuk menghitung modal risiko pasar sesuai dengan ketentuan Bank Indonesia tentang Kewajiban Penyediaan Modal Minimum. Bank memiliki modal yang kuat dengan rasio kecukupan modal sebesar 15.72% pada tanggal 31 Desember 2014, melebihi dari persyaratan minimum Bank Indonesia sebesar 8%. Modal Bank lebih dari cukup untuk menutup potensi kerugian yang mungkin timbul dari fluktuasi tingkat bunga dan nilai tukar.

Secara internal, risiko pasar diukur dan dikendalikan menggunakan model internal. Bank mengadopsi Value at Risk (VaR) menggunakan simulasi historis untuk mengukur potensi kerugian pada tingkat kepercayaan 99% dengan menggunakan data historis 300 hari. Perkiraan VaR diuji kembali dengan menggunakan data laba dan rugi pada buku perdagangan untuk memvalidasi keakuratan metodologi tersebut. Proses pengujian kembali ini dilakukan guna menganalisa apakah penyimpangan yang terjadi disebabkan oleh kelemahan pada model perhitungan atau karena pergerakan pasar. Seluruh penyimpangan pada model ditangani dengan penyempurnaan model tersebut. Untuk melengkapi pengukuran VaR, *stress test* dilakukan pada portofolio buku perdagangan untuk mengidentifikasi ketahanan Bank dalam kondisi krisis.

38. Risk Management Policies (continued)

Market Risk (continued)

The Bank's market risk framework comprises market risk policies and practices, delegation of authority and market risk limits, validation of valuation and risk models, etc. This framework also encompasses the new product / service program process to ensure the identified market risk issues are adequately addressed prior to launch.

The Board of Directors delegates authority to the Assets and Liabilities Committee (ALCO) to active monitoring on market risk management. ALCO reviews and provide direction on all market risk related matters.

The Banks has established the roles and responsibilities on each level of the position which related to the implementation of market risk management tailored with the purpose, business policy, size and complexity of the Bank. The roles and responsibilities are clearly stated in the Market Risk Management Policy.

The Bank adopts the Standardized Approach to calculate the regulatory market risk capital in compliance with Bank Indonesia's regulation on Capital Adequacy Ratio. The Bank has a strong capital base with Capital Adequacy Ratio of 15.72% as of December 31, 2014, which is higher than Bank Indonesia's minimum requirement of 8%. The Bank's capital is more than sufficient to cover any potential loss that might arise from interest rate and exchange rate fluctuations.

Internally, the market risk is measures and controls are based on internal models. The bank adopts the historical simulation Value at Risk (VaR) to measure the potential loss at a 99% confidence level using 300 days historical price changes. VaR estimates are back tested against profit and loss of trading book to validate the robustness of the methodology. The back testing process analyses whether the exceptions are due to model deficiencies or market volatility. All model deficiencies are addressed with appropriate model enhancements. To complement the VaR measurement, stress test is performed on the trading portfolio in order to identify the Bank's vulnerability in the event of crisis.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Pasar (lanjutan)

Perhitungan VaR telah memperhitungkan faktor korelasi antar instrumen pada seluruh posisi trading book Bank. (tidak diaudit)

2014				
	Akhir Tahun/ Year end	Tinggi/ High	Rendah/ Low	Rata-rata/ Average
	SGD Thousand	SGD Thousand	SGD Thousand	SGD Thousand
Total VaR	137	1.508	75	479
2013				
	Akhir Tahun/ Year end	Tinggi/ High	Rendah/ Low	Rata-rata/ Average
	SGD Thousand	SGD Thousand	SGD Thousand	SGD Thousand
Total VaR	85	682	85	268

a. Risiko Nilai Tukar

Risiko nilai tukar adalah risiko pada pendapatan dan nilai ekonomis dari aset, kewajiban, dan derivatif keuangan dalam mata uang asing yang disebabkan oleh fluktuasi nilai tukar.

Risiko nilai tukar dikelola melalui kebijakan dan limit risiko yang disetujui oleh ALCO. Limit tersebut meliputi limit *Value-at-Risk*, limit FX NOP, limit PV01, eksposur berdasarkan mata uang, maksimum tenor, dan lainnya. Divisi *Market Risk Management & Control* secara harian memantau aktivitas risiko pasar dan/atau eksposur terhadap limit yang telah disetujui oleh ALCO, dan melaporkan kejadian pelampauan limit kepada pejabat terkait untuk mendapatkan persetujuan/pengesahan.

Risiko nilai tukar Bank dinilai relatif rendah dikarenakan posisi devisa netto (PDN) Bank tercatat rendah, dimana pada akhir Desember 2014 hanya tercatat 1,37% dari permodalan Bank. Perubahan *foreign exchange* sebesar 1% diperkirakan akan berdampak pada potential kerugian Bank pada PDN sebesar Rp1,46 miliar.

b. Risiko Suku Bunga di Catatan Perbankan

Risiko Suku Bunga pada Banking Book didefinisikan sebagai risiko potensi penurunan atau kerugian pada rentabilitas (pendapatan bunga bersih) dan modal (nilai ekonomis Bank) akibat perubahan dari suku bunga.

38. Risk Management Policies (continued)

Market Risk (continued)

VaR calculation already include correlation factors cross instruments in trading book portfolios. (unaudited)

a. Foreign Exchange Risk

Foreign exchange risk is the risk to earnings and economic value of foreign currency assets, liabilities and financial derivatives caused by fluctuation in foreign exchange rates.

Foreign exchange risk is managed through policies and risk limits approved by the Asset and Liability Committee ("ALCO"). The limits include Value-at-risk limit, FX NOP Limit, PV01 Limit, exposure by currency, maximum tenures and etc. Market Risk Control ("MRC") Unit on a daily basis monitors market risk activities and/or exposures against the approved ALCO limits, and escalates any excesses to appropriate channel for approval/ratification.

Foreign exchange risk is low as Bank Net Open position (NOP) recorded very low, which at end of month December 2014 the NOP has recorded only 1.37% from total capital. Changes on foreign exchanges volatility of 1% is expected to have an impact on the Bank's potential losses amounting to Rp1.46 billion.

b. Interest Rate Risk in Banking Book

Interest Rate Risk in the Banking Book is defined as the risk of potential reduction in or loss of earnings (net interest income) and capital (the economic value of the Bank) due to changes in interest rates environment.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Pasar (lanjutan)

b. Risiko Suku Bunga di Catatan Perbankan (lanjutan)

Eksposur dinilai secara bulanan menggunakan analisa statis, seperti jadwal repricing dan analisa sensitivitas. Perangkat tersebut dapat memberikan indikasi atas dampak potensial perubahan suku bunga pada pendapatan bunga dan harga melalui analisa sensitivitas pada aktiva dan pasiva ketika suku bunga mengalami perubahan. Kesenjangan pada tenor yang lebih panjang akan mengalami perubahan *price-value* yang lebih besar dibandingkan dengan posisi serupa pada tenor yang lebih pendek.

Nilai ekonomis pada ekuitas (EVE) diterapkan untuk mengukur risiko suku bunga dari perubahan suku bunga menggunakan berbagai macam skenario suku bunga, seperti perubahan bentuk pada kurva suku bunga, yang meliputi skenario perubahan suku bunga yang tertinggi dan terendah.

Stress testing juga dilakukan secara berkala untuk menentukan kecukupan modal dalam memenuhi dampak ekstrim perubahan suku bunga pada neraca. Tes tersebut juga dilakukan guna memberikan peringatan dini atas potensi kerugian ekstrim, guna mendukung pengelolaan risiko suku bunga secara pro-aktif dalam menyesuaikan perubahan pada pasar keuangan yang cepat.

EVE Bank per posisi 31 Desember 2014 tercatat sebesar Rp63,27 miliar dengan PV01 banking book sebesar Rp372 juta. Pergerakan 1 bps pada suku bunga pasar akan memberikan dampak potensial kerugian pada Bank sebesar Rp372 juta.

38. Risk Management Policies (continued)

Market Risk (continued)

b. Interest Rate Risk in Banking Book (continued)

Exposure is quantified on a monthly basis using static analysis tools, such as repricing schedules and sensitivity analysis. They provide indications of the potential impact of interest rate changes on interest income and price value through the analysis of the sensitivity of assets and liabilities to changes in interest rates. Mismatches in the longer tenor will experience greater change in the price-value of interest rate positions than similar positions in the shorter tenor.

Economic value of equity (EVE) is applied to measure the interest rate risk of interest rate changes using a variety of interest rate scenarios, such as changes in shape of the curve of interest rates, which include changes in the interest rate in the highest and the lowest scenario.

Stress testing is also performed regularly to determine the adequacy of capital in meeting the impact of extreme interest rate movements on the balance sheet. Such tests are also performed to provide early warnings of potential extreme losses, facilitating the proactive management of interest rate risks in an environment of rapid financial market changes.

Economic value of equity (EVE) Bank as of December 31, 2014 has recorded as Rp63.27 billion and PV01 banking book has recorded Rp372 million. Changes on 1 bps on market interest rate is expected to have an impact on the Bank's potential losses amounting to Rp372 million.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Likuiditas

Risiko likuiditas didefinisikan sebagai risiko terhadap pendapatan atau modal Bank dari ketidakmampuan Bank untuk memenuhi kewajiban keuangannya atau peningkatan dana pada aset ketika jatuh tempo, tanpa menimbulkan biaya atau kerugian yang signifikan.

Pengukuran utama yang digunakan oleh Bank dalam mengelola risiko likuiditas adalah dengan menggunakan proyeksi arus kas dengan skenario *'business as usual'*, *'bank-specific crisis'* dan *'general market crisis'*, serta rasio-rasio likuiditas sebagai indikator peringatan dini (*early warning indicator*) seperti rasio penurunan simpanan bukan bank, LDR, rasio 50 dan 20 nasabah besar bukan bank, rasio pendanaan melalui swap, rasio *undrawn facility*, dan rasio 20 nasabah besar bank. Proyeksi arus kas menggunakan *behavioral modelling* untuk memastikan arus kas telah mencerminkan perilaku kegiatan bisnis dalam kondisi normal. Disamping itu Bank juga melakukan pemantauan secara berkala terhadap stabilitas pendanaan inti (*core deposits*) yang terdiri dari dana-dana stabil bukan bank seperti giro, tabungan, dan deposito melalui analisa terhadap volatilitasnya.

Di akhir triwulan IV tahun 2014 Bank berhasil meningkatkan simpanan nasabah menjadi sebesar Rp63,24 triliun meningkat 10,19% dibandingkan dengan simpanan nasabah di akhir tahun 2013. Tabungan naik sebesar 4,64% menjadi Rp9,83 triliun, deposito meningkat sebesar 8,2% menjadi Rp46,15 triliun dan giro meningkat sebesar 35,9% menjadi Rp7,25 triliun di akhir triwulan IV - 2014. *Loan Deposit Ratio*, yaitu rasio kredit yang diberikan terhadap simpanan nasabah Bank sebesar 89,27%. Bank secara berkesinambungan akan terus menjaga tingkat LDR agar berada dalam kisaran yang sehat dan mempertahankan KPMM diatas 14%.

Disamping itu pengukuran dan pemantauan terhadap analisa gap, limit-limit yang ditetapkan, *stress testing*, dan kebijakan Rencana Pendanaan Darurat dilaksanakan secara konsisten.

38. Risk Management Policies (continued)

Liquidity Risk

Liquidity risk is defined as the risk to a bank's earnings or capital from its inability to meet its obligations or fund the increase in assets as they fall due, without incurring significant costs or losses.

The key measures used by the Bank for managing liquidity risk are using cash flow projection under 'business as usual', 'bank-specific crisis' and 'general market crisis' scenarios, also by monitoring the liquidity ratios as early warning indicator i.e. percentage decreased in non-bank deposits, LDR, Top 50 and 20 non-bank depositors ratios, swap funding ratio, undrawn facility ratio, and Top 20 bank depositor. Cash flow projection is using behavioral modelling to ensure the cash flow reflect the business-as-usual behavior. Besides, the Bank also monitors the stability of its 'core deposits' on regular basis which consist of stable non-bank deposits such as current account, savings account, and fixed deposit by analyzing their volatility overtime.

At the end of fourth quarter 2014, the Bank's able to increase its customer's deposits to Rp63.24 trillion up by 10.19% compared to the end of 2013. Saving account increased by 4.64% to Rp9.83 trillion, fixed deposit increased by 8.2% to Rp46.15 trillion and current account increased by 35.9% to Rp7.25 trillion by the end of 4th quarter - 2014. Loan Deposit Ratio which identifies the extent to which the Bank's loans are funded by customer's deposits was 89.27%. The Bank will continuously maintain the LDR in soundness range and as well as maintain the CAR above 14%.

In addition to the above measurement and monitoring of the gap analysis, defined limits, stress testing, and Contingency Funding Plan are consistently implemented.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Likuiditas (lanjutan)

Rencana Pendanaan Darurat menjadi komponen penting dalam kerangka kerja manajemen likuiditas dan berfungsi sebagai perpanjangan atas kebijakan operasional atau manajemen likuiditas sehari-hari. Walaupun Bank memantau kebutuhan likuiditas dan pendanaan secara berkala, penting juga untuk mengetahui kejadian yang tak terduga, kondisi ekonomi dan pasar, masalah pendapatan atau situasi di luar kendali yang dapat menyebabkan krisis likuiditas. Rencana Pendanaan Darurat menguraikan tindakan yang harus diambil oleh Bank pada saat terjadi krisis likuiditas dan akan diaktifkan jika terjadi krisis atau stress likuiditas. Hal ini berfungsi untuk mengidentifikasi dan mengetahui potensi krisis likuiditas, menentukan tanggung jawab dan tindakan manajemen yang terkait pada saat krisis, memperbaiki area yang menjadi perhatian, dan memastikan bahwa arus informasi dapat tepat waktu sehingga dapat memfasilitasi pengambilan keputusan secara cepat dan efektif.

Tingkat kerumitan dan detail dari rencana tersebut disesuaikan dengan kompleksitas, eksposur risiko, aktivitas, produk, dan struktur organisasi Bank untuk menentukan indikator yang paling relevan untuk digunakan dalam mengelola likuiditas dan pendanaan. Selain itu, Bank juga telah menetapkan *Liquidity Working Group Team* ("LWG") yang bertanggung jawab untuk mengevaluasi posisi likuiditas dan menentukan tindakan yang akan diambil pada saat terjadi krisis.

Analisa mengenai kebutuhan pendanaan bersih melibatkan penyusunan laporan ketidaksesuaian arus kas berdasarkan jatuh tempo (kontraktual) aktual dari arus kas tersebut. Profil arus kas kontraktual mengalokasikan aset-aset, kewajiban-kewajiban, dan rekening administratif ke dalam jangka waktu berdasarkan sisa jatuh tempo aset, kewajiban, dan rekening administratif tersebut.

38. Risk Management Policies (continued)

Liquidity Risk (continued)

The Contingency Funding Plan (CFP) is a critical component of the liquidity management framework and serves as an extension of the Bank's operational or daily liquidity management policy. Although the Bank periodically monitors liquidity and funding requirements, it is important to recognize the unexpected events, economic or market conditions, earnings problems or situations beyond its control that could cause a liquidity crisis. The CFP outlines the actions that are to be taken by the Bank in the event of a liquidity crisis and would be activated in the event of a liquidity stress situation. It serves to identify and recognize a liquidity crisis, define the appropriate management responsibilities and responses during a crisis, rectify areas of concern, and ensure that information flows remain timely and uninterrupted to facilitate quick and effective decision-making.

The level of sophistication and detail of the plan would commensurate with the complexity, risk exposure, activities, products and organisational structure of the Bank to identify the indicators that are most relevant to its management of liquidity and funding. In addition, the Bank also has established a Liquidity Working Group Team ("LWG") which is responsible to evaluate the liquidity position and decides the actions to be taken when crisis occurs.

The cash flow analysis of net funding requirement involves the preparation of cash flow mismatch based on actual contractual maturity. Contractual cash flow profiles the asset allocation, liabilities, and off balance sheet items into time band by remaining maturity.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Likuiditas (lanjutan)

Selain itu Bank juga membuat laporan ketidaksesuaian arus kas berdasarkan asumsi behavioral. Arus kas ini terkait dengan pola perilaku dari aset, kewajiban, dan rekening administratif yang dimilikinya dan memproyeksikan potensi arus kas berdasarkan asumsi-asumsi yang didapat dari pola perilaku tersebut. Potensi arus kas tersebut secara khusus terkait dengan karakteristik produk, seperti apakah produk tersebut biasanya diperpanjang setelah jatuh tempo, kecenderungan penarikan lebih awal pada deposito atau pola secara historis perpanjangan deposito. Dari analisa arus kas secara behaviour ini, diperoleh gap Net Cash Outflow (NCO) yang diperkirakan akan dihadapi Bank. Selama periode Januari sampai dengan Desember 2014, besarnya gap NCO masih berada dalam limit yang telah ditetapkan dan dalam toleransi Bank.

Tabel jatuh tempo aset dan liabilitas Bank berdasarkan jangka waktu kontraktual yang tersisa dapat dilihat pada Catatan 37.

Risiko Operasional

Risiko operasional didefinisikan sebagai risiko yang terjadi sebagai akibat dari ketidakcukupan atau kegagalan proses internal, manusia dan sistem atau dari peristiwa eksternal. Potensi kerugian dapat berupa kerugian finansial atau dampak buruk lainnya, misalnya, kehilangan reputasi dan kepercayaan publik yang berdampak pada kredibilitas Bank dan kemampuan untuk bertransaksi, menjaga likuiditas dan memperoleh bisnis baru.

Bank telah menetapkan Kerangka kerja Manajemen Risiko Operasional yang mencakup seperangkat Struktur Tata Kelola Risiko Operasional, Kebijakan dan Standar Manajemen Risiko, budaya dan kesadaran risiko, identifikasi risiko, pengukuran risiko, pemantauan risiko, pengendalian risiko, kaji ulang dan audit risiko, pelaporan risiko, dan modal yang dipersyaratkan. Ambang batas meliputi, namun tidak terbatas pada hal-hal berikut: pernyataan kuantitatif dan kualitatif terkait hal-hal yang tidak dapat ditoleransi atau dibiarkan oleh Bank, *Risk Appetite*, *Risk Assessment Matrix*, *Key Operational Risk Indicators*, *Materiality & Notification Protocol*, *GOCEQ (General Operating & Control Environment Questionnaire)*, *Deductible/Limits* untuk pembelian asuransi, dan lain-lain.

38. Risk Management Policies (continued)

Liquidity Risk (continued)

Besides, the Bank also produce the cash flow mismatch report based on behavior assumption. The cash flow related to behavior analysis of asset, liabilities, off balance sheet and projecting the potential cash flow based on assumptions which derived from the behavior patterns. Potential cash flow are specifically associated with product characteristic, such as whether the product is renewed, early redemption for fixed deposit or the historical trend of fixed deposit's rolled over. From the behaviour cash flow analysis, which obtain the expected Net Cumulative Outflow (NCO) gap that will be encountered by the Bank. During January until December 2014, the NCO gap is within the limit and Bank's tolerance.

Table maturity of Bank's asset and liabilities based on contractual can be seen in Note 37.

Operational Risk

Operational Risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Potential loss may be in the form of financial loss or other damages, for example, loss of reputation and public confidence that will impact the Bank's creditability and ability to transact, maintain liquidity and obtain new business.

The Bank has established an Operational Risk Management Framework that comprises risk governance structure, risk policies and standards, risk culture and awareness, risk identification, assessment, monitoring and control, loss data, risk mitigation program, risk reviews and audit, risk reporting, and regulatory capital. Operational Risk thresholds have been established. The thresholds include, but are not limited to the following: Quantative statements on what the Bank is not willing to tolerate or condone, Risk Appetite, Risk Assessment Criteria Matrix, Key Operating Risk Indicators and thresholds, Materiality & Notification Protocol, GOCEQ (General Operating & Control Environment Questionnaire), Deductible/Limits for insurance cover purchased, etc.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Operasional (lanjutan)

Beberapa langkah dan inisiatif berikut ini telah dilakukan untuk meningkatkan kemampuan Bank dalam mengelola risiko operasional:

- Membentuk dan melaksanakan *Operational Risk Management Committee* (ORMC) yang berfungsi sebagai forum diskusi untuk membahas berbagai permasalahan terkait risiko operasional
- Membuat dan mereview seluruh kebijakan dan pedoman yang berkaitan dengan manajemen risiko operasional
- Merevisi ORM Risk Assessment Matrix Mengembangkan metode pelaporan risiko operasional melalui pengembangan ORM Risk Dashboard, ORM Risk Heat Maps dan ORM Business/Support Functions Risk Dashboard
- Implementasi perangkat kerja ORM seperti Key Risk Control Self Assessment (KRCSA), General Operating & Control Environment Questionnaire (GOCEQ), Key Operational Risk Indicator (KORI), Operational Risk Self Declaration (ORSD) dan Event Risk reporting (ERR) & scenario analysis yang dilakukan untuk mengidentifikasi risiko dan kontrol yang melekat dalam proses operasional utama pada semua unit dan cabang.
- Melakukan validasi hasil penilaian perangkat risiko operasional, terutama KRCSA, GOCEQ dan KORI melalui kaji ulang ke sejumlah cabang yang dijadikan sampling untuk melihat tingkat kepatuhan cabang terhadap prosedur dan kontrol.
- Mengembangkan strategi pemulihan dalam menghadapi bencana yang meluas (*Wide Area Disruption*) untuk Jakarta.
- Memberikan pembekalan dan pelatihan kepada *Quality Assurance* (QA) pada setiap cabang dan menyelenggarakan forum ORISCO (Operational Risk Coordinator) secara periodik untuk meningkatkan kesadaran risiko secara bankwide.
- Membuat ORM e-Learning, video anti fraud & Fraud e-Learning untuk meningkatkan kewaspadaan staf atas ancaman tindakan fraud.
- Membantu unit kerja dalam melakukan kaji ulang atas sejumlah produk/aktivitas/prosedur baru.

38. Risk Management Policies (continued)

Operational Risk (continued)

The following processes and initiatives were carried out to improve the Bank's capability in managing its operational risk:

- Establish and implement Operational Risk Management Committee (ORMC) which is as a forum to discuss various issues related to operational risk
- Create and review all policies and guidelines relating to Operational Risk Management
- Revise ORM Risk Assessment Matrix Develop operational risk reporting method through the development of the ORM Risk Dashboard, ORM Risk Heat Maps and ORM Business / Support Functions Risk Dashboard
- The implementation of Operational Risk Management tools e.g Key Risk Control Self Assessment (KRCSA), General Operating & Control Environment Questionnaire (GOCEQ), Key Operational Risk Indicator (KORI), Operational Risk Self Declaration (ORSD) dan Event Risk reporting (ERR) & scenario analysis to identify the risks and controls in key operational processes for all units and branches.
- Validate the assessment results of operational risk tools, particularly KRCSA, GOCEQ and KORI through sample reviews of several branches to measure the compliance level of procedures and controls Branch
- Develop recovery strategy of Wide Area Disruption for Jakarta.
- Conduct briefing and training for Quality Assurance (QA) staff in branches and conduct periodically ORISCO (Operational Risk Coordinator) forum to increase bankwide risk awareness.
- Develop ORM e-Learning, anti fraud video and Fraud e-Learning to improve staff awareness to prevent/avoid fraud
- Assist units in reviewing new products/activities/procedures.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Operasional (lanjutan)

Beberapa langkah dan inisiatif berikut ini telah dilakukan untuk meningkatkan kemampuan Bank dalam mengelola risiko operasional: (lanjutan)

- Latihan Kelangsungan Bisnis/ *Business Continuity Plan Exercise* seperti:
 - a. Secara berkelanjutan terus memperbaiki kualitas *Business Impact Analysis* (BIA) dan *Business Continuity Plan* (BCP) dari lini bisnis dan pendukung.
 - b. Simulasi/Latihan Rencana Kelangsungan Bisnis (*Business Continuity Plan/ BCP*).
 - c. *Disaster Recovery Exercise* untuk sistem IT.
 - d. Simulasi/Latihan *Call Tree* untuk Manajemen dan unit.
 - e. *Table top exercise* untuk Komite BCM (*Business Continuity Management*)

Risiko Kepatuhan

Risiko kepatuhan didefinisikan sebagai yang timbul akibat Bank tidak mematuhi dan/atau tidak melaksanakan peraturan perundang-undangan dan ketentuan yang berlaku.

Fungsi kerja Kepatuhan telah menetapkan langkah-langkah berikut untuk mengurangi dan mengelola risiko kepatuhan terhadap peraturan:

A. Kebijakan dan Prosedur Kepatuhan

Sejalan dengan Peraturan yang berlaku, Kebijakan Kepatuhan telah dirumuskan untuk menentukan cakupan, prinsip-prinsip dan tanggung jawab untuk pengelolaan yang efektif dari fungsi kepatuhan. Pokok-pokok pengaturan kepatuhan beserta tujuan pengaturannya adalah sebagai berikut:

1. Fungsi Kepatuhan Bank

Mengatur mengenai Kerangka Pikir Fungsi Kepatuhan Bank (*Compliance Framework*) serta peran dan tanggung jawab seluruh *stakeholders*.

2. Prosedur Pengkajian dan Pengujian Kepatuhan

Mengatur mengenai mekanisme identifikasi kekurangan atau kelemahan kontrol pada kebijakan, ketentuan, sistem, dan prosedur internal Bank serta mekanisme pemantauan risiko kepatuhan dengan pendekatan berbasis risiko (*Risk-Based Approach*).

Operational Risk (continued)

The following processes and initiatives were carried out to improve the Bank's capability in managing its operational risk: (continued)

- *Business Continuity Plan Exercise*, as follows:
 - a. Continually improving the quality of *Business Impact Analysis* (BIA) and *Business Continuity Plan* (BCP) from line of business and support
 - b. Simulation/ exercise of *Business Continuity Plan* (*Business Continuity Plan/ BCP*).
 - c. *Disaster Recovery Exercise* for IT system.
 - d. *Call Tree simulation/exercise* for Management and units
 - e. *Table top exercise* for BCM (*Business Continuity Management*) Committee

Compliance Risk

Compliance risk is defined as the risk that occurs due to Bank's failure to comply with and/or implement the prevailing laws and regulations.

The Compliance Function has put in place the following measures to mitigate and manage the regulatory compliance risk:

A. Compliance Policies and Procedures

In line with the Regulations, the Compliance Policy is formulated to define the scope, principles and responsibilities for the effective management of the compliance function. The Principal regulations as well as its objectives are as follow:

1. Bank's Compliance Function

Regulating the Bank's Compliance Framework as well as the roles and responsibilities of all stakeholders.

2. Procedures for the Compliance Review and Testing

Regulating the mechanism to identify control deficiencies or weaknesses in the Bank's internal policies, provisions, systems and procedures as well as the mechanism of risk-based approach compliance risk monitoring.

Risiko Kepatuhan (lanjutan)

A. Kebijakan dan Prosedur Kepatuhan (lanjutan)

3. Prosedur Pemantauan Komitmen Bank dan Tindak Lanjut atas Permintaan dari Regulator Terkait

Mengatur mengenai mekanisme pemenuhan kepatuhan dan pelaksanaan terhadap komitmen yang dibuat oleh Bank kepada Bank Indonesia (BI) dan Otoritas Jasa Keuangan (OJK).

4. Prosedur Pengeskalasian dan Pelaporan Kejadian Risiko Kepatuhan

Mengatur mengenai mekanisme pelaporan yang tepat waktu untuk setiap pelanggaran atau ketidakpatuhan terhadap peraturan perundang-undangan dan ketentuan yang berlaku.

5. Prosedur Penyusunan Ketentuan Internal Bank

Mengatur mengenai mekanisme penyusunan sistem, prosedur maupun ketentuan internal Bank lainnya yang disusun oleh setiap fungsi kerja.

6. Ketentuan-Ketentuan yang Terkait dengan Fungsi Kepatuhan

Memberikan informasi mengenai Ketentuan-Ketentuan yang terkait dengan pelaksanaan Fungsi Kepatuhan Bank.

Direktur Kepatuhan melalui Divisi Kepatuhan juga telah menetapkan dan menerapkan kebijakan berupa Surat Edaran No.12/CMP/0005 perihal Pengurangan Nilai *Key Performance Indicator* (KPI) Sehubungan dengan Pengenaan Sanksi dari Regulator.

38. Risk Management Policies (continued)

Compliance Risk (continued)

A. *Compliance Policies and Procedures (continued)*

3. *Procedures in Monitoring the Bank's Commitment and Follow-up on Requests from Related Regulator*

Regulating the mechanism of compliance fulfilment and implementation towards the commitments made by the Bank to Regulator, e.g Bank Indonesia (BI) and Otoritas Jasa keuangan (OJK).

4. *Procedures in Escalating and Reporting Compliance Risk Events*

Regulating the reporting mechanism in a timely manner for each breach or violation towards the prevailing laws, regulations and provisions.

5. *Procedures in Drafting Bank's Internal Provision*

Regulating the mechanism in drafting the Bank's internal systems, procedures or other provisions prepared by each work function.

6. *Provisions Related to Compliance Function*

Providing information on provisions related to the implementation of Bank's Compliance Function.

Compliance Director through Compliance Division has also stipulated and implemented a policy in the form of Circular Letter No.12/CMP/0005 concerning Deduction of Key Performance Indicator (KPI) Value Related to Sanctions Imposed by Regulator.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kepatuhan (lanjutan)

B. Pemantauan Indikator Keuangan

Beberapa indikator kunci seperti rasio persyaratan modal minimum, kualitas aktiva produktif, rasio NPL, batas maksimum pemberian kredit, persyaratan giro wajib minimum, *loan to deposit ratio* dan posisi devisa neto telah dibentuk untuk memantau dan mengidentifikasi risiko kepatuhan potensial yang mungkin timbul jika Bank gagal untuk memenuhinya.

Divisi *Operational Risk Management* bekerja sama dengan Divisi Kepatuhan untuk melaporkan setiap potensi pelanggaran atau pelanggaran atas ketentuan yang berlaku. Secara berkesinambungan, Bank meningkatkan pengelolaan risiko kepatuhan terhadap peraturan. Selama tahun 2014, masih terdapat pengenaan sanksi dari Bank Indonesia atas kesalahan yang bersifat administratif. Kelemahan yang menimbulkan pengenaan sanksi secara umum ialah *human error* dalam penyusunan dan penyampaian laporan-laporan reguler kepada Bank Indonesia, seperti Laporan Harian Bank Umum (LHBU), Laporan Bulanan Bank Umum (LBBU) dan Laporan Kantor Pusat Bank Umum (LKPBUB). Dalam mengelola risiko kepatuhan yang timbul dari pengenaan sanksi tersebut, manajemen Bank senantiasa secara aktif memberikan pengarahan dan himbauan agar Bank memelihara seluruh aktivitas bisnis dan operasionalnya tetap mematuhi ketentuan-ketentuan yang berlaku.

Sebagai langkah proaktif, pada Triwulan III 2014 Divisi Kepatuhan telah memulai program sosialisasi kepada Kantor-kantor Cabang terkait untuk meningkatkan awareness para pegawai dan pejabat penyusun dan pemeriksa pelaporan reguler perihal pentingnya *dual control*.

Fungsi kerja Kepatuhan telah merevisi Pedoman Implementasi Program Anti Pencucian Uang dan Pencegahan Pendanaan Terorisme, memfasilitasi pengkinian dan pengembangan materi pelatihan AML/CFT, melakukan revisi terhadap prosedur Pedoman Laporan Transaksi Keuangan Mencurigakan dan Transaksi Keuangan Tunai, dan membentuk Unit Kerja Khusus sebagai salah satu unit kerja yang membantu memastikan pengawasan dan pelaksanaan program Anti Pencucian Uang dan Pencegahan Pendanaan Terorisme.

38. Risk Management Policies (continued)

Compliance Risk (continued)

B. Monitoring the Financial Indicator

Several key indicators such as minimum capital adequacy ratio, earning asset quality, NPL ratio, legal lending limit, statutory reserve requirement, loan to deposit ratio and net open position have been established to monitor and identify potential compliance risks that may arise if the Bank fails to comply.

Operational Risk Management Division works collaboratively with Compliance Division to report any potential violation or breach of the prevailing regulations. On an ongoing basis, the Bank has progressively enhanced the management of regulatory compliance risks. Throughout 2014, there were still sanctions imposed by Bank Indonesia due to administrative errors. Weaknesses that caused the imposing of sanctions in general was due to human error in the preparation and submission of regular reports to Bank Indonesia, such as Commercial Bank Daily Report (LHBU), Commercial Bank Monthly Report (LBBU) and Commercial Bank Head Office Report (LKPBUB). In managing the compliance risk arising from the imposing of such sanctions, Bank's Management has actively given directives and guidance so that Bank continuously maintains all of its business and operational activities to remain compliant towards the prevailing provisions.

As a proactive step, in the third quarter 2014 Compliance Division has initiated a socialization program to the relevant branch offices to raise awareness of employees and executives who are preparer and reviewer of regular reportings on the importance of dual control.

Compliance function has revised the Anti Money Laundering and Countering the Financing of Terrorism (AML & CFT) Program Implementation Guidelines, facilitated the updating and development of AML/CFT Training material, revised the procedure on Suspicious Transaction Reporting and Cash Transaction Reporting Guidelines, as well as establishing a Special Work Unit as one of the work unit to assist in ensuring the supervision and implementation of AML/CFT program.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Kepatuhan (lanjutan)

B. Pemantauan Indikator Keuangan (lanjutan)

Selain hal di atas, Fungsi kerja Kepatuhan juga berperan penting sebagai penasihat dengan memberikan saran regulasi dan kepatuhan secara berkelanjutan kepada fungsi kerja bisnis dan fungsi kerja lainnya.

Risiko Strategik

Risiko strategik didefinisikan sebagai risiko akibat ketidaktepatan dalam pengambilan dan/atau pelaksanaan suatu keputusan strategik serta kegagalan dalam mengantisipasi perubahan lingkungan bisnis.

Kebijakan Manajemen Risiko Strategik telah ditetapkan guna memfasilitasi seluruh fungsi kerja dalam melakukan identifikasi, pengukuran, pemantauan, dan pelaporan risiko strategik.

Pengelolaan risiko strategik merujuk pada bagaimana Bank membuat suatu keputusan strategik untuk merespons segala perubahan lingkungan (internal dan eksternal) pada masa kini maupun pada masa yang akan datang, serta bagaimana modal dan sumber daya dialokasikan guna mencapai tujuan strategik Bank.

Secara berkelanjutan, Bank melakukan kaji ulang berkala atas pencapaian target keuangan dan realisasi strategi. Seluruh fungsi kerja bisnis juga bertanggung jawab untuk memantau risiko strategik pada areanya dan melaporkan secara tepat waktu kepada Komite Manajemen Risiko apabila terdapat isu potensial atau masalah yang memiliki implikasi strategik terhadap Bank.

Seluruh fungsi kerja bertanggungjawab untuk memantau risiko strategik.

Risiko Hukum

Risiko hukum didefinisikan sebagai risiko yang mungkin timbul dari kontrak yang tidak dapat diberlakukan/tidak menguntungkan/tidak sempurna/tidak diinginkan; gugatan atau klaim yang melibatkan Bank; perkembangan dalam hukum dan regulasi; dan ketidakpatuhan terhadap hukum, peraturan dan standar profesional yang berlaku.

38. Risk Management Policies (continued)

Compliance Risk (continued)

B. Monitoring the Financial Indicator (continued)

Apart from the above, Compliance Function also plays an important advisory role as it provides the business and other units with regulatory and compliance advice on an ongoing basis.

Strategy Risk

Strategic risk is defined as the risk due to poor setting and/or implementation of a strategic decision and failure to anticipate any changes in business environment.

Strategic Risk Management Policy has been established in order to support the identification, measurement, monitoring and reporting of strategic risk.

Strategic risk management refers to how the Bank makes strategic decisions in response to significant changes in the current and prospective environment (internal and external) and how it deploys capital and resources to achieve its Bank strategic goals.

On an on-going basis, the Bank performs periodic reviews on the achievement of financial targets and realized strategies. All business functions are also responsible for the monitoring of its strategic risks and reporting promptly to Risk Management Committee on any potential issues or problems that have strategic implications on the Bank.

All functions are responsible for the monitoring of strategic risk.

Legal Risk

Legal Risk is defined as risks that may arise from unenforceable/unfavorable/defective/ unintended contracts; lawsuits or claims involving the Bank; developments in laws and regulations; and non-compliance with applicable laws, rules, and professional standards.

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Hukum (lanjutan)

Bank melakukan pemantauan atas potensi risiko hukum yang mungkin timbul dari kelemahan sistem hukum atau adanya tuntutan hukum, ketiadaan peraturan perundangan yang jelas, ketidakjelasan dalam kontrak, perkara atau jaminan. Dalam pengelolaan risiko hukum, Bank melakukan pemantauan komprehensif terhadap seluruh kegiatan operasional, terutama yang melibatkan pihak ketiga, yang berpotensi menimbulkan benturan kepentingan maupun tuntutan hukum. Pemantauan dilakukan dengan mengembangkan standar perjanjian meliputi peraturan dan kebijakan internal, melakukan kaji ulang atas perjanjian transaksional, dan menganalisa potensi risiko hukum pada produk dan aktivitas baru.

Risiko Reputasi

Risiko Reputasi merupakan dampak negatif pada pendapatan, likuiditas, atau modal Bank yang timbul dari persepsi atau opini negatif *stakeholder* terhadap praktik bisnis, kegiatan dan kondisi keuangan Bank.

Pengendalian risiko reputasi dilakukan melalui pencegahan peristiwa yang dapat menyebabkan risiko reputasi, misalnya dengan melakukan komunikasi secara berkala kepada para pemangku kepentingan dan kegiatan tanggung jawab sosial perusahaan.

Mitigasi atas risiko reputasi dilakukan melalui pemantauan dan pengelolaan secara intensif atas pemberitaan negatif di media dan semua perangkat *service* oleh Divisi *Customer Advocacy and Service Quality* dan Divisi *Brand Performance Corporate Communications*.

Kualitas layanan dan penanganan keluhan nasabah telah ditingkatkan melalui pemantauan secara regular dan pengembangan program yang dilakukan oleh Divisi *Customer Advocacy and Service Quality*. Upaya Bank dalam memitigasi risiko reputasi berhasil mencapai tingkat penyelesaian keluhan nasabah sebesar 95% dari keseluruhan keluhan nasabah. Upaya tersebut dilakukan melalui:

- Melakukan revisi atas kebijakan dan pedoman dalam penanganan keluhan nasabah.
- Mensosialisasikan kebijakan tersebut serta alur kerja penanganan keluhan pada seluruh unit.

38. Risk Management Policies (continued)

Legal Risk (continued)

Bank has monitored the potential legal risk that might arise from the weaknesses of juridical aspects or lawsuits, nonexistence of clear regulations, lack of clarity of contracts, litigations, or collaterals. In managing the legal risk, Bank conducted monitoring in all operational activities, mainly those involving the third parties, which potentially cause conflict of interest as well as lawsuits. Monitoring is conducted by developing standard agreements that include regulations and internal policies, reviewing transactional agreements, and analyzing new products or activities for potential legal risks.

Reputation Risk

Reputation Risk is the adverse impact on the Bank's income, liquidity, or capital arising from negative stakeholder perception or opinion of the Bank's business practices, activities, and financial condition.

Risk controlling for reputation risk is conducted through prevention of events that could lead to reputation risk, for example by conducting a regular communication to stakeholders in the process of creating positive reputation and a series of activities such as corporate social responsibility.

Mitigation of reputation risk was performed through intensive monitoring and management of negative publications in media and all service tools by Customer Advocacy and Service Quality division & Brand Performance Corporate Communications division.

Service quality and handling of customer complaints have improved through the regular monitoring and development program by Customer Advocacy and Service Quality division. The Bank's effort in mitigating reputation risk has resulted in the achievement of customer complaints settlement in the year 2013 by 95% of all incoming complaints. Those efforts are made through:

- *Revising and adjusting policy and guidance for complaint handling.*
- *Socialization the revised policy and complaint management procedure to all units.*

38. Kebijakan Manajemen Risiko (lanjutan)

Risiko Reputasi (lanjutan)

- Memaksimalkan peran *Call Center* dengan meningkatkan mekanisme untuk menangani keluhan/ancaman media serta mendelegasikan beberapa wewenang penyelesaian keluhan nasabah.
- Melakukan evaluasi dan koordinasi secara berkala dengan unit-unit terkait untuk membahas keluhan nasabah, mencari solusinya termasuk penyelesaian keluhan sesuai dengan SLA yang ditentukan.
- Melakukan edukasi kepada nasabah terkait pencegahan atas *fraud* dengan menempatkan poster di cabang dan ATM, serta melalui iklan pada layar ATM.
- Pelatihan manajemen layanan kepada seluruh agen *collection*.
- Menetapkan Komite *Service Quality* yang bertujuan untuk mengevaluasi dan memantau *blue print* layanan UOB secara periodik.
- Menetapkan *Command Center* untuk eskalasi isu-isu terkait kartu kredit.

39. Nilai Wajar Instrumen Keuangan

Di bawah ini disajikan perbandingan antara nilai tercatat, seperti dilaporkan dalam laporan posisi keuangan, dan nilai wajar semua aset keuangan dan liabilitas keuangan.

	Nilai Tercatat/ Carrying Value	Nilai Wajar/ Fair Value
Aset Keuangan		
Pinjaman yang diberikan dan piutang		
Kas	591.145	591.145
Giro pada Bank Indonesia	5.327.965	5.327.965
Giro pada bank lain	1.242.511	1.242.511
Penempatan pada Bank Indonesia dan bank lain - neto	5.237.600	5.237.600
Kredit yang diberikan - neto	55.832.869	55.832.869
Tagihan akseptasi - neto	3.133.200	3.133.200
Aset lain-lain	269.556	269.556
Aset keuangan diukur pada nilai wajar melalui laporan laba rugi		
Efek-efek yang diperdagangkan	400.563	400.563
Tagihan derivatif	238.965	238.965
Aset keuangan tersedia untuk dijual		
Investasi keuangan tersedia untuk dijual	5.225.231	5.225.231
Aset keuangan yang dimiliki hingga jatuh tempo		
Dimiliki hingga jatuh tempo - neto	1.401.952	1.401.952
Total	78.901.557	78.901.557

38. Risk Management Policies (continued)

Reputation Risk (continued)

- Maximizing *Call Center* by improving the mechanism to handle hard/media threat complaints and delegation of duty regarding customer complaints settlement.
- Evaluating and coordinating regularly with related units to discuss customer complaint, find out alternative solution including complaint resolution as per determined SLA.
- Educate the customers on the precautionary against fraud by using posters placed in branches and ATMs as well as through the display space on the ATM screen.
- Service management training for all collection agents.
- Establishment of Service Quality Committee for periodic evaluation and monitoring UOB's service blue print.
- Establishment of Command Center for the escalation of credit card issues.

39. Fair Value of Financial Instruments

Below is presented the comparison between the carrying values, as reported in the statements of financial position, and the fair values of all financial assets and liabilities.

	Financial Assets
Pinjaman yang diberikan dan piutang	Loans and receivables
Kas	Cash
Giro pada Bank Indonesia	Currents accounts with Bank Indonesia
Giro pada bank lain	Current accounts with other banks
Penempatan pada Bank Indonesia dan bank lain - neto	Placement with Bank Indonesia and other banks - net
Kredit yang diberikan - neto	Loans - net
Tagihan akseptasi - neto	Acceptances receivable - net
Aset lain-lain	Other assets
Aset keuangan diukur pada nilai wajar melalui laporan laba rugi	Financial assets designated at fair value through profit or loss
Efek-efek yang diperdagangkan	Trading securities
Tagihan derivatif	Derivatives receivable
Aset keuangan tersedia untuk dijual	Available-for-sale financial assets
Investasi keuangan tersedia untuk dijual	Financial investments available-for-sale
Aset keuangan yang dimiliki hingga jatuh tempo	Held-to-maturity financial assets
Dimiliki hingga jatuh tempo - neto	Held-to-maturity - net
Total	Total

(Expressed in Millions of Rupiah,
Unless otherwise Stated)

39. Nilai Wajar Instrumen Keuangan (lanjutan)

Di bawah ini disajikan perbandingan antara nilai tercatat, seperti dilaporkan dalam laporan posisi keuangan, dan nilai wajar semua aset keuangan dan liabilitas keuangan. (lanjutan)

	Nilai Tercatat/ Carrying Value
Liabilitas Keuangan	
Liabilitas keuangan diukur pada nilai wajar melalui laporan laba rugi	
Liabilitas derivatif	255.593
Liabilitas Lain-lain	
Liabilitas segera	67.710
Simpanan	63.235.389
Simpanan dari bank lain	999.560
Bunga yang masih harus dibayar	218.173
Liabilitas akseptasi	3.136.138
Pinjaman yang diterima	328.413
Efek hutang yang diterbitkan	993.479
Liabilitas lain-lain	161.459
Total	69.395.914

Nilai wajar aset dan liabilitas keuangan, kecuali efek-efek yang diperdagangkan, tagihan dan liabilitas derivatif, investasi keuangan yang tersedia untuk dijual dan efek hutang yang diterbitkan, mendekati nilai tercatatnya karena aset dan liabilitas keuangan dalam jumlah signifikan memiliki jangka waktu yang pendek dan/atau suku bunganya sering ditinjau ulang. Tagihan dan liabilitas derivatif nilai wajarnya dihitung berdasarkan teknik penilaian. Efek-efek yang diperdagangkan dan investasi keuangan yang tersedia untuk dijual nilai wajarnya berdasarkan harga yang dapat diperoleh atau dapat diobservasi. Nilai wajar dari efek hutang yang diterbitkan dihitung menggunakan diskonto arus kas berdasarkan tingkat suku bunga pasar.

Penilaian atas nilai wajar instrumen keuangan berdasarkan hirarki nilai wajar dapat dilihat pada Catatan 2aa.

39. Fair Value of Financial Instruments (continued)

Below is presented the comparison between the carrying values, as reported in the statements of financial position, and the fair values of all financial assets and liabilities. (continued)

	Nilai Wajar/ Fair Value	
Financial Liabilities		
Financial liabilities designated at fair value through profit or loss		
	255.593	<i>Derivatives payable</i>
Other Liabilities		
Current liabilities		
	67.710	<i>Deposits</i>
	63.235.389	<i>Deposits from other banks</i>
	999.560	<i>Interests payable</i>
	218.173	<i>Acceptance liabilities</i>
	3.136.138	<i>Borrowings</i>
	328.413	<i>Debt securities issued</i>
	1.028.375	<i>Other liabilities</i>
	161.459	
Total	69.430.810	Total

The fair value of financial assets and liabilities, except for trading securities, derivatives receivables and liabilities, financial investments available-for-sale and debt securities issued, approximate its carrying values because financial assets and liabilities in significant amount have short-term period and/or the interest rate is frequently reviewed. Derivatives receivables and liabilities fair value is based on valuation technique. Trading securities, and financial investment available-for-sale fair value is based on quoted or observable prices. The fair value of debt securities issued are calculated using discounted cash flows using market interest rate.

Valuation for the fair value of financial instruments based on the fair value hierarchy refer to Note 2aa.

42. Standar Akuntansi Baru

Standar akuntansi yang berlaku efektif pada atau setelah 1 Januari 2015 adalah:

- PSAK No. 1 (2013): Penyajian Laporan Keuangan, yang diadopsi dari IAS 1

PSAK ini mengubah penyajian kelompok pos-pos dalam Penghasilan Komprehensif Lain. Pos-pos yang akan direklasifikasi ke laba rugi disajikan terpisah dari pos-pos yang tidak akan direklasifikasi ke laba rugi.

- PSAK No. 24 (2013): Imbalan Kerja, yang diadopsi dari IAS 19

PSAK ini, antara lain, menghapus mekanisme koridor dan pengungkapan atas informasi liabilitas kontinjensi untuk menyederhanakan klarifikasi dan pengungkapan.

- PSAK No. 46 (2014): Pajak Penghasilan, yang diadopsi dari IAS 12

PSAK ini memberikan tambahan pengaturan untuk aset dan liabilitas pajak tangguhan yang berasal dari aset yang tidak disusutkan yang diukur dengan menggunakan model revaluasi, dan yang berasal dari properti investasi yang diukur dengan menggunakan model nilai wajar.

- PSAK No. 48 (2014): Penurunan Nilai Aset, yang diadopsi dari IAS 36

PSAK ini memberikan tambahan persyaratan pengungkapan untuk setiap aset individual atau unit penghasil kas yang mana kerugian penurunan nilai telah diakui atau dibalik selama periode.

- PSAK No. 50 (2014): Instrumen Keuangan, yang diadopsi dari IAS 32

PSAK ini mengatur lebih dalam kriteria mengenai hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus atas jumlah yang telah diakui dan kriteria penyelesaian secara neto.

- PSAK No. 55 (2014): Instrumen Keuangan, yang diadopsi dari IAS 39

PSAK ini, antara lain, menambah pengaturan kriteria instrumen lindung nilai yang tidak dapat dianggap telah kedaluarsa atau telah dihentikan, serta ketentuan untuk mencatat instrumen keuangan pada tanggal pengukuran dan pada tanggal setelah pengakuan awal.

42. New Accounting Standards

Accounting standards which are effective on or after January 1, 2015 are as follows:

- SFAS No. 1 (2013): Presentation of Financial Statements, adopted from IAS 1

This SFAS change the grouping of items presented in Other Comprehensive Income. Items that could be reclassified to profit or loss would be presented separately from items that will never be reclassified.

- SFAS No. 24 (2013): Employee Benefits, adopted from IAS 19

This SFAS, among other, removes the corridor mechanism and contingent liability disclosures to simplify clarifications and disclosures.

- SFAS No. 46 (2014): Income Taxes, adopted from IAS 12

This SFAS now provides additional provision for deferred tax asset or deferred tax liability arises from a non-depreciable asset measured using the revaluation model, and those arises from investment property that is measured using the fair value model.

- SFAS No. 48 (2014): Impairment of Assets, adopted from IAS 36

This SFAS provides additional disclosure terms for each individual asset (including goodwill) or a cash-generating unit, for which an impairment loss has been recognized or reversed during the period.

- SFAS No. 50 (2014): Financial Instruments, adopted from IAS 32

This SFAS provides deeper about criterion on legally enforceable right to set off the recognized amounts and criterion to settle on a net basis.

- SFAS No. 55 (2014): Financial Instruments, adopted from IAS 39

This SFAS, among other, provides additional provision for the criteria of not an expiration or termination of the hedging instrument, and provision to account financial instruments at the measurement date and after initial recognition.

42. Standar Akuntansi Baru (lanjutan)

Standar akuntansi yang berlaku efektif pada atau setelah 1 Januari 2015 adalah: (lanjutan)

- PSAK No. 60 (2014): Instrumen Keuangan, yang diadopsi dari IFRS 7

PSAK ini, antara lain, menambah pengaturan pengungkapan saling hapus dengan informasi kuantitatif dan kualitatif, serta pengungkapan mengenai pengalihan instrumen keuangan.

- PSAK No. 68: Pengukuran Nilai Wajar, yang diadopsi dari IFRS 13

PSAK ini memberikan panduan tentang bagaimana pengukuran nilai wajar ketika nilai wajar disyaratkan atau diizinkan.

- ISAK No. 26 (2014): Penilaian Kembali Derivatif Melekat, yang diadopsi dari IFRIC 9

ISAK ini memberikan panduan penilaian apakah derivatif melekat disyaratkan untuk dipisahkan dari kontrak utama dan dicatat sebagai suatu derivatif.

Bank sedang mengevaluasi dan belum menentukan dampak dari Standar Interpretasi tersebut terhadap laporan keuangan.

43. Peristiwa setelah tanggal periode pelaporan

- a. Sehubungan dengan rencana Bank untuk melakukan penawaran umum Obligasi I Bank UOB Indonesia sejumlah Rp1.500.000.000.000 (nilai penuh), Bank telah menyampaikan surat No.15/DIR/0036 kepada Otoritas Jasa Keuangan (OJK) tertanggal 16 Januari 2015 perihal Pernyataan Pendaftaran dalam rangka Penawaran Umum Obligasi I Bank UOB Indonesia Tahun 2015. Atas Pernyataan Pendaftaran tersebut, pada tanggal 24 Maret 2015, Bank telah memperoleh pernyataan efektif dari Otoritas Jasa Keuangan (OJK) melalui surat No. S-115/D.04/2015.

- b. Berdasarkan surat tertanggal 30 Januari 2015, Safrullah Hadi Saleh telah mengajukan pemberitahuan kepada Bank sehubungan dengan permohonan pensiun. Berdasarkan Anggaran Dasar Perseroan, permohonan tersebut berlaku efektif 60 hari sejak diterimanya pemberitahuan, kecuali RUPS menentukan berlaku efektifnya sebelum 60 hari tersebut berakhir.

42. New Accounting Standards (continued)

Accounting standards which are effective on or after January 1, 2015 are as follows: (continued)

- SFAS No. 60 (2014): Financial Instruments, adopted from IFRS 7

This SFAS, among other, provides additional provision on offsetting disclosures with quantitative and qualitative information, and disclosures on transfers of financial instruments.

- SFAS No. 68: Fair Value Measurement, adopted from IFRS 13

This PSAK provides guidance on how to measure fair value when fair value is required or permitted.

- ISAK No. 26: Reassessment of Embedded Derivatives, adopted from IFRIC 9

This ISAK provides guidance on the assessment of whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative.

The Bank is presently evaluating and have not determined the effects of these Standards and Interpretation on the financial statements.

43. Events After the Reporting Period

- a. In relation to the Bank's plan to conduct public offering of Bonds I Bank UOB Indonesia amounting to Rp1,500,000,000,000 (full amount), Bank had been submitted letter No.15/DIR/0036 to Otoritas Jasa Keuangan (OJK) dated January 16, 2015 in regards to Registration Statement of public offering of Bonds I Bank UOB Indonesia Year 2015. From the said registration statement, on March 24, 2015, Bank obtained a notice of effectivity from Otoritas jasa Keuangan (OJK) through its letter No. S-115/D.04/2015.

- b. Based on letter dated January 30, 2015, Safrullah Hadi Saleh had submitted notification to the Bank in regard to pension application. Based on Bank's Article of Association, the above application will be effective 60 days upon receipt of such letter, unless otherwise the general shareholders meetings determined the effective date before the end of 60 days.

Profiles of the Board of Commissioners

Wee Cho Yaw

President Commissioner

Dr. Wee, aged 85 years old, has been the President Commissioner of UOB Indonesia since December 2005. Dr. Wee was first appointed to the Board in May 1958 and last re-appointed as Director on the 25th of April 2014. A banker with more than 50 years experience, Dr. Wee was conferred the title of Chairman Emeritus and Adviser in 2013 after stepping down as Chairman, a position he was appointed to in 1974. Between 1974 and 2007, he was concurrently the Chief Executive Officer of UOB. A non-independent and non-executive director, Dr. Wee is the chairman of the UOB Executive Committee, Remuneration and Board Risk Management Committees and a member of the Nominating Committee.

Dr. Wee is Chairman Emeritus and Adviser of the UOB subsidiaries Far Eastern Bank and United Overseas Bank (Malaysia). He is also Chairman of United Overseas Insurance, United Overseas Bank (Thai) Public Company and Supervisor of United Overseas Bank (China). Dr. Wee also chairs the boards of Haw Par Corporation, UOL Group and its subsidiary, Pan Pacific Hotels Group, United Industrial Corporation and Singapore Land and its subsidiary, Marina Centre Holdings and the Wee Foundation. He was the previous Chairman of United International Securities and Singapore Land.

Dr. Wee was named Businessman of the Year at the Singapore Business Awards in 2001 and 1990. In 2006, he received the inaugural Credit Suisse-Ernst & Young Lifetime Achievement Award for his outstanding achievements in the Singapore business community. The Asian Banker conferred the Lifetime Achievement Award to him in 2009. Dr. Wee is the Pro-Chancellor of the Nanyang Technological University and the Honorary President of the Singapore Chinese Chamber of Commerce & Industry, the Singapore Federation of Chinese Clan Associations and the Singapore Hokkien Huay Kuan. He received a Chinese high school education and was conferred an Honorary Doctor of Letters by the National University of Singapore in 2008. For his outstanding contributions to community work, he was conferred the Distinguished Service Order, Singapore's highest National Day Award, in 2011.

Wee Ee Cheong

Vice President Commissioner

Mr. Wee, aged 62 years old, was appointed as a Board of Commissioners' member of UOB Indonesia in August 2007 and currently serves as Vice President Commissioner.

Mr. Wee was appointed to the Board on the 3rd of January 1990 and was last re-elected as Director on the 25th of April 2013. A career banker, Mr. Wee joined UOB in 1979 and served as Deputy Chairman and President of the Bank from 2000 to 2007. On the 27th of April 2007, he was appointed as Chief Executive Officer. A non-independent and executive director, he is a member of the Executive and Board Risk Management Committees.

A banker with more than 30 years of experience, Mr. Wee holds directorships in several UOB subsidiaries including Far Eastern Bank (where he is also Deputy Chairman), United Overseas Insurance, United Overseas Bank (Malaysia) and United Overseas Bank (Thai) Public Company. He is Chairman of United Overseas Bank (China).

Active in industry development, Mr. Wee serves as a council member of The Association of Banks in Singapore, a director of The Institute of Banking & Finance and chairman of the Financial Industry Competency Standards Steering Committee. He is a member of the Board of Governors of the Singapore-China Foundation, Visa APCEMEA Senior Client Council and Advisory Board of INSEAD East Asia Council and International Council and an honorary council member of the Singapore Chinese Chamber of Commerce & Industry. He had also previously served as deputy chairman of the Housing & Development Board and as a director of the Port of Singapore Authority, UOL Group, Pan Pacific Hotels Group and United International Securities. In 2013, he was awarded the Public Service Star for his contributions to the financial industry.

A keen art enthusiast, Mr. Wee is the Patron of the Nanyang Academy of Fine Arts. He is also a director of the Wee Foundation.

Mr. Wee holds a Bachelor of Science (Business Administration) and a Master of Arts (Applied Economics) from American University, Washington, DC.
